| AGENDA ITEM:                | 2   |               |

### **ITEM IDENTIFICATION:**

The University's Budget Incorporating UTSC's Budget Envelope

### JURISDICTIONAL INFORMATION:

Section 5.1 of the UTSC Campus Affairs Committee Terms of Reference notes that budget matters are among the Committee's areas of responsibility.

### **GOVERNANCE PATH:**

- 1. UTSC Campus Affairs Committee [For Information] (March 22, 2017)
- 2. UTSC Campus Council [For Information] (April 18, 2017)

### **PREVIOUS ACTION TAKEN:**

At meetings on September 20, 2016 and October 5, 2016, the UTSC Campus Affairs Committee (CAC) and the UTSC Campus Council (CC) respectively received, for information, a presentation on the *Current Year Campus and Institutional Operating Budget*, which represented 'step one' in the budget process. At meetings held on November 23, 2016 and December 14, 2016, the CAC and CC respectively received a presentation, for information, on the *Operating Budget: Themes and Priorities*, which represented 'step two' in the budget process.

The University's Long Range Budget Guidelines 2017-18 to 2021-22 and Budget Report 2017-18 were considered and recommended for approval by the Business Board (February 27, 2017) and

the Planning and Budget Committee (March 1, 2017). This item will be subsequently considered for approval by the Academic Board (March 16, 2017), the Executive Committee (March 28, 2017) and the Governing Council (April 4, 2017).

The University's Tuition Fee Schedule for Publicly-funded Programs 2016-17 and for Self-funded Programs 2017-18 was considered and recommended for approval by the Business Board (February 27, 2017) and will subsequently be considered by the Executive Committee (March 28, 2017) and the Governing Council (April 4, 2017).

### HIGHLIGHTS:

This item is 'step four' in the University's budget development and information dissemination process. The four components are:

- (1) an integrated budget presentation to the CCs and CACs;
- (2) an overview of the proposed campus operating budgets (themes and priorities);
- (3) the Provost's budget review meetings; and
- (4) governance consideration of the University's operating budget.

The presentation will provide an overview of the allocation of funds as a result of the Provost's budget review meetings.

### **RECOMMENDATION:**

Presented for information.

### **DOCUMENTATION PROVIDED:**

In preparation for the presentation, members may refer to the following background documents, available on the governance portal:

- 1. Tuition Fee Schedules for Publicly Funded Programs, 2017-18
- 2. Annual Report on Student Financial Support, 2015-16
- 3. Enrolment Report, 2016-17
- 4. Long Range Budget Guidelines 2017-18 to 2021-22 and Budget Report 2017-18

University of Toronto Tuition Fee Schedules for Publicly-Funded Programs 2017-18

February 8, 2017

Prepared by the University of Toronto Planning and Budget Office

### **Tuition Fees at the University of Toronto**

Tuition fees at the University of Toronto are determined in accordance with the University's Tuition Fee Policy (Appendix A1), the Statement of Commitment Regarding International Students (Appendix A2) and the Provincial Government's Tuition Framework. In presenting this tuition schedule, the University reaffirms its commitment to student aid and its accessibility statement:

"No student offered admission to a program at the University of Toronto should be unable to enter or complete the program due to lack of financial means."

### The Provincial Tuition Framework (2013-14 to 2018-19)

In 2013, the Ministry of Advanced Education and Skills Development (MAESD) announced its Tuition Fee Framework for 2013-14 to 2016-17 replacing the previous framework that had been in effect since 2006-07. In December 2016, the Ministry announced the extension of the current framework for two additional years. The framework allows for some program variability within an annual 3% overall cap, a reduction from the pre-2013 framework which had a 5% overall cap. The framework is accompanied by an accessibility guarantee which requires a specific amount to be set aside by universities for student aid. A full overview of financial assistance available to students is included in the *2015-16 Annual report on Student Financial Support*, which accompanies this report through governance.

### **Models for Assessing Tuition Fees**

### **Program Fees and Course Fees**

Full-time undergraduate student fees are levied in one of two ways: program fees or course fees. Under a program fee structure, students pay a single fee for study classified as full-time for fee purposes. Under a course fee structure, students pay a fee for each course in which they are registered. Most University of Toronto programs collect fees under the program fee model.

### Programs with higher fees in upper year

In some undergraduate programs students pay a lower tuition fee in the first year and a higher fee starting in second year. This structure reflects the move from a first-year general program to a second-year specialized program. These programs include: Commerce, Business Administration, Management, Computer Science, Bioinformatics, Data Science, UTM Visual Studies, Communication, Culture and Information Technology (CCIT), and Interactive Digital Media.

### Programs with fees set at beginning of program (Cohort Fees)

There are a few programs in which tuition fees are set for the duration of the program at the point of entry and remain the same for all years of the program. These programs include the MD/PhD, the MBA 3-Year, the MHSc in Medical Radiation Sciences 3-Year, the Extended MEng, the Extended MFC, and the MHI Executive Stream. The tuition fees given in Appendix B for these programs will apply to all years of the program for the 2017-18 entering cohort. Effective 2017-18 in the MD/PhD program after Year 8, students will be charged the prevailing doctoral stream tuition rates.

### **Combined and Concurrent Program Fees**

The University has an increasing number of combined and concurrent program offerings. In order to improve communications with potential applicants and existing students, Schedules B4 & C4 provide detailed information on fees for combined programs. The proposed fees by year-of-study for the combined and concurrent programs for almost all cases are based on the fees proposed in Schedules B1, B3, C1 & C3.

### **Tuition Fees for Domestic Students**

The University's Tuition Fee Policy states that public funding be supplemented as necessary to offer students an educational experience of a quality that ranks with that of the finest public research universities in the world. Appendix B shows the proposed tuition fees for domestic students, by program, and by entering cohort where necessary. This schedule is applicable to students entering the University in May 2017 or later. According to this schedule, consistent with the Tuition Fee Policy and within the Provincial Tuition Framework, tuition fees will increase by an average of 3%. The following are the main features of the proposed tuition fee schedule for domestic students in 2017-18, 2018-19 for students in direct-entry programs. Full details are given in Appendix B. Fee increases are not the same for all programs, consistent with the University's Fee Policy which calls for a differentiated fee structure. According to this policy, tuition fees should reflect individual program goals, resource requirements, program costs, etc. For the purposes of this report, direct-entry undergraduate programs are programs of study into which a student may be admitted directly from high school (e.g., Engineering, Arts and Science, Architecture, Music). Second-entry undergraduate programs are programs of study that require a student to have some university preparation before admission to the program (e.g., Law (JD), Medicine (MD), and Nursing (BScN)).

### Domestic Students – Direct-entry Undergraduate

### 2017-18

Tuition fees for students entering first year in many undergraduate programs will increase by 3% relative to the 2016-17 levels. Students entering first year in 2017-18, and continuing students, in Arts & Science programs at all three campuses, Architecture, Landscape & Design, Music and Kinesiology and Physical Education will pay a tuition fee of \$6,590. Students entering Applied Science and Engineering will pay a tuition fee of \$15,010, a 5% increase relative to the 2016-17 level.

### 2018-19 (Net Billing)

The 2016 Ontario budget announced a fundamental restructuring of the provincial financial aid system, to begin in 2017-18. The goal is to modernize financial assistance by introducing a system that is more progressive, effective and transparent for students and will provide students who have the greatest need with better access to grants upfront. The changes will be rolled out in two phases.

In 2017-18, a new single upfront grant, called the Ontario Student Grant (OSG), will be established, redirecting all funds previously provided to students into the new Ontario Student Grant. The grant will provide tuition and needs-based support. Ontario expects that most students whose parents make up to \$83,000 will receive some grant funding.

In 2018-19, the second phase will see the implementation of net billing for domestic students in directentry undergraduate programs. The Province has signaled that net billing will be rolled out for all students in future years. Ontario universities and colleges will be required to bill each OSAP recipient entering postsecondary studies for the first time in the first year of a direct entry program what they owe in tuition and fees after OSAP funding is deducted. Students will apply for OSAP in the previous fall, rather than the spring. Estimates of OSAP and institutional aid, along with net price, will be provided to students with the offer of admission.

In order to provide better information to domestic students applying to direct-entry programs at the University of Toronto for 2018-19 (students will apply in Fall 2017, prior to Governing Council approval of 2018-19 tuition fees in April 2018), Table B1 of this report provides proposed domestic tuition fees for 2018-19, <u>for information</u>. These fees will be brought forward for Governing Council approval next year. They are included in this report to provide potential applicants with information regarding preliminary tuition fee levels for planning purposes.

# Table 3: Incoming and Continuing Students, Domestic Undergraduate <a href="Direct-entry">Direct-entry</a> Programs, 2017-18

| Program                            | Year 1 Tuition<br>2017-18 | % increase incoming and<br>continuing tuition fees |
|------------------------------------|---------------------------|--|
| Arts & Science, 3 campuses         | \$6,590                   | 3%   |
| Architecture, Landscape & Design   | \$6,590                   | 3%   |
| Music                              | \$6,590                   | 3%   |
| Kinesiology and Physical Education | \$6,590                   | 3%   |
| Applied Science & Engineering      | \$15,010                  | 5%   |

# Table 4: Incoming and Continuing Students, Domestic Undergraduate <a href="mailto:Direct-entry">Direct-entry</a> Programs,2018-19 FOR INFORMATION ONLY

| Program                            | Year 1 Tuition<br>2018-19 | % increase incoming and<br>continuing tuition fees |
|------------------------------------|---------------------------|--|
| Arts & Science, 3 campuses         | \$6,780                   | 3%   |
| Architecture, Landscape & Design   | \$6,780                   | 3%   |
| Music                              | \$6,780                   | 3%   |
| Kinesiology and Physical Education | \$6,780                   | 3%   |
| Applied Science & Engineering      | \$15,760                  | 5%   |

### Domestic Students – Second-entry Undergraduate

Several professional undergraduate programs are also limited up to 3% maximum increases for incoming and continuing students in 2017-18, as seen in Table 5.

# Table 5: Incoming and Continuing Students, Domestic Undergraduate Second-entry Programsat 3%, 2017-18

| Program  | Year 1 Tuition<br>2017-18 | % increase incoming<br>and continuing<br>tuition fees |
|--|---------------------------|---|
| Nursing  | \$8,840                   | 3%  |
| Physician Assistant  | \$12,340                  | 3%  |
| Radiation Sciences   | \$7,440                   | 3%  |
| OISE Certificates – Adult Education, 2015 onward                       | \$545/half course         | 3%  |
| OISE Certificates – Adult Education, 2014 or prior                     | \$500/half course         | 0%  |
| OISE Certificate – School Management/LHE                               | \$1,539/half course       | 3%  |
| Woodsworth Certificate Programs  | \$6,590                   | 3%  |
| Toronto School of Theology (TST) – Basic Degree<br>Programs (conjoint) | \$6,500                   | 2.85%   |

Tuition fees for the programs in Table 6 have been set to meet the special needs and circumstances of these programs, specifically more intensive resource requirements, and therefore increases for incoming students are 5%.

# Table 6: Incoming and Continuing Students, Other Domestic Undergraduate ProfessionalPrograms at 5%, 2017-18

| Program  | Year 1 Tuition<br>2017-18 | % increase incoming<br>and continuing<br>tuition fees |
|--|---------------------------|---|
| Pharmacy: PharmD                                   | \$19,120                  | 5%  |
| Pharmacy: PharmD for Pharmacists Part-time Program | \$2,319.01/half course    | 5%  |
| Dentistry: DDS                                     | \$39,240                  | 5%  |
| Law: JD  | \$34,980                  | 5%  |
| Medicine: MD                                       | \$24,440                  | 5%  |

### **Entering and Continuing Domestic Students – Graduate**

Tuition fees for students entering graduate programs are permitted to rise by 5% under the Provincial Tuition Framework. As noted above, tuition fees for doctoral stream students will be lowered by 1.0% (\$70) in 2017-18 to \$6,960 to allow room for tuition increases in other professional programs. Tuition fees for entering and continuing students in most professional master's and diploma programs will increase within a range of 2% to 5%, depending upon the resource requirements of the program and the level of the tuition fee relative to competing programs. In a few cases such as the Master of Management and Professional Accounting, Master of Finance, and OISE EdD tuition fees will be held constant. Continuing tuition fees for the Master of Information and Master of Museum Studies programs will also be held constant.

# Entering and Continuing Domestic Students – Conjoint Programs with the Toronto School of Theology

In accordance with the revised Memorandum of Agreement between the University of Toronto and the Toronto School of Theology, proposed tuition fees for the <u>conjoint</u> undergraduate and graduate programs are forwarded to the Business Board for review and approval annually.

Schedules B3, C1, and C3 include the proposed tuition fees for the conjoint graduate programs with the Toronto School of Theology: DMIN, ThD, ThM, PhD, and the MA in Theological Studies which will be starting in 2017-18. Tuition fees for the non-conjoint programs are not included and are approved by the TST Board of Trustee's Committee of Representing Members (CORM) since these are not University of Toronto programs.

