The proposal will follow a standard template to be developed by the parties.

6. Planning of a joint program will involve members of each institution as appropriate to the goal of the joint program. The terms and conditions for a new joint program and the relationship of the parties regarding that program will be set out in a joint program agreement that will follow a template to be agreed upon by the parties and will be consistent with the provisions of this Memorandum of Understanding and subject to the approval process and procedures required by the policies of each party.
7. The joint program agreement will address, among other issues, details of the nature of the program, academic administration and oversight, quality control, use of facilities and services and financial arrangements.

If so, the University affiliation agreement will apply to the student placements and this will be confirmed in writing with the clinical setting.
