Candidates' Statements

Ulrich Fekl

Ulrich Fekl is an Associate Professor in the Department of Chemical and Physical Sciences. He joined UTM in 2003. He is active in the teaching of chemistry (mostly the part of chemistry that involves metals, called "inorganic" and "organometallic" chemistry) and has an active research lab with graduate and undergraduate students at the UTM campus.

Jumi Shin

I am experienced in governance at UTM, as I have been a member of the Campus Affair Committee since its inception in 2013, when changes in governance were effected. I also made suggestions about how the new governing process could be more meaningful to us at UTM. I started here in 2002 and am now an Associate Professor in CPS. I have observed how UTM functions and gained insights into how I can contribute to our growing needs. I have been excited by the changes over the last 15 years, and excited by the opportunity to contribute to UTM's future.