### Programs with higher fees in upper year

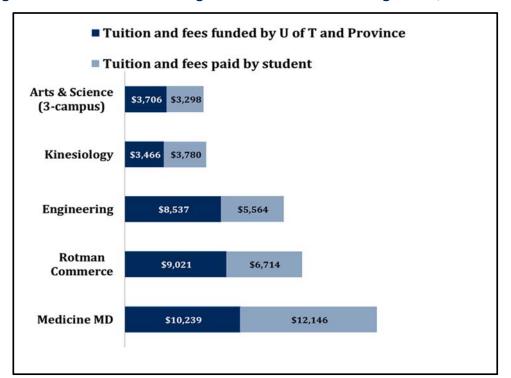

Tuition recommendations for students entering second year of the Commerce, Business Administration, Management, Computer Science, Bioinformatics, UTM Visual Studies, Communication, Culture and Information Technology (CCIT), and Interactive Digital Media programs in 2017-18 were approved as part of the 2016-17 Tuition Fee Schedule.

Students in the 2017 entering cohort will be moving to second year in 2018-19. The proposed increase for second year in 2018-19 is 5% for each of the Commerce, Business Administration, Management, Computer Science, Bioinformatics, Data Science, CCIT, Interactive Digital Media, and UTM Visual Studies programs over the 2017-18 second-year cohort. For clarity, and to ensure that students are properly informed at the time they enter the University, tuition fees in second year of these programs are given separately in Schedule B2 of Appendix B for 2016-17, 2017-18 and 2018-19. Approval of the tuition schedule proposed in this report will constitute an approval of second year tuition in these programs for 2018-19 as well as 2017-18. Tuition fees in 2018-19 for all other programs and years of study will be submitted to Governing Council for approval in the spring of 2018, as per usual practice.

### **Net Tuition**

Net tuition is the amount that students actually pay after taking into account the contribution of both the Province, through OSAP grants and the Ontario Tuition Grant (OTG), and the University, through its various grant, scholarship, and waiver programs. Although of assistance to students, OSAP loans are excluded from net tuition calculations given that a portion of loans must be repaid.

The University has been monitoring the net tuition measure for the past several years for the full-time undergraduate cohort. Net tuition for OSAP recipients was 51% on average in 2014-15. Net tuition was even lower, at 46%, for OSAP recipients in direct-entry programs. These amounts excluded the value of federal and provincial tuition tax credits, which are worth more than \$2,000 per year to the average Canadian student (Source: 2013 CD Howe Institute: What You Don't Know Can't Help You. Lessons on Behavioural Economics for Tax-based Student Aid.) Examples of net tuition for specific programs is shown in Figure 1 below.

### Figure 1: Net tuition for undergraduate students receiving OSAP; 2014-15

### **Tuition Fees for International Students**

The University of Toronto is committed to maintaining and strengthening its international enrolment as expressed in the Statement of Commitment Regarding International Students given in Appendix A2. The University has invested in, and will continue to invest in, services to enhance the success of our international students. The proposed tuition fee schedule for international students is in Appendix C.

International fees are set at a level to more closely reflect the true cost of educating students, whereas revenue from grants and tuition fees for domestic students remains well below the true cost.

### Tuition Fee Increases for 2017-18

Tuition increases for students entering the tri-campus Arts & Science programs will increase by 9% in 2017-18. Tuition increases for students entering Applied Science and Engineering programs will increase by 8%. Most other entering and continuing students will see 5% increases. Tuition fee increases for entering students in professional graduate programs will range from 0% to 15% depending upon the resource requirements of the program and the level of the tuition fee relative to competing programs. Tuition fee increases for continuing international students will increase by no more than 5%. The weighted average international tuition fee increase in 2017-18 is 5.9%

### Programs with higher fees in upper year

Tuition recommendations for students entering second year of the Commerce, Business Administration, Management, Computer Science, Bioinformatics, UTM Visual Studies, Communication, Culture and Information Technology (CCIT), and Interactive Digital Media programs in 2017-18 were approved as part of the 2016-17 Tuition Fee schedule.

Students in the 2017 entering cohort will be moving to second year in 2018-19. The proposed increase for second year in 2018-19 is 10% for each of the Commerce, Business Administration, Management, Computer Science, Bioinformatics, Data Science, CCIT, Interactive Digital Media, and UTM Visual Studies programs (Schedule C2) over the 2017-18 second-year cohort.

### International Tuition for the Combined and Concurrent Programs

The proposed fees by year of study for the combined and concurrent programs in almost all cases are based on the fees proposed in Schedules C1 & C3.

Most combined and concurrent programs do not currently have international students enrolled. In the event that they do in future, international tuition fees would be charged following the same practices as outlined in the domestic Schedule B4.

### **Tuition Fee Increases for 2018-19**

The tables in Appendix C show the proposed international tuition fees for 2018-19. In many cases, tuition will increase by 5%. For some programs, further increases beyond 5% are needed to cover resource requirements. For a few programs, increases ranging between 2% to 4% are proposed primarily due to

competitive recruitment environments. These fees will be brought forward for Governing Council approval next year. They are included in this report to provide potential applicants with information regarding preliminary tuition fee levels for planning purposes.

### International Student Recovery

In the 2012 Ontario Budget the provincial government announced two International Student Recovery (ISR) operating grant reductions. The first reduction eliminated the previous subsidies for non-PhD international students that were provided to institutions to pay their municipal taxes. The second ISR is a reduction, in the words of the government, of the "indirect support through operating grants" that it provides to non-PhD international students. The \$75 grant/subsidy for each non-PhD international student to assist with the payment of municipal taxes was discontinued. Each non-PhD international student also triggers a deduction of \$750 from the institution's operating grant allocation.

Many institutions, including the University of Toronto, are recovering this reduced level of operating grant funding through the charging of higher international tuition fees. Although the provincial decisions are regrettable, the international fees for students entering in 2013-14 and beyond include additional fees of \$825 related to the ISR.

Although the provincial government will reduce the University's operating grant funding for international doctoral stream masters students, the University is not recovering the lost revenue via higher tuition. The University will continue to have a common doctoral stream tuition fee for its PhD and doctoral stream masters (MA, MASc, MSc) programs.

### **International Tuition Fee Comparisons**

In many programs, the University of Toronto's 2016-17 international tuition fees for undergraduate were at or near the top amongst our Canadian U15 peers; compared to US peer institutions our international fees remain toward the top of the comparator range before the exchange rate is considered. This is appropriate given the University of Toronto's place in the international rankings and international student enrolment remains very strong.

A comparison of 2016-17 Arts & Science undergraduate tuition is a useful example. The University of Toronto Arts & Science international undergraduate tuition (plus incidental fees) was \$43,294 Cdn; \$32,470 US<sup>1</sup> was the highest amongst U15 peers. Tuition plus fees for undergraduate out-of-state Arts & Science students for the AAU public universities in the United States ranged from \$21,583 to \$45,410 US, with a mean of \$32,476. Private institutions' fees remain considerably higher at \$45,600 to \$55,100. With the current exchange level of the Canadian dollar, tuition fees are favorable to students from key international markets such as China, Pakistan, South Korea, Hong Kong and the United States.

<sup>&</sup>lt;sup>1</sup> Converted at \$0.75

The University carefully monitors applications, offers, yields and entering averages. Applications continue to rise each year while yield rates for most programs are stable or increasing; entering averages are also increasing across all three campuses. That is, the University continues to attract high quality students in ever greater numbers.

### **Tuition Revenue**

Tuition revenues increase annually as a result of higher enrolments and tuition fee increases. Each year the University returns a portion of tuition revenues to domestic students through a wide range of financial supports including work-study programs, grants, scholarships and bursaries. New tuition revenues from international enrolments require significant investment in services to ensure a high-quality experience and the success of our international students. In addition, merit and need-based granst are available to international students. In 2017-18 the Lester B. Pearson Scholarship will be introduced. Pearson Scholars will receive a scholarship that will cover tuition, books, incidental fees, and full residence support for four years of undergraduate study and is currently valued at \$55,000-\$65,000 per year, depending on the student's program of study. Thirty-seven international students will be named Lester B. Pearson Scholars for studies beginning in September, 2017. At maturity in 2020, 150 Pearson Scholars will be registered for studies.

The proposed budget for 2017-18 is a balanced budget with total operating revenues and expenditures projected to rise by \$155 million. With no increase in revenue from per-student operating grants projected for 2017-18, new tuition revenues are critically necessary to fund initiatives and enhancements across academic, student, and shared service divisions. Academic plans include additional tenure and teaching stream faculty in many divisions, strengthening commitments to equity and diversity in faculty hiring and student recruitment, enhancement of international student services and mental health services, investment in research infrastructure and clusters, fostering experiential and work integrated learning, curriculum redesign including integrating new learning technologies, and operating budget contributions toward capital projects. Allocations to shared-services are restrained, yet recognize the importance of continued investment, and in some cases enhancement, in vital services. Priorities over the next few years include implementation of recommendations outlined in the Report on Prevention and Response to Sexual Violence, ongoing improvements to the student information system, funding to sustain the services and collections (primarily electronic) of our world-class library system, a multi-year project to upgrade classrooms on the St. George campus, and continuation of the Boundless fundraising campaign.

The University continues to monitor the impact of tuition fee increases on enrolment to ensure that enrolment is unaffected by tuition, as required by the University's Fee Policy. In recent years, the University's Enrolment Reports have consistently shown that demand for University programs continues to be very strong and undergraduate entering averages continue to rise across all three campuses.

The University also reports annually on student financial support, outlining expenditures on need-based student aid, support for international, graduate and part-time students as well as merit-based funding. The Annual Report on Student Financial Support for 2015-16 will accompany this Tuition Fee Report through the governance process.

### **Fee Level Commitment**

The University's Tuition Fee Policy (Appendix A1) states that in establishing the tuition fee schedule, a commitment should be made to each student upon entry as to the level of fees to be charged over the normal course of the full-time program of study. Beginning in 1998-99, the University of Toronto made a commitment to students in its fee schedules guaranteeing that, unless otherwise noted, no student continuing in a program will be subjected to a fee increase of more than 5% per year. This policy remains in effect regardless of the tuition framework in place at any given point in time. For students in the doctoral stream, the commitment is in effect for two years for Master's students and for four years for PhD students. For students who participate in a Professional Experience Year or in co-op programs as part of their undergraduate program, the normal length of full-time study increases by one year. For undergraduate students entering the University via an International Foundation Program, the normal length of study also increases by one year. The normal length of a program will be determined each year and posted on the University's website.

The Government's Tuition Framework for the period 2013-14 to 2018-19 limits tuition increases for domestic students who are continuing in their programs to 3% for undergraduate Arts & Science, Music, Kinesiology, Architecture, Landscape & Design, Education, Nursing, Radiation Science, Physician Assistant and Transitional Year Programme. It limits increases to 4% for students entering prior to 2013-14 in professional programs and to 5% for students entering in professional programs in 2013-14 and beyond. The University will adhere to the Tuition Framework and tuition fee increases for continuing full-time domestic students will follow the above-noted caps.

### **Partial Fees**

Many students at the University of Toronto are charged partial fees based on the tuition fee for full-time study. The following formulas guide the derivation of partial fees:

- 1. Part-time fees for graduate programs are set at 30% of the full-time annual fee, with the exception of the Post-Masters Nurse Practitioner Diploma program and MD Extended Clerkship students.
- 2. The Post-Masters Nurse Practitioner Diploma program is only offered on a part-time basis over 20 consecutive months. Domestic students entering the program in 2017-18 will be charged \$9,090 in the first year, and a projected 5% increase to \$9,540 in second year. New international students will be charged \$18,670 in 2017-18 and \$20,540 in 2018-19 while continuing international students will be charged \$17,820 in 2017-18 and \$19,600 in 2018-19.

- 3. Part-time domestic MD Extended Clerkship students will be charged a program fee of \$3,720 per term. It is anticipated that most students will register in the Summer and Fall terms.
- 4. In programs for which tuition fees are levied on a course-by-course basis, the course tuition fee is the tuition fee for the program divided by the normal course load for full-time study.
- 5. Part-time fees for undergraduate programs are equal to the full-time fees pro-rated on a per course basis relative to full-time course load.
- 6. When computing a partial fee, the respective fee for full-time study is the tuition fee for either domestic or international students, depending on the status of the student.
- 7. Because of the minimum costs incurred for registration in any program, no tuition fee in 2017-18, after refunds in the case of full withdrawal from the University, shall be less than \$270.

### **Appendix A1: Tuition Fee Policy**

The University of Toronto's tuition fee policy should reflect its mission as an internationally significant, public research university with undergraduate, graduate and professional programs of excellent quality. Such a goal assumes an appropriate level of funding which, for a public university, means principal support from the Provincial and Federal Governments, and from endowment funds as well as tuition fees. It also assumes the existence of programs of student aid to maintain the accessibility of the University to students of varying financial means. The effect of this policy should be neutral with regard to enrolment levels, which will be determined from time to time through the University's planning processes. Our tuition fee policy has five elements:

**1. Advocacy.** In making the case for public policies strongly supportive of an accessible public system of university education, the University will continue to advocate ongoing and substantial public investment in the university sector.

**2. Fee Revenue.** The University of Toronto will continue to be a public university, for which ongoing and substantial support from government will always be essential. The basic principle of the tuition policy is that public funding should be supplemented as can be demonstrated to be necessary to offer students an educational experience of a quality that ranks with that of the finest public research universities in the world.

**3.** Fee Differentiation. The University should continue to move toward a more differentiated structure of fees across programs. In setting fees for each particular program, the following factors will be taken into account:

- Fees should take into account the plans and aspirations of each academic division, and the level of resources necessary to achieve high program quality.
- Program costs should be taken into account in setting fees.
- Fees should be set at a level that is competitive with programs of similar quality in institutions with which we compete or expect to compete for students.
- Fee levels should be relatively higher in programs for which the future income prospects of graduates are relatively higher.
- Fee levels should reflect a justifiable balance across public and private sources of revenue per student.
- Fee policy should allow for intentional, disproportionate public subsidies and intra-university cross-subsidies, where a case for cross-subsidization can be made.

In bringing forward the tuition fee schedule each time, the administration shall provide an explanation taking account of the above factors.

**4.** Fee Level Commitment. The tuition fee schedule will include a commitment to be made to each student upon entry as to the level of fees to be charged over the normal course of the full-time program of study.

**5. Monitoring.** In presenting the annual Report on Enrolment, the Vice-President and Provost shall include commentary regarding the effects, if any, of changes in tuition fees upon changes in enrolment.

March 25, 1998

# Appendix A2: Statement of Commitment Regarding International Students

### Preamble

International students are an essential feature of the University of Toronto's participation in international scholarship. They contribute to the international character of the University's research, and provide opportunities for the international exchange of knowledge through its teaching programs. The presence of outstanding students from all parts of the world in the University's undergraduate and graduate, professional, and research programs, helps to achieve the excellence the University seeks to assure for all its activities. On the University's campuses international students also make an important and positive contribution to the cultural life of the community and create lasting relationships of benefit to individuals as well as to the institution and the country generally. And finally, by enrolling international students, the University of Toronto, as an internationally significant university, has an opportunity to share its educational resources with other countries whose institutions are still evolving.

In light of these considerations, the Governing Council has adopted the Statement of Commitment Regarding International Students that commits the University to enrolling a broad mix of international students in its programs, and that articulates the basic principles that will guide their admission to the University, arrangements for their financial support, right of access to academic courses and programs, and the provision of services to address their particular needs.

This Statement of Commitment applies to University of Toronto students in university degree, diploma and certificate programs who are not Canadian citizens, permanent residents, or convention refugees.

### **Statement of Principles**

- 1. Within the Framework of divisional academic plans, the University of Toronto welcomes international students into all of its programs.
- 2. The admission of international students will be consistent with the Policies and Principles for Admission to the University of Toronto approved by the Governing Council in 1991.
- 3. The University will broaden and strengthen its recruiting efforts abroad.
- 4. Once admitted to the University, international students will have access to the same range of courses and support services on the same basis as other students.

### **Financial Support**

1. International students who are admitted and enrolled may encounter financial emergencies and the University will provide financial assistance as needed and where possible.

- 2. The University will develop a program of international admission scholarships using its own resources and support from external sources to be awarded on the basis of exceptional academic merit and financial need.
- 3. The Report of the Vice-Provost, Students on Student Financial Support, submitted annually to governance for information, will include data on the support provided to international students.

| Gene | ral Notes:   |         |          |         |

Tuition fee increases for continuing full-time international students are limited to maximum 5% in 2017-18 for the normal
length of a full-time program. The normal length of program is two to five years. Students who exceed the normal length of their program will be charged the same tuition as students in the final year of that program.

2) Tuition fee rates for each year noted above are effective May 1st. For example, the tuition fees rates for 2017-18 commence in the Summer 2017 session.

#### Appendix C TABLE C2: TUITION FEE SCHEDULE FOR INTERNATIONAL UNDERGRADUATE STUDENTS IN PROGRAMS WITH HIGHER FEES IN UPPER YEARS

#### General Notes:

Tuition fee increases for continuing full-time international students are limited to maximum 5% in 2017-18 for the normal
 length of a full-time program. The normal length of program is two to five years. Students who exceed the normal length of their program will be charged the same tuition as students in the final year of that program.

2) Tuition fee rates for each year noted above are effective May 1st. For example, the tuition fees rates for 2017-18 commence in the Summer 2017 session.

#### Dentistry-Specific Notes:

\* After minimum registration, i.e. in Year 3 & onwards, students are subject to the SGS doctoral stream tuition fee.

\*\* After minimum registration, i.e. in Year 4 & onwards, students are subject to the SGS doctoral stream tuition fee.

\*\*\* After minimum registration, i.e. in Year 5 & onwards, students are subject to the SGS doctoral stream tuition fee.

\*\*\*\* After minimum registration, i.e. in Year 7 & onwards, students are subject to the SGS doctoral stream tuition fee.

# **1. BACKGROUND**

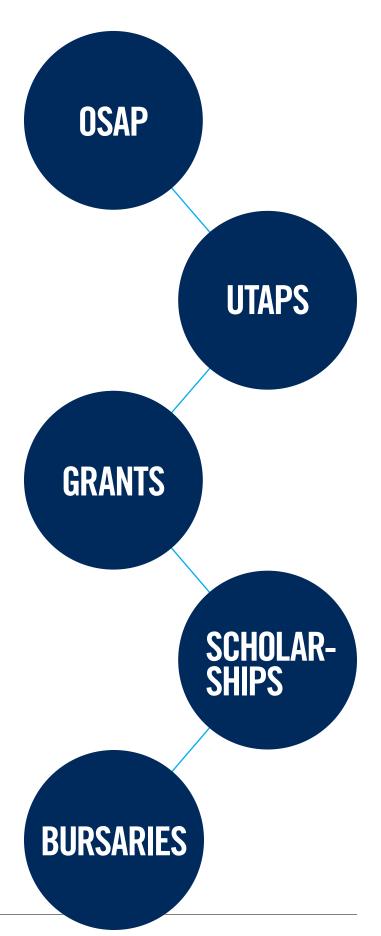

The University of Toronto maintains a deep and abiding commitment to financial support and advising for its students. As articulated in the Governing Council Policy on Student Financial Support (approved by Governing Council in April 1998): "No student offered admission to a program at the University of Toronto should be unable to enter or complete the program due to lack of financial means."<sup>1</sup>

**Undergraduate and graduate students** at the University of Toronto have access to a wide range of financial supports through the University in addition to those available through government loan and grant programs like the Ontario Student Assistance Program (OSAP). Some are based on need, and others on measures of merit, such as academic achievement or leadership. There are supports for international and Canadian students as well as dedicated supports for students with disabilities. Many of these forms of aid do not have to be repaid.

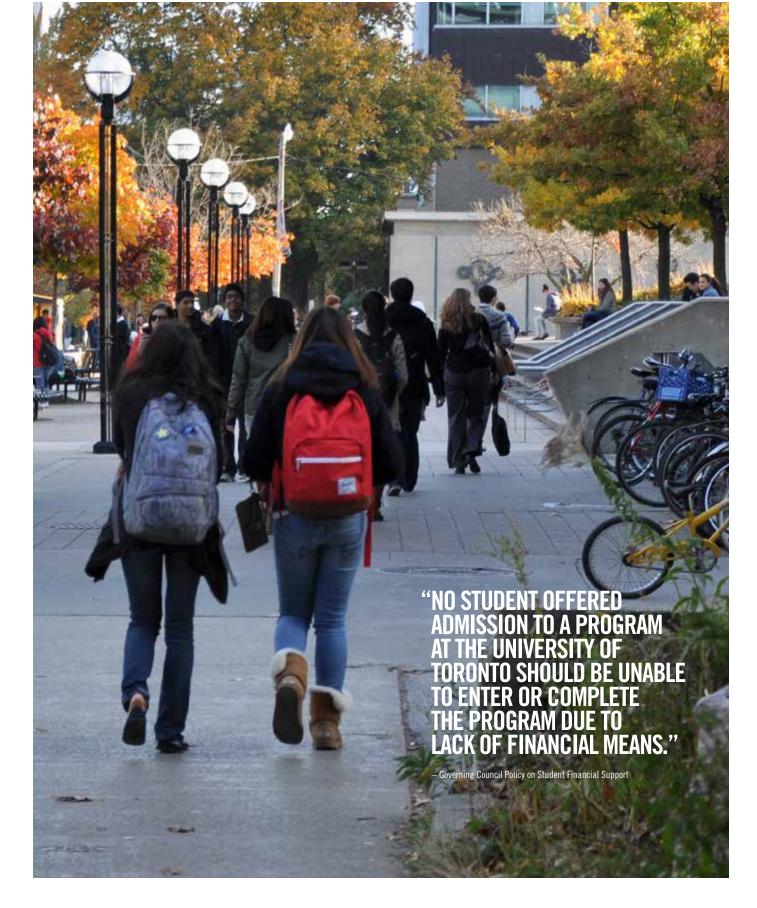

Student support is funded by a mix of university operating dollars and donated funds; the latter may be used only in accordance with the terms of the donation.

In doctoral-stream programs, many graduate students are eligible to receive funding for up to five years of study while students completing a doctoral thesis may be eligible for completion awards. Many professional master's program students are eligible for bursaries funded by their program and/or have access to private loan assistance.

As required by the Governing Council policy, this annual report includes detailed information on financial support by academic division, OSAP debt-load for students graduating from undergraduate direct-entry programs, and funding for doctoralstream students. In addition, this report attempts to provide a wider view of financial support and related issues relevant to the University of Toronto.

<sup>&</sup>lt;sup>1</sup> This policy applies to domestic students.

4

# **2. OVERVIEW OF STUDENT ASSISTANCE**

In Spring 2016, the Ontario government announced a two-stage restructuring of OSAP. Beginning in 2017-18, most Ontario grants will be folded into a single, income-based Ontario Student Grant. The grant will provide tuition and needs-based support. Ontario expects that most students whose parents make up to \$83,000 will receive some grant funding.

**In 2018-19**, Ontario universities and colleges will be required to bill each OSAP recipient entering postsecondary studies for the first time in the first year of a direct entry program what they owe in tuition and fees after OSAP funding is deducted.

The University of Toronto's Policy on Student Financial Support sets out the principle that students should have access to the resources that will enable them to meet their financial needs, based on the methodology used by the Ontario Student Assistance Program (OSAP). In practice, this means that qualified students receive non-repayable institutional student aid, or access to an institutionally negotiated bank line of credit if their financial need is greater than what OSAP provides.

This commitment goes beyond the requirements of the Province of Ontario's Student Access Guarantee (SAG), which defines institutional requirements for meeting a student's financial needs. SAG requires institutions to provide nonrepayable aid to assist students with expenses related to tuition, books and supplies not covered by OSAP; the University of Toronto also provides aid for living expenses.

This section provides an overview of the various forms of aid offered to University of Toronto students.

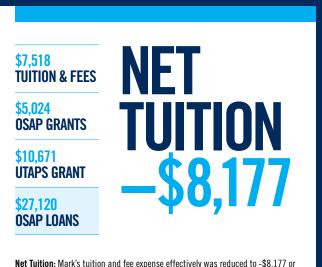

#### **MEETING THEIR NEEDS** PROFILES OF UNIVERSITY OF TORONTO STUDENTS RECEIVING FINANCIAL AID

#### **UTAPS ASSISTANCE FOR REGULAR TUITION FEES**

MARK

Mark is in his fourth year in the Faculty of Arts and Science. He is a married student with two children under the age of 11. His spouse is unemployed so there is no family income. As OSAP did not fully meet Mark's financial need, the University of Toronto provided him with a \$10,671 UTAPS grant.

While he is in school, the interest that accrued on Mark's loans was paid by government. At the end of his 2015-2016 study period, Mark's loan repayment amount was reduced by \$19,720 through the province's Ontario Student Opportunity Grant (OSOG) because his loan was more than the \$7,400 OSOG threshold.

**Net Tuition:** Mark's tuition and fee expense effectively was reduced to -\$8,177 or -109% of the published fee, after subtracting **non-repayable** aid.

**OSOG** is not reflected in the net tuition paid by Mark because OSOG was not paid to him directly. It was paid on his behalf by the province to the National Student Loan Service Centre to reduce his outstanding OSAP loan.

## **TYPES OF FINANCIAL SUPPORTS**

**Some types of student financial support** provided to students by the University or government require explicit demonstration of financial need, often through the assessment methodology used by OSAP. Other forms of support may be based on academic merit while others, such as graduate funding packages, may be allocated in other ways. The array of funding assistance provided by the University of Toronto helps support students in a variety of situations.

### ASSISTANCE BASED ON OSAP ASSESSMENTS

#### UTAPS

University of Toronto Advance Planning for Students (known as UTAPS) is the University's major program for meeting financial need not addressed by OSAP, other government programs, or First Nations band funding.

Based on the OSAP needs assessment, UTAPS provides a consistent means of evaluating and meeting financial need. Students with financial need in excess of the maximum assistance provided by OSAP for tuition and compulsory fees, books, equipment, supplies and living expenses, have that need met by the University through non-repayable funding such as grants as well as institutionally-negotiated bank loans. Students receiving funding from another province, territory or First Nations band may also be eligible for the program.

## **OTHER STUDENT FINANCIAL SUPPORT**

#### **FUNDING FROM DIVISIONS**

Many students who may or may not have qualified for government aid and UTAPS also qualify for grants through their academic divisions. These grants are awarded on the basis of the division's assessment of the student's individual circumstances.

#### **MERIT-BASED AID**

Merit-based awards funded by operating dollars and donations are primarily aimed at recognizing the academic achievements of students. Candidates applying or being considered for an award must meet the award criteria. While many awards are provided automatically, some are provided once a final selection is made by student award committees. Though many merit-based awards do not have a financial need component, the award may, in fact, help reduce the recipient's financial need. Major universitywide undergraduate merit awards include: the National and Arbor Scholarships, the University of Toronto Scholarships, the President's Scholars of Excellence Program, the President's Entrance Scholarships, and the President's Scholars of Excellence Program. Graduate merit awards include the Connaught

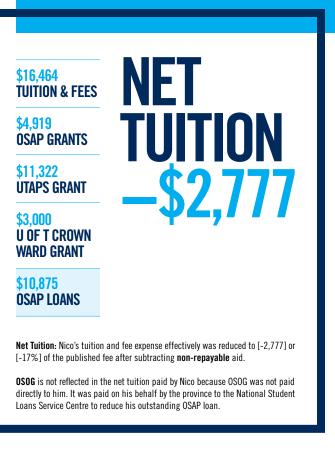

#### **MEETING THEIR NEEDS** PROFILES OF UNIVERSITY OF TORONTO STUDENTS RECEIVING FINANCIAL AID

#### **OSAP LOAN & GRANT SUPPORT**

Nico, a crown ward, is in his third year of a Bachelor of Commerce program at the Mississauga campus. As OSAP did not fully meet Nico's financial needs, the University of Toronto provided him with a \$11,322 UTAPS grant.

NICO

While he was in school, the interest that accrued on Nico's loans was paid by the government. At the end of his 2015-16 study period, Nico's loan was reduced to \$3,475 through the province's Ontario Student Opportunity Grant (OSOG) because his loan was more than the \$7,400 OSOG threshold.

Scholarship and the Beatty Fellowships. Divisions also offer a variety of merit-based awards based on their recruiting priorities and on the terms of donated funds.

#### **WORK STUDY**

Since the University of Toronto assumed full funding responsibility for this program in 2012–13, Work Study has steadily climbed in popularity. It represents an excellent way for students to gain work experience in the varied settings that the University has to offer. Details about the University of Toronto's Work Study program are provided in *Section 3 – Other Student Financial Supports*.

## DOCTORAL-STREAM STUDENT SUPPORT FOR DOMESTIC AND INTERNATIONAL STUDENTS

The University of Toronto is committed to the financial support of domestic and international graduate students in doctoralstream programs. While the duration of the commitment varies among the graduate units, one year of master's study and four years of PhD study are most common. Funding packages for eligible students are arranged by faculties/graduate units, and may consist of some combination of University of Toronto Fellowships, faculty or departmental grants, scholarships or bursaries, employment income, research stipends, and external awards. Across units, packages range from \$15,000 – \$26,000, plus academic tuition and incidental fees. Actual student incomes can be considerably higher, as there are often opportunities for additional awards, research stipends, and employment income (http://www.sgs.utoronto.ca/gradfunding/Pages/default.aspx).

#### LOAN PROGRAM FOR STUDENTS IN PROFESSIONAL FACULTIES

The Scotia Professional Student Plan is an institutionally negotiated line of credit that students in certain programs may choose to use if they need help with costs in excess of their OSAP funding and needs-based assistance they receive through divisionally managed bursary programs.

The current line of credit agreement with Scotiabank came into effect on July 1, 2015. The agreement broadens the scope of previous line of credit agreements.

In 2015-16, students in the following programs are eligible to apply for additional funding through the line of credit to help with their costs.

- Dentistry (DDS)
- Law (JD, LLM, GPLLM)
- Management (MBA, MF, MMPA, MMI, DIFA)
- Medicine (MD)
- Pharmacy (PharmD)

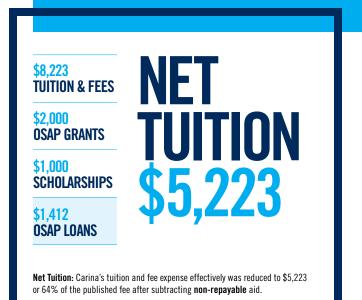

#### **MEETING THEIR NEEDS** PROFILES OF UNIVERSITY OF TORONTO STUDENTS RECEIVING FINANCIAL AID

#### **OSAP LOAN & GRANT SUPPORT**

A Victoria College student registered in the Concurrent Education Teacher program, Carina is a single, dependent student with disabilities. She is in the fourth year of her program and lives away from home during her studies.

CARINA

Her parents' combined income is \$189,118 and she is one of two children in the family, both of whom are enrolled in postsecondary studies. Even at this level of parental income, the assessed cost of two children in postsecondary studies means that Carina still qualified for OSAP (i.e., \$3,412). Carina also was awarded the Kingston Pro William and Dr. John III Scholarship for \$1,000 by Victoria College.

While she was in school, the interest that accrued on Carina's loans was paid by government. At the end of her 2015-16 study period, Carina's OSAP loan was not reduced by the province's Ontario Student Opportunity Grant (OSOG) because her loan was less than the \$7,400 OSOG threshold.

University of Toronto – Office of the Vice-Provost, Students 2015-16 Annual Report on Student Financial Support

Starting in 2016-17, the University will begin transitioning incoming students in a small number of professional master's programs<sup>2</sup> from the centralized UTAPS program to divisionally managed bursary programs. In 2017-18, incoming students in the remaining professional master's programs will be transitioned. If necessary, affected students will also have the option of borrowing additional funds through the Scotiabank line of credit program. Students who began their program *before* it transitioned to a divisionally managed bursary program will continue to be considered for UTAPS for the duration of their program in order to allow continuity in their financial planning.

The line of credit is available to full and part-time Canadian students and permanent residents. Preferred interest rates have been negotiated by the University. Credit limits have been set by the bank in consultation with the University and will be adjusted annually to reflect tuition increases.

Details about the Scotiabank line of credit are provided in *Section 4 – UTAPS Grants.* 

#### SUPPORT FOR PART-TIME STUDENTS

Students enrolled in a course load of less than 60% (less than 40% for students with permanent disabilities) are defined as parttime students by the federal and provincial governments, and therefore are not eligible for OSAP and UTAPS. These students, however, may be eligible for the University of Toronto's Noah Meltz Student Assistance Program (for part-time undergraduate students), or the provincially-funded Ontario Part-time Grant (for undergraduate and graduate students) and the federal government's Part-time Canada Student Loan Program (for undergraduate and graduate students), including Canada Student Grants. *Section 3 – Support for Students Studying on a Part-Time Basis* provides details about these programs.

#### SUPPORT FOR STUDENTS WITH DISABILITIES

Students with disabilities who have disability-related support costs (e.g., tutoring, note taking, adaptive technologies) that are greater than the disability-related funding they receive through their government-funded financial aid package may receive help for the additional costs through the University of Toronto's Alternate Grant. *Section 3 – Support for Students with Disabilities* provides details about the Alternate Grant.

#### SUPPORT FOR CROWN WARDS

Crown wards, former Crown wards, and students in receipt of the Government of Ontario's Extended Care and Maintenance Allowance may be eligible for the University of Toronto Crown Ward Grant. Section 3 - Support for Crown Wards provides details about the Crown Ward Grant.

## MEETING THEIR NEEDS PROFILES OF UNIVERSITY OF TORONTO

ROSHEEN

#### **ASSISTANCE FOR AN INDIGENOUS STUDENT**

STUDENTS RECEIVING FINANCIAL AID

Rosheen is an indigenous student in the first year of the Master of Museum Studies program and is living away from home during her studies. Since OSAP did not fully meet Rosheen's financial needs, the University of Toronto provided her with a \$7,162 UTAPS grant.

In addition, she received \$1,700 through the Edward and Dorothy Dawson Award for Aboriginal Students, \$1,800 through the Campbell Fellowship, and \$2,000 through the Gladys Watson Aboriginal Education Award.

\$11,526 TUITION & FEES
\$7,162 UTAPS GRANTS
\$5,500 FELLOWSHIPS/ WARDS
\$11,315 OSAP FUNDING (ALL LOANS)
Statistic restriction of the expense effectively was reduced to the expense effe

[-\$1,136] or [-10%] of the published fee after subtracting **non-repayable** aid.

While she was in school, the interest that accrued on her loans was paid by the government. At the end of her 2015-16 study period, Rosheen's OSAP loan was not reduced by the province's Ontario Student Opportunity Grant (OSOG) because her loan was less than the \$7,400 OSOG threshold.

<sup>2</sup> M Engineering, M Industrial Relations and Human Relations, M Financial Economics, M Applied Computing, M Planning, M Urban Design, M Forest Conservation, Global Professional Master of Laws, M Nursing, M Management Innovation, M Biotechnology, M Management and Professional Accounting, M Sustainability Management, M Biomedical Communication, M Environmental Science, all Dentistry professional master's programs

#### SUPPORT FOR INTERNATIONAL STUDENTS

In 2005, Governing Council approved a Statement of Commitment Regarding International Students. With respect to financial support, the Statement says:

- (a) International students who are admitted and enrolled may encounter financial emergencies and the University will provide financial assistance as needed and where possible.
- (b) The University will develop a program of international admission scholarships for students using its own resources and support from external sources; these scholarships will be awarded on the basis of a combination of exceptional academic merit and financial need.

To fulfil this commitment, in 2007 the University of Toronto International Admissions Scholarship was implemented. The award is based on merit and need, and recognizes a small number of exceptional international direct-entry applicants. Recipients receive full financial support throughout their undergraduate studies. There are currently six such international scholars enrolled at the University.

Starting 2017-18, the University of Toronto International Admissions Scholarship will be replaced with the Lester B. Pearson International Scholarships. The Pearson Scholarship program is intended to attract and support the best and brightest international students in order to allow them to pursue an undergraduate degree in a direct-entry program at the University of Toronto. The scholarship will recognize those international students who demonstrate exceptional academic achievement, commitment to school and community, and strong leadership skills. The program will serve as a significant vehicle for promoting awareness of the University of Toronto to a range of international audiences.

Pearson Scholars will receive a scholarship that will cover tuition, books, incidental fees, and full residence support for four years of undergraduate study and is currently valued at \$55,000-\$65,000 per year, depending on the student's program of study. The scholarship will also include enrichment opportunities such as work-study internships and mentorships. Thirty-seven international students will be named Lester B. Pearson Scholars for studies beginning in September, 2017. At maturity in 2020, 150 Pearson Scholars will be registered for studies.

Details about University of Toronto funding to international students, including the Lester B. Pearson International Scholarships, are provided in *Section 3 – Support for International Students*.

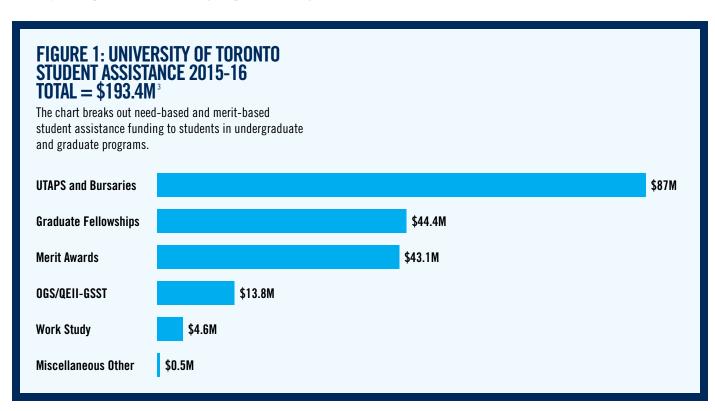

# **3. STUDENT FINANCIAL SUPPORT DATA** 2015-16

For the purposes of this report, directentry undergraduate programs are programs of study into which a student may be admitted directly from high school (e.g., Engineering, Arts and Science, Architecture, Music). Secondentry undergraduate programs are programs of study that require a student to have some university preparation before admission to the program (e.g., Law (JD), Medicine (MD), and Nursing (BScN)).

## **TOTAL SUPPORT**

**In 2015-16, the University provided \$193.4M** in student assistance, as defined for financial reporting purposes and reported in Schedule 4 of the University's 2015-16 financial statements. This is a 6.6% increase over 2014-15 levels (i.e., \$180.6M). The major components of this funding are provided in Figure 1.

#### Notes:

- Student Assistance figures do not include funds paid to Research Assistants (RA), Graduate Assistants (GA), and Teaching Assistants (TA). Research Stipends (T4A income) along with Research Assistants (RA), Graduate Assistants (GA) and Teaching Assistants (TA) income amounts are reported as compensation expenses and included in Figure 3.
- 2. The Ontario Graduate Scholarships and the Queen Elizabeth II Graduate Scholarships in Science and Technology (OGS/QEII-GSST) are cost shared with the Province of Ontario. The province contributes two thirds of the funding and the University of Toronto contributes the remainder. The amount presented in Figure 1 reflects total combined expenditures.
- Work Study salaries were \$4.6M. \$0.458M in employment benefits was paid to students and about \$0.7M in salary recovery was realized from the hiring units for their share of wages.
- 4. Aiming for the Top Scholarship program is a provincially-funded scholarship for graduating high school students. Students receive up to \$3,500/academic year, depending on financial need. The award is renewable for up to three years provided the student maintains at least an 80% average. In its 2012 Budget, the province announced the discontinuation of the program. Starting in 2012-13, no new scholarships were awarded but renewal awards were honoured for qualifying students. 2015-16 was the final year that a student benefited from this program. Expenditures were \$81,000.

<sup>3</sup> Work Study expenditures included in Schedule 4 of the Financial Statements only reflect the University's \$4M contribution from operating to Work Study wages. Contributions to Work Study wages by university departments were about \$600,000 and, therefore, increase the total student assistance in 2015-16 to \$193.4M.

## **NEED-BASED AID**

**The University provided \$87M** in need-based student aid (i.e., UTAPS and non-UTAPS Grants) in 2015-16. Of the need-based aid provided, about 64% went to students in undergraduate programs. Graduate students received about

36%. Expenditures in 2015-16 are up about 14% over 2014-15. Undergraduate expenditures grew about 3.6%; graduate expenditures are up about 38%, due primarily to a 27% increase in year-over-year UTAPS expenditures to graduate students.

## FIGURE 2: UNIVERSITY OF TORONTO FUNDING BY ACADEMIC DIVISION TOTAL = \$91.6M

The table shows funding (i.e., undergraduate and graduate) by academic division for 2015-16.

|                                     |    | OSAP (A)    | UTAPS (B)        | Non-UTAPS<br>Grants ( C ) | Wo | rk Study (D) | al University<br>Funding<br>(B+C+D) |

| Music                               | \$ | 3,020,895   | \$<br>466,591    | \$<br>780,502             | \$ | 107,354      | \$<br>1,354,447                     |
| Nursing                             | \$ | 3,659,997   | \$<br>744,484    | \$<br>683,514             | \$ | 37,758       | \$<br>1,465,756                     |
| OISE                                | \$ | 6,634,602   | \$<br>3,637,056  | \$<br>981,875             | \$ | 1,436        | \$<br>4,620,367                     |
| Pharmacy                            | \$ | 9,042,265   | \$<br>1,455,613  | \$<br>514,990             | \$ | 8,060        | \$<br>1,978,663                     |
| Public Health                       | \$ | 1,386,266   | \$<br>843,455    | \$<br>267,002             | \$ | 154,693      | \$<br>1,265,150                     |
| Social Work                         | \$ | 2,346,715   | \$<br>1,179,451  | \$<br>541,830             | \$ | 22,920       | \$<br>1,744,201                     |
| University of Toronto Mississauga   | \$ | 55,872,241  | \$<br>6,223,249  | \$<br>790,930             | \$ | 587,838      | \$<br>7,602,017                     |
| University of Toronto Scarborough   | \$ | 62,747,528  | \$<br>6,029,103  | \$<br>1,167,632           | \$ | 930,084      | \$<br>8,126,819                     |
| 2015-16 Total                       | \$ | 304,676,735 | \$<br>49,264,923 | \$<br>37,761,657          | \$ | 4,585,919    | \$<br>91,612,499                    |
| 2014-15 Total (for comparison)      | \$ | 260,241,362 | \$<br>43,095,355 | \$<br>33,247,839          | \$ | 4,835,928    | \$<br>81,179,123                    |

#### Notes:

1. OSAP consists of federal and provincial repayable and non-repayable funding

 UTAPS consists of \$47.3M from operating, \$1.9M from endowed accounts, and \$.033M from expendable funds.  Faculty of Law, Faculty of Medicine, and the Rotman School of Management administer their own UTAPS-like programs. These expenditures are included in the table.

Non-UTAPS grants include undergraduate and graduate need-based and merit-based grants provided by the academic divisions.

5. Not included in the Work Study total is \$458,500 in employment benefits to Work Study students.

## **OTHER STUDENT FINANCIAL SUPPORTS**

#### **MERIT-BASED AID**

In 2015-16, \$43.1M in merit-based awards<sup>4</sup> was provided to University of Toronto students. Undergraduate students received \$22.5M of the merit-based awards. Graduate students received the remaining \$20.6M. Undergraduate merit-based aid includes the National and Arbor Scholarships, the University of Toronto Scholarships, the President's Scholars of Excellence Program, the President's Entrance Scholarships, International Scholarships and the President's Scholars of Excellence Program. Graduate merit aid includes the Connaught Scholarships and the Beatty Fellowships. Divisions also offer a variety of merit-based awards to undergraduate and graduate students.

#### **WORK STUDY**

The Work Study program is open to undergraduate and graduate students; domestic, international, and out-of-province students; as well as students studying on a full-time or part-time basis (i.e., taking course loads of at least 2.0 credits over the fall/winter terms or at least 1.0 credit over the summer terms). Work Study students do not have to demonstrate financial need, though in 2015-16 about 52% were OSAP recipients.

Rethinking undergraduate education is one of three priorities identified by University of Toronto President Meric Gertler in *Three Priorities: A Discussion Paper, October 2015.* Key elements of this priority include experience-based learning and facilitating the transition from study to work. The experiential learning opportunities provided through Work Study do both.

Eighty percent of wages in the work study program are funded using central funds and 20% by the hiring units. Further, employers are permitted to use their Personal Expense Reimbursement Allowance (PERA) funds to cover the hiring unit contribution to student wages.

For 2015-16, about 5,800 Work Study positions were available and about 3,400 students were hired. There are many reasons why the number of positions available differs from the number of students hired. Employers' plans change. In other cases, employers are unable to find a student with the skill set to match the position or no one applies for it. Since 2012, the number of Work Study students hired has increased 62%; program expenditures are up 59%. In 2015-16, the University of Toronto made program decisions to ensure that even more students have access to the Work Study program. The Work Study budget will be increased annually, as is done with other student financial support program budgets such as the University of Toronto Scholarships. In addition, the employer contribution to wages increased from 20% to 30%.

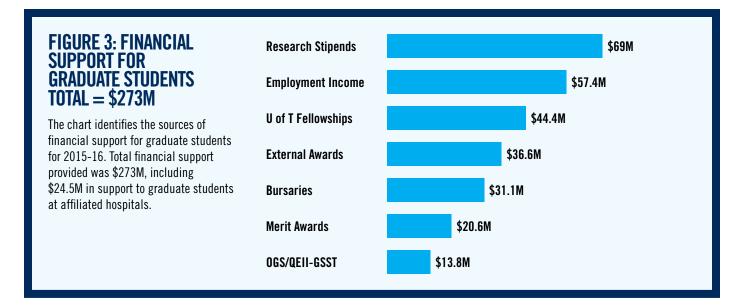

## DOCTORAL-STREAM STUDENT SUPPORT FOR DOMESTIC AND INTERNATIONAL STUDENTS

Though some assistance provided to students in doctoral-stream programs is included in Figure 2, there is a significant amount of funding provided beyond those amounts. Students in doctoralstream programs receive funding provided as stipends from their supervisors' research grants. They also receive funding as Teaching Assistants, Graduate Assistants, and Research Assistants. The employment income earned from these positions is usually included as part of the funding packages. Some students in doctoral-stream programs also receive funding from the federal government through SSHRC, CIHR and NSERC grants, as well as provincial, corporate, and foundation grants. The total amount of funding received by students in doctoral-stream programs in 2015-16 was \$273M, an increase of about 1.9% over 2014-15 levels. This includes \$24.5M in funding provided to University of Toronto students working in hospitals affiliated with the University.

The major components of the \$273M in doctoral-stream student funding are shown in Figure 3. Further details on doctoral-stream student support, including funding to students broken out by School of Graduate Studies (SGS) division and by academic division, are included in Appendix A. Information is also available at http://www.sgs.utoronto.ca.

To further enhance the funding available to graduate students, in 2011 the Provost's PhD Enhancement Fund was established as a special matching program to support divisional fundraising campaigns. A \$6M one-time-only pool of funding was created to match endowed donations on a 1:1 basis. Available funds were allocated to each division on the basis of the number of PhD students in a division. At April 30, 2016, endowed donations and matching through the Provost's PhD Enhancement Fund resulted in total endowments of \$18.2M.

<sup>4</sup> Graduate merit-based funding does not include \$13.8M in Ontario Graduate Scholarship and Queen Elizabeth II Graduate Scholarship in Science and Technology.

#### SUPPORT FOR STUDENTS STUDYING ON A PART-TIME BASIS Noah Meltz Student Assistance Program for Part-Time Undergraduate Students

Implemented in 1998, the Meltz Bursary provides non-repayable assistance to undergraduate students studying on a part-time basis, as defined by OSAP (i.e., taking less than 60 percent of a full course load). Qualifying students receive bursary funding to cover tuition and fees for one course for each session, as well as books, transportation and childcare.

In 2015-16, Meltz expenditures were about \$180,000 to 108 students. In 2014-2015, Meltz expenditures were about \$250,000 to 137 students. The year-over-year changes in expenditures are the result of changes in demand and not due to changes in funding. Increasingly, students are choosing to access funding through the Part-time Canada Student Loan Program because more total aid is available (i.e., loans of up to \$10,000 and non-repayable grants) compared to funding available through Meltz.

In addition to receiving Meltz funding, qualifying students with documented disabilities may also apply for up to \$2,000 in disability-related supports and services (e.g., note takers, specialized software) through the Province of Ontario's Bursary for Students with Disabilities (BSWD). In 2015-16, there were 72 University of Toronto students with disabilities who received Meltz and BSWD funding. University of Toronto expenditures to these students were about \$168,000. In 2014-15, expenditures totalled \$107,000 for 48 students.

Recently two improvements were made to the Meltz Bursary.

1. In 2015–16, a single student studying on a part-time basis could qualify for a Meltz Bursary with gross annual income of up to \$24,500. By comparison, prior to 2013–14, a single

student qualified for the Meltz Bursary with income of \$14,000 or less.

2. In 2015–16, students taking three courses were eligible to apply for a Meltz Bursary (e.g., two credits in fall and winter and one credit in summer). Previously the limit was two courses.

#### Part-Time Canada Student Loan

This is a federally-funded interest-bearing loan program that functions like a line of credit. The maximum outstanding principal cannot exceed \$10,000 at any time. University of Toronto students received about \$1.5M through this program in 2015-16.

#### **Canada Student Grants for Part-Time Studies**

This federally-funded grant of \$1,200 per academic year helps students with their tuition fees, books and supplies, transportation costs, and child care expenses. Students with permanent disabilities receive up to \$2,000 per academic year.

#### Canada Student Grant for Part-time Students with Dependants

This federally-funded grant of \$1,920 helps students with one or more dependent children under the age of 12 and/or one of more children with permanent disabilities who are 12 years of age or older.

## Canada Student Grant for Persons with Permanent Disabilities

This federally-funded grant of up to \$2,000 per academic year helps students (studying on a full or part-time basis) who selfidentify as having a permanent disability with their educationrelated costs such as tuition, books, mandatory fees, living costs, and transportation.

## Canada Student Grant for Services and Equipment for Persons with Permanent Disabilities

This federally-funded grant of up to \$8,000 per academic year helps students (studying on a full or part-time basis) who selfidentify as having a permanent disability with their disabilityrelated education costs for services and equipment that are not covered by another agency or service.

#### **Ontario Part-Time Grant**

This provincially-funded grant of up to \$500 per academic year helps students with their tuition fees, books and supplies, transportation costs, and child care expenses.

#### SUPPORT FOR STUDENTS WITH DISABILITIES

In addition to the Meltz Bursary described earlier, the University of Toronto provides funding through the Alternate Grant and the School of Graduate Studies' Accessibility Grant.

The Alternate Grant, established in 2006, provides assistance for disability-related support costs in excess of the maximum disability-related funding available through a student's province or territory. For example, Ontario students with disabilities may require an Alternate Grant if their support costs exceed the maximum disability support funding available through OSAP (i.e., \$10,000). In 2015-16, University of Toronto students with disabilities received about \$1.6M in disability-related supports and services through OSAP. Alternate Grant expenditures were about \$44,000.

The Alternate Grant is available to undergraduate and graduate students with the exception of students in the Faculty of Law, Rotman School of Management, Faculty of Medicine, and the Toronto School of Theology because these faculties administer their own financial aid programs.

There are no Alternate Grant funding maximums. The amount a student may receive depends on their support costs and the disability-related funding they receive from their province or territory.

The School of Graduate Studies' Accessibility Grant provides funding to graduate students with significant educational expenses not covered by the student, the graduate unit, the province, or federal agencies. The grant assists with accommodations necessary to meet unexpected needs arising from the particular demands of the graduate program. In 2015– 16, expenditures were about \$54,000 to 19 graduate students.

#### SUPPORT FOR CROWN WARDS

In 2013–14, the University of Toronto Crown Ward Grant was introduced to provide eligible students with non-repayable funding of up to 50% of tuition, to a maximum of \$3,000 per year. To be eligible, a student must be registered in a directentry program, be receiving OSAP, and have self-identified on their OSAP application as being a Crown ward, former Crown ward or that they are in receipt of the Government of Ontario's Extended Care and Maintenance Allowance. Students who receive the grant receive similar funding from the Government of Ontario to cover the remaining 50% of tuition costs, to a maximum of \$3,000. Combined, Crown wards receive grant funding to cover 100% of their tuition costs, to a maximum of \$6,000 per year.

In 2015–16, the University of Toronto Crown Ward Grant assisted 33 students. Program expenditures were about \$84,000.

#### SUPPORT FOR INTERNATIONAL STUDENTS

A key priority for the University of Toronto is to continue to attract high calibre international students. International students are students who are not Canadian citizens, permanent residents or protected persons, and who are in Canada on a study permit or other visa.

In 2015-16, the University provided \$10.3M in merit and need-based grants (exclusive of University of Toronto graduate fellowships) to 2,075 undergraduate and graduate international students. About 73% of this funding was merit based. About half of the grant funding issued to international students was paid out of central university funds; the remainder was funded by the academic divisions.

Included in the reported expenditures is about \$2.6M directed to international students attending the University of Toronto as part of the MasterCard Foundation Scholars Program. This University of Toronto and MasterCard Foundation program, implemented in 2013-14, provides full scholarships to talented yet financially disadvantaged University of Toronto students who are residents and citizens of a Sub-Saharan African country. The scholarship value is equivalent to the cost of attaining a Bachelor's degree, including travel, tuition, textbooks, housing, food and living expenses. Scholarship recipients also receive financial, academic, social, and post-graduation support to help them gain the experiences and skills needed to succeed. In 2015-16, there were 53 MasterCard Scholars Program participants at the University of Toronto.

In addition, to fulfil a commitment made in the Statement of Commitment Regarding International Students, in 2007 the University of Toronto International Admissions Scholarship was implemented. The award is based on merit and need, and recognizes a small number of exceptional international directentry applicants. Recipients receive full financial support throughout their undergraduate studies. There are currently six such international scholars enrolled at the University.

As is mentioned earlier in this report, starting 2017-18, the University of Toronto International Admissions Scholarship will be replaced with the Lester B. Pearson International Scholarships. The Pearson Scholarship program is intended to attract and support the best and brightest international students in order to allow them to pursue an undergraduate degree in a first-entry program at the University of Toronto. Pearson Scholars will receive a scholarship valued at \$55,000-\$65,000 per year, depending on the student's program of study. Scholars will also have access to enrichment opportunities. The university's funding commitment in the first year is about \$2.4M. At maturity in 2020-21, annual funding will be about \$9.3M, excluding income from endowed funds and divisional contributions, when about 150 Pearson Scholars will be registered for studies. It is important to note that in order to qualify for a Canadian study permit, all international students must demonstrate to Citizenship and Immigration Canada that they have the resources necessary to fund their studies. There are, however, emergencies that arise where a student's resources are inadequate – changes in family circumstances, currency restrictions, disasters in the home country. Based on an application process, the University assists current international undergraduate and graduate students with such financial hardships.

## FIGURE 4: UNIVERSITY OF TORONTO FINANCIAL SUPPORT FOR INTERNATIONAL STUDENTS TOTAL = \$10.3M

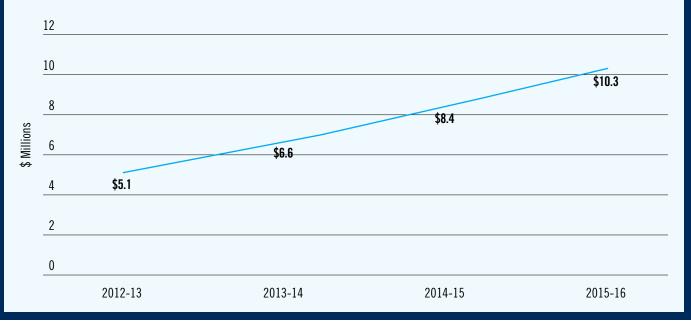

The table shows total financial support (i.e., undergraduate and graduate) by academic division that was provided to international students in 2015-16.

|                                     | Number of Awards | Number of Recipients | A           | mount      |
|-------------------------------------|------------------|----------------------|-------------|------------|
| Applied Science & Engineering       | 326              | 281                  | \$          | 2,459,260  |
| Architecture, Landscape, and Design | 12               | 10                   | \$          | 18,735     |
| Arts and Science, St. George        | 994              | 826                  | \$          | 4,891,666  |
| Dentistry                           | 1                | 1                    | \$          | 7,125      |
| Forestry                            | 3                | 3                    | \$          | 17,626     |
| Information                         | 5                | 4                    | \$          | 15,226     |
| Kinesiology and Physical Education  | 6                | 5                    | \$          | 11,500     |
| Law                                 | 3                | 3                    | \$          | 24,610     |
| Management                          | 254              | 208                  | \$          | 1,499,423  |
| Medicine                            | 48               | 46                   | \$          | 186,265    |
| Music                               | 16               | 13                   | \$          | 68,616     |
| Nursing                             | 8                | 6                    | \$          | 88,938     |
| OISE/UT                             | 27               | 23                   | \$          | 141,602    |
| Pharmacy                            | 7                | 6                    | \$          | 31,499     |
| Public Health                       | 6                | 6                    | \$          | 14,162     |
| Social Work                         | 2                | 2                    | \$          | 16,236     |
| University of Toronto Mississauga   | 204              | 187                  | \$          | 357,368    |
| University of Toronto Scarborough   | 152              | 138                  | \$          | 487,499    |
| 2015-16 Total                       | 2,074            | 1,768                | <b>\$</b> 1 | 10,337,358 |
| 2014-15 Total (for comparison)      | 1,888            | 1,621                | \$          | 8,350,932  |

#### FIGURE 4A: INTERNATIONAL SUPPORT SINCE 2012-13

The chart shows the financial support (i.e., merit and need-based) provided by the University of Toronto to international students since 2012-13. Support has increased 102% over the period.

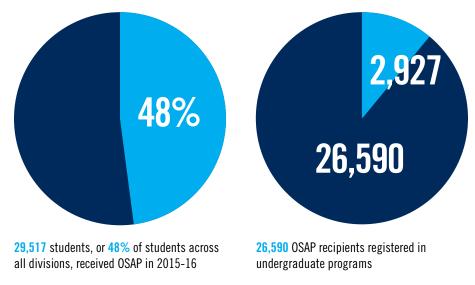

# **4. ACCESS**

To provide a more complete picture of students' financial position, a variety of indicators are provided below.

### 2015-16 OSAP Participation Rates – Full-time, domestic Headcount

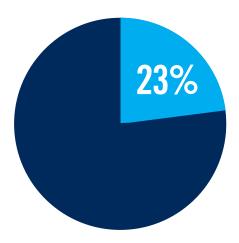

#### OSAP RECIPIENTS AS A PERCENTAGE OF FULL-TIME DOMESTIC HEADCOUNT:

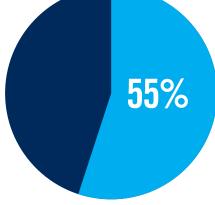

**2,927** OSAP recipients registered in graduate programs

#### OSAP RECIPIENTS AS A PERCENTAGE of graduate full-time domestic headcount:

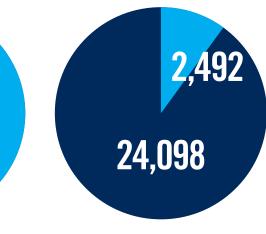

#### OSAP RECIPIENTS AS A PERCENTAGE OF UNDERGRADUATE FULL-TIME DOMESTIC HEADCOUNT:

**2,927**, or **23%** of all graduate students, received OSAP in 2015-16

**26,590** students, or **55%** of all undergraduates, received OSAP in 2015-16

**24,098** OSAP recipients registered in directentry undergraduate programs

2,492 OSAP recipients registered in secondentry undergraduate programs

## **OSAP RECIPIENTS**

**There were about 29,500 OSAP recipients** at the university in 2015-16, 1.7% higher than in 2014-15. On average, these students received an OSAP funding package of \$10,300. OSAP funding consists of Canada-Ontario Integrated Student Loan as well as non-repayable grants. Eighty-nine percent of OSAP funding was provided to students in undergraduate programs. Students in graduate programs received the remaining 11%.

Significant improvements to OSAP made under the province's Reaching Higher Plan have improved accessibility to, and the adequacy of, OSAP. Changes to the definition of a dependent student from five to four years out of high school, and a decrease in the amount of money parents are expected to contribute to their child's education have helped make accessing OSAP easier for many Ontario students and their families. Further, the amount of OSAP funding available to students has increased. For example, in the early 2000s, the maximum weekly amount of OSAP available to single students was \$275 per week of study, or \$9,075 for 33 weeks. In 2015–16, the maximum a single student received in OSAP funding was \$365 per week, or \$12,045 for 33 weeks. This is a 33% increase in the maximum amount of aid available.

Ontario and Canada continue to make improvements to student aid. In its 2016 Budget, Ontario announced a restructuring of OSAP, to be completed in two phases. In 2017-18, most Ontario student grants, including the Ontario Tuition Grant, will be folded into a single Ontario Student Grant which will be an upfront, income-based grant that provides tuition support and needs-based support. Most students whose parents make \$83,000 or less will receive some grant funding. The Ontario tuition and education tax credits will be discontinued, as well as the federal education tax credits. Ontario's weekly assistances limits will be increased. And, the maximum amount of annual repayable debt will increase from \$7,400 to \$10,000. In 2018-19, Ontario will introduce net billing. Institutions will bill each first-year, direct-entry student who qualifies for OSAP for what they actually owe after OSAP funding has been deducted. This net price will be reflected in the letters of offer. In addition, Ontario will reduce its expected parental and spousal contributions (e.g., for a family of four, parents will start to contribute to their child's education when their income is \$86,000, up from the current \$68,000).

#### FIGURE 5: OSAP RECIPIENTS VS. Full-time domestic headcount

The chart shows the number of OSAP recipients at the University of Toronto from 2010-11 to 2015-16 relative to the Full-time Domestic Headcount.

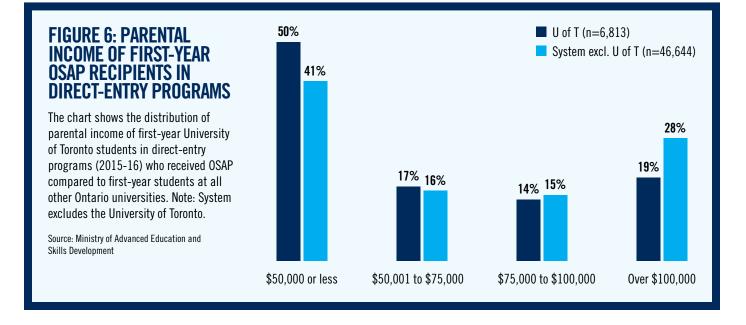

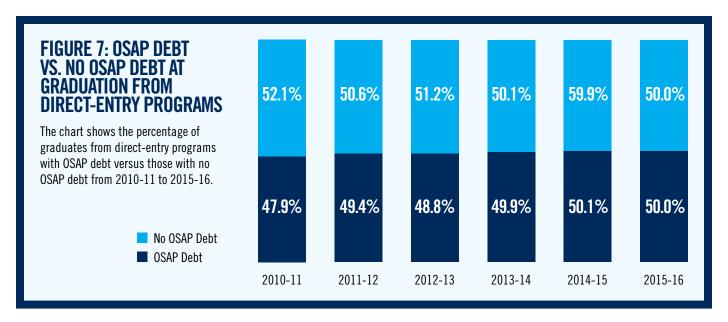

# PARENTAL INCOME INFORMATION OF OSAP RECIPIENTS

**The University of Toronto enrols and supports** a higher proportion of students from lower income families than any other Ontario university. Figure 6 shows that in 2015-16, 50% of first year University of Toronto OSAP recipients in direct-entry programs were from families with parental incomes of \$50,000 or less,

compared to the Ontario average of 41%. Given that 50% of direct-entry students graduated with OSAP debt in 2015-16 (see Figure 7), it is estimated that **at least a quarter of firstyear undergraduate students at the University of Toronto are from families with income of \$50,000 or less.** 

## **OSAP DEBT**

There has been a 2.1 percentage point increase in the number of students with OSAP debt graduating from direct-entry programs since 2010-11; however, the average OSAP debt of these students decreased over the same period. The average OSAP

debt in 2015-16 was \$21,058, up slightly from the previous two years, but down 3% compared to 2010-11 levels, when adjusted for inflation.

#### **FIGURE 8: AVERAGE REPAYABLE OSAP DEBT (2015 DOLLARS)** The chart shows the average repayable OSAP debt of graduates from direct-entry programs since 2010-11. It is important to note that half of all graduates from direct-entry programs have no OSAP debt; they are not included in the averages below. \$22,000 \$21,715 \$21,500 \$21,058 \$21,014 \$21,000 \$20,676 \$20,517 \$20,500 \$20,267 \$20,000 \$19,500 2010-11 2011-12 2012-13 2013-14 2014-15 2015-16

From 2010-11 to 2015-16, the distribution of student debt loads shifted away from the highest debt levels because of the steps taken by government to improve the mix of loans and grants available to students. Targeted programs such as the Ontario Access Grant (a tuition grant for first and second year students), Canada Student Grants, and the Ontario Tuition Grant were introduced. These grants displace loan funding. In addition, the Province of Ontario's Ontario Student Opportunity Grant (OSOG), implemented in the late 1990s, helps control the amount of OSAP debt incurred by students. OSOG limits a student's annual repayable OSAP debt. In 2015-16, the Province of Ontario began indexing OSOG amounts. Students in two terms of study (e.g., September through April) have their annual repayable debt limited to \$7,400, and \$11,100 for three terms of study. In 2014–15, these limits were \$7,300 and \$10,950 respectively. Students are considered automatically for OSOG provided they successfully complete their period of study and the Province of Ontario verifies their income with the Canada Revenue Agency. OSOG is not paid directly to the student. Instead, the grant is applied, on the student's behalf, against their OSAP debt for the year.

The restructuring of OSAP starting in 2017-18 is expected to positively impact overall debt levels and the distribution of student debt loads, especially for students from low-income families.

#### FIGURE 9: DISTRIBUTION OF OSAP DEBT \$0 The chart shows the percentage of graduates from direct-\$1 - \$15,000 entry programs who graduated with OSAP debt within various - \$15,001 - \$25,000 ranges from 2010-11 to 2015-16. In 2015-16, about half of \$25,001 - \$35,000 all students graduating from direct-entry programs graduated with no OSAP debt. - > \$35,000 60% 50% 40% 30% 20% 10% 0% 2010-11 2011-12 2012-13 2013-14 2014-15

#### **OSAP DEFAULT RATES**

The 2015 University of Toronto default rate was 2.8%, the lowest since 2009 and lower than the university sector (3.6%) and Ontario's postsecondary sector (8.1%).

#### FIGURE 10: OSAP DEFAULT RATES

The chart shows the University of Toronto's OSAP default rates relative to the OSAP default rates of Ontario universities (including the University of Toronto), Ontario colleges of applied arts and technology, and the Ontario postsecondary systems (i.e., Ontario universities, colleges, and Private Career Colleges).

#### **REPAYMENT ASSISTANCE PLAN**

Student borrowers who need help repaying their OSAP loans may apply for assistance through government's Repayment Assistance Plan (RAP). RAP participants with incomes of less than about \$25,000 (higher for households of more than one) make no payments while on RAP. According to the Government of Canada, 90% of RAP participants fall into this category. Other borrowers are required to make an 'affordable payment' based on their gross family income and family size.

## FIGURE 11: REPAYMENT ASSISTANCE PLAN PARTICIPATION RATES SINCE 2013

The chart below shows the extent to which University of Toronto borrowers took advantage of the Repayment Assistance Plan relative to others in the Ontario postsecondary system.

## **UTAPS GRANTS**

**UTAPS expenditures in 2015-16 were \$49.3M.** UTAPS expenditures in 2015-16 were \$49.3M. Of this amount 95%, or \$46.6M, was issued to OSAP recipients (i.e., Ontario residents). The remaining 5%, or about \$2.6M, was issued to students from other Canadian provinces and territories.

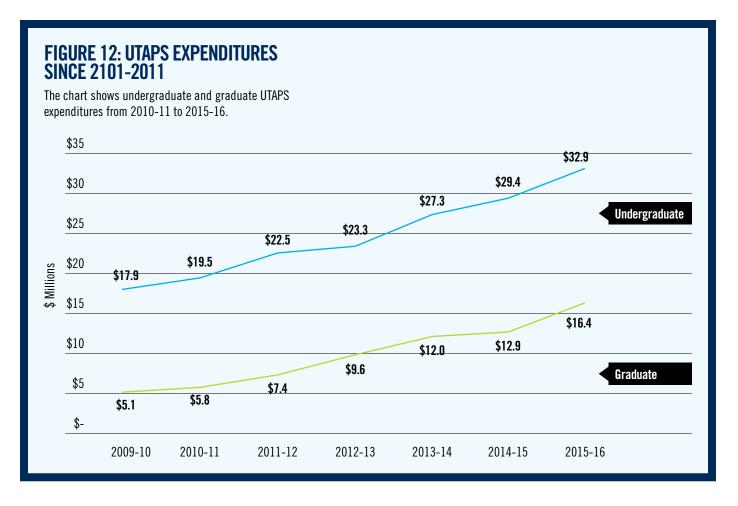

More than 10,300 University of Toronto students received UTAPS grants averaging about \$4,800 to help with costs not fully funded by OSAP (or another Canadian jurisdiction's student assistance program).

About two-thirds of UTAPS funding, \$33M, was provided to students in undergraduate programs. The remaining one third, or \$16.3M, was issued to graduate students. This has changed

significantly from a few years ago when 90% of undergraduate students and 10% of graduate students received UTAPS.

The number of UTAPS recipients has grown by 50% over the last five-year period, from about 6,870 in 2010-11 to more than 10,300 in 2015-16. The growth is due in part to the fact that there has been a 25% increase in the number of University of Toronto students qualifying for OSAP since 2010-11. As more students qualify for OSAP, more are considered for and are qualifying for UTAPS.

As is explained in the Student Access Guarantee section of this report, institutions are permitted to increase tuition on an annual basis provided they offset the difference between certain costs

recognized in the OSAP need assessment (i.e., tuition and fees, books/equipment/supplies) and the actual costs incurred by students. The Province of Ontario requires the gap to be funded automatically for students in direct-entry programs. In addition, institutions must fund at least 20% of the gap for students in second-entry programs. Institutions have the discretion to fund gaps related to other costs (e.g., living). At the University of Toronto, the gap is funded automatically for most students through UTAPS. In 2015-16, students in a select number of programs identified in Section 2 - Loan Program for Students in Professional *Faculties* have the option of applying for funding through an institutionally negotiated line of credit to help with costs not funded by OSAP. Going forward, students in a broader number of programs (i.e., all professional master's programs) will have the option of applying for the Scotiabank line of credit to help with costs in excess of their OSAP funding and needs-based assistance they receive through divisionally managed bursary programs.

The University is committed to supporting students in professional master's program. In the past, divisions have allocated a portion of their funds to the central UTAPS pool of funds and professional master's students have been eligible to receive funds from this central pool. However, it has become clear that allocations to professional master's students from the central UTAPS pool have not been made based on a fully transparent and equitable basis. Therefore, the University has decided to leave the funds that would have been collected from divisions for UTAPS for professional master's students in the local academic divisions for them to allocate through divisionally-run programs. We believe this will lead to more informed decision-making at the local level.

Staring July 1, 2016, incoming students in some professional master's programs<sup>5</sup> will receive needs-based financial aid through divisional programs rather than through UTAPS. These students will also have the option of borrowing additional funds through the Scotiabank line of credit. Students who started their programs before July 1, 2016 will continue to be considered for UTAPS for the duration of their program in order to allow continuity in their financial planning.

In 2017-18, incoming students in the remaining professional master's programs will receive needs-based financial aid through divisional programs and will have the option of the Scotiabank line of credit, if needed. Continuing students in these programs will continue to be considered for UTAPS for the duration of their program.

#### **BOUNDLESS PROMISE PROGRAM AND UTAPS**

The Boundless Promise Program (BPP) was created by the University of Toronto in 2011 to, among other things, significantly increase the amount of student financial aid available at the University of Toronto. Through the program, the interest income of donations of \$25,000 or more is matched by the University in support of undergraduate needs-based awards.

To date, BPP has created 168 awards. When fully realized, the \$12.7M endowment, along with the University of Toronto's matching (UTAPS), will produce approximately \$1M annually in support for undergraduate students.

#### **ONTARIO TUITION GRANT**

Introduced in January 2012, the Government of Ontario's Ontario Tuition Grant (OTG) helps offset the tuition paid by Ontario postsecondary students. In 2015-16, qualifying students pursuing a university degree could receive a grant of up to \$915 per term, to a maximum of two terms per academic year. The OTG is available to qualifying OSAP and non-OSAP-eligible students whose parents' gross income is \$160,000 or less. For this reason, most Ontario students entering undergraduate university programs directly from high school are eligible for the grant.

OSAP recipients do not have to apply for the grant; their eligibility is considered automatically through the OSAP application process. Non-OSAP students must complete an OTG application to be considered for funding.

For OSAP recipients, the grant is incorporated into the OSAP need assessment. It displaces OSAP loan funding for students who do not qualify for the maximum amount of OSAP available (e.g., \$365 per week of study for a single student). For students with financial need greater than the maximum amount of OSAP available, the OTG helps offset their unmet need.

In 2015-16, 19,162 OSAP-eligible University of Toronto students and 2,552 students who did not receive OSAP shared about \$39M in OTG. In 2014-15, about \$38M in OTG was issued to University of Toronto students.

The OTG will be eliminated in 2017-18 as part of OSAP restructuring.

## **STUDENT ACCESS GUARANTEE**

On March 28, 2013, the Province of Ontario announced a new Tuition Framework for 2013-14 to 2016-17. The four-year Framework allows for some program variability in tuition fee increases. Overall, Ontario institutions are permitted to increase tuition by up to a maximum average of 3% per year, a reduction from the previous Framework which had a 5% overall cap. The new Framework continues to be accompanied by a Student Access Guarantee (SAG). As mentioned earlier in this report, SAG requires that institutions make up the difference in OSAP funding between what the Province of Ontario recognizes as tuition and compulsory fees, books, equipment and supply costs in the OSAP need assessment and actual costs for students in direct-entry programs. In addition, the Province requires each institution to use non-repayable aid to meet no less than 20% of this difference for students in second-entry programs. The decision to offset differences between recognized and actual costs related to other costs incurred by students (e.g., living costs) is at the discretion of each institution.

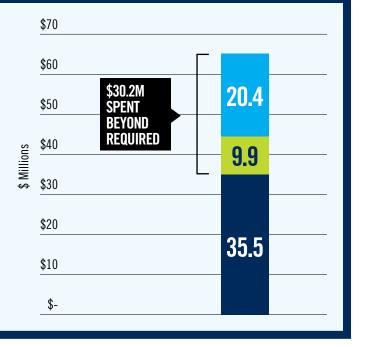

The University of Toronto's SAG requirement is met through UTAPS for students in direct-entry programs. The University's commitment of financial support to its students goes above and beyond the requirements of the Government of Ontario. Unlike UTAPS, the SAG requirement does not include living expenses.

#### FIGURE 14: 2015-16 UNIVERSITY OF TORONTO SAG EXPENDITURES

The chart shows the University of Toronto's 2015-16 SAG expenditures. Expenditures totalled \$65.8M. Of that amount, \$35.5M was required to be paid as per SAG requirements. The remaining \$30.3M includes discretionary expenditures for students in second-entry programs and for the difference between actual living costs and living costs recognized in the OSAP need assessment for students in direct and second-entry programs.

Source: Ministry of Advanced Education and Training

- Second entry discretionary programs
- Direct discretionary programs
- Required (direct and second entry)

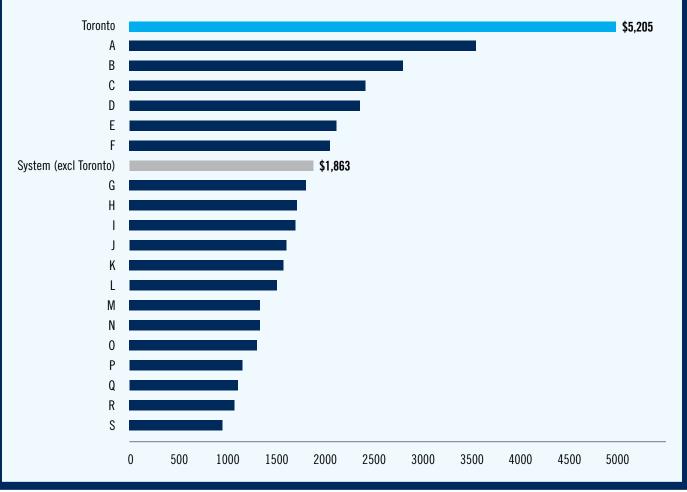

When compared to other Ontario universities, on a per recipient basis the University of Toronto far exceeds SAG expenditures elsewhere, including the University system as a whole.

## FIGURE 15: 2015-16 AVERAGE SAG EXPENDITURE PER SAG RECIPIENT

The chart summarizes the average support provided under SAG per recipient at the University of Toronto compared to other Ontario universities as tracked by the Province of Ontario.

Note: Toronto includes the Toronto School of Theology conjoint programs.

Source: Ministry of Advanced Education and Skills Development

### INSTITUTIONAL SCHOLARSHIPS AND BURSARIES

**Figure 16 shows Scholarships and Bursaries** per Student FTE for the University of Toronto relative to other Ontario universities. The University's undergraduate and graduate expenditures per student substantially exceed those of the system as a whole; about 62% higher in 2015. While the economic downturn led to some constraints in expenditures on discretionary scholarship and bursary programs, it is important to note that this has not in any way compromised the University's ability to meet student need based on the OSAP need calculation. After a drop in 2009-10, expenditures per student have since increased 18%.

#### FIGURE 16: SCHOLARSHIPS AND BURSARIES PER STUDENT FTE

The chart indicates the scholarships and bursaries per student FTE compared to the other Ontario universities, from 2003-04 to 2014-15.

## **NET TUITION**

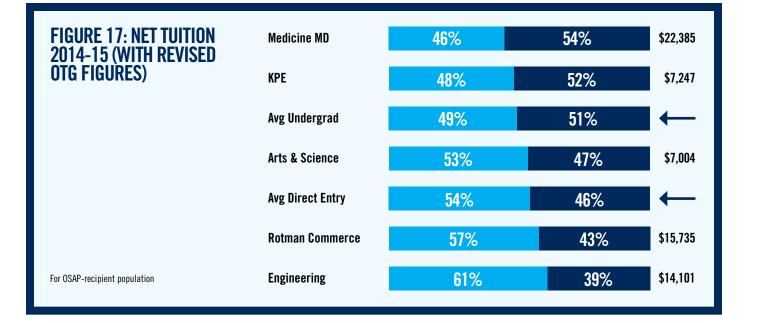

**Net Tuition is the amount that students actually pay** after taking into account the non-repayable contribution of both the Province, through OSAP grants, and the University, through its various grants and scholarships. The University has been monitoring this measure for the past several years for the undergraduate cohort. **Net tuition for OSAP recipients is 51% on average.** This amount excludes the Ontario Student Opportunity Grant, and the value of federal and provincial tuition tax credits, which are worth more than \$2,000 per year to the average Canadian university student (*Source:* 2013 CD Howe Institute: What You Don't Know Can't Help You. Lessons on Behavioural Economics for Tax-based Student Aid.)

In 2012-13 the net tuition rate was 48%. The increase in average net tuition from 48% to 51% is attributable to the decline in relative provincial and federal government support. While the University has improved its contribution towards net tuition, with increases to our need-based financial aid programs such as UTAPS, advocacy efforts will continue with the Province to seek contributions to provincial student aid that keep pace with tuition.

## **PART-TIME EMPLOYMENT**

**Student part-time employment can also affect accessibility**, though students may work part-time for reasons other than to finance their educations. While students receiving OSAP are not expected to work during their studies, the OSAP application is a key source of University of Toronto data on student employment.

Study-period income reported on an OSAP application is verified against Canada Revenue Agency tax records of OSAP recipients. According to the OSAP data for 2015-16, almost 70% of OSAP recipients reported no study-period earnings. Of those reporting earnings, a majority (62%) reported earnings of less than \$4,000, approximately the upper threshold of working 10 hours per week at a job paying minimum wage.

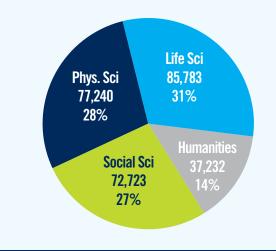

# **APPENDIX A: DOCTORAL-STREAM STUDENT SUPPORT BY SGS DIVISION**

The University of Toronto Policy on Student Financial Report calls for reporting of doctoral-stream student support, broken out by SGS academic divisions.

#### FIGURE 18: GRADUATE STUDENT FINANCIAL SUPPORT BY SGS DIVISION (2015-2016)

The chart below shows the breakdown of graduate student support by SGS Division for 2015-16. In total there was \$273M provided, including \$24.5M to graduate students at affiliated hospitals.

#### FIGURE 18A: GRADUATE STUDENT FINANCIAL SUPPORT BY SGS DIVISION (\$000s) (2015-16)

# FIGURE 19: ARTS & SCIENCE GRADUATE STUDENT SUPPORT BY SGS DIVISION (\$000s)

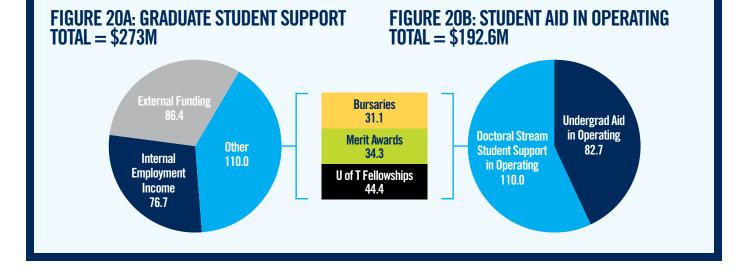

# STUDENT ASSISTANCE AND DOCTORAL-STREAM STUDENT SUPPORT: UNDERSTANDING THE RELATIONSHIP

There are two broad categories of student financial support described in this report: the amount reported as student assistance in the financial statements and doctoral-stream student support. These amounts are neither additive, nor mutually exclusive. Rather, there is a partial overlap in the way these two figures are reported. As mentioned above, doctoral-stream students receive funding as TAs, GAs and RAs, however, for reporting purposes in the financial statements these funds are reported as salaries and benefits. Figures 20A and 20B below illustrate the relationship between the \$192.6M reported as student assistance and the \$273M in total funding received by doctoral-stream students.

#### Notes:

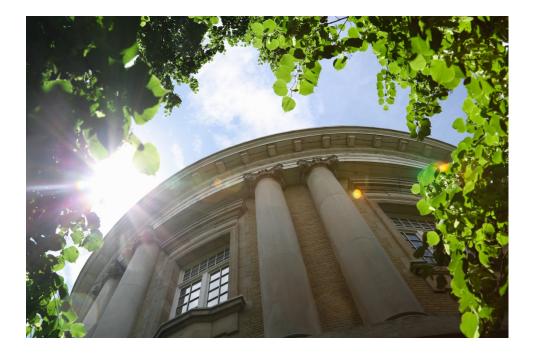

(1) The University of Toronto is working on a snapshot of total financial support provided to graduate students. Currently, graduate financial support ranges from about \$15,000 to \$26,000, plus tuition and incidental fees per doctoral-stream student.

(2) Internal Employment Income of \$76.6M in Figure 20A is comprised of Internal Employment Income of \$58.3M and \$18.3M in Research Stipends from Operating. Employment Income of \$58.3M reported in Figure 18B consists of Internal Employment Income of \$57.4M and External Income of \$857,030.

## **Enrolment Context and Overview**

Enrolment drives the largest portion of University operating revenue; in 2017-18, 88% of the budgeted \$2.5 billion in revenue is tied directly to students through provincial operating grants and student fees. It is because of this that the Enrolment Report is a key source of information that accompanies the annual Long Range Budget Guidelines. The Enrolment Report provides information on 2016-17 enrolments, comparing actual results to enrolment plans and lays out the enrolment projections for the period 2017-18 through to 2021-22.

Enrolment is generally reported in one of two ways: headcount (HC), which is a measure of the number of students enrolled, and full-time equivalent (FTE), which is a measure of course load activity of the students enrolled. A normal course load in Arts & Science is five full courses. A student taking a full course load of five courses is counted as one FTE. A student taking four full courses is counted as 0.8 FTE. Students eligible for provincial operating funding are described as "eligible FTE" in this report. Generally speaking eligible students are domestic students; domestic graduate students remain eligible for a set period of time (generally equivalent to five years of graduate study), beyond which they become "ineligible".

Enrolment at the University of Toronto is grouped into five broad categories. The tables and charts included in this report often report enrolment data in these categories.

- 1. Direct-entry undergraduate
  - Arts & Science at St. George, UTM and UTSC Bachelor's degrees
  - Applied Science & Engineering BASc
  - Architecture, Landscape & Design HBA
  - Kinesiology & Physical Education BKIN, BPHE
  - Music BMus, ACP, DOP
  - Transitional Year Program non-degree programs
- 2. Second-entry undergraduate
  - Dentistry DDS
  - Law JD
  - Medicine MD, Physician Assistant and Radiation Sciences
  - Nursing BScN
  - Pharmacy PharmD
  - Woodsworth certificates in TESOL and HRM
- 3. Graduate professional master's
  - There are over 60 professional master's programs at the University of Toronto. Examples include MBA, MEnvSc, MMI. Professional master's are generally, but not always, a terminal degree.

- 4. Graduate doctoral stream master's
  - These are master's programs in the research stream that lead into a doctoral program.
- 5. Doctoral: (sometimes just referred to as PhD as PhDs make up by far the largest portion)
  - PhD
  - DMA
  - DMin
  - EdD
  - SJD
  - ThD

The tables in this report generally include one year of historical data (2015-16), data for the current year (2016-17) and projections to 2021-22. The charts included in this report focus on a longer timeline and present data 5 years prior to the current year (back to 2011-12) and projections for 5 years forward to 2021-22, where appropriate.

Enrolment planning at the University of Toronto is driven by institutional and divisional academic plans. Over the last several years, enrolment plans have been guided by the University's strategic plan as outlined in *Towards 2030: A Third Century of Excellence at the University of Toronto* and the *President's Three Priorities.* Looking ahead, enrolment plans will continue to be guided by these strategic plans as well as our Strategic Mandate Agreements with the Province.

The University of Toronto has grown significantly over the last two decades to just under 89,000 students in 2016-17. Undergraduate and graduate growth has occurred across all three campuses. *Towards 2030* and divisional plans call for further undergraduate growth primarily at the University of Toronto Mississauga (UTM) with 6% growth planned and the University of Toronto Scarborough (UTSC) with 9% growth planned by 2021-22. Plans are also underway for increased graduate intensification, with the overall graduate portion of students increasing from 21.8% of total FTE enrolment in 2016-17 to 23.2% over the next five years. At the St. George campus specifically, the proportion of graduate students has already grown from 26.7% in 2011-12 to 29.4% in 2016-17, and is projected to increase further to almost 32% by 2021-22. It should be noted that professional master's FTEs are reported by campus because these programs are campus-based. Doctoral stream master's and PhD enrolments in the Arts & Science divisions are generally reported on a tri-campus basis because of the unitary administrative structure for most of these degree programs. It is recognized that faculty members at UTSC and UTM also supervise graduate students on the St. George campus; these numbers are not reflected above as these data are not available from the student information system.

Consistent with the University of Toronto's ranking amongst the world's top 25 universities, internationalization has been an academic goal pursued across many divisions; most divisions are now close to their long term goals. In 2016-17, 19.7% of all students were international students and plans are to grow slightly to 20.1% by 2021-22. There is a higher proportion of international students in

undergraduate programs (20.5%) than there is in graduate programs (16.5%). As Canada's most highly ranked university, there have also been efforts to attract more students from across Canada; students from other provinces have increased from 8.6% of total intake in 2011-12 to 9.9% in 2016-17.

Overall, the data presented in this report demonstrate progress toward our long-term enrolment goals. The University of Toronto continues to attract a large number of high-quality students, both domestically and internationally.

It should be noted that data in this report for 2014-15 and subsequent years include students in Toronto School of Theology (TST) conjoint programs, unless otherwise noted. The TST is an ecumenical group of seven colleges offering some of their programs conjointly with the University of Toronto.

# **Undergraduate Enrolment**

In 2016-17, the University of Toronto has 70,728 undergraduate students, an increase of 302 students over 2015-16. Most of the University's growth over last year occurred at UTM (509 FTE), UTSC (261 FTE) and the Daniels Faculty of Architecture, Landscape & Design (112 FTE). Enrolment in second-entry undergraduate programs such as Medicine MD, Dentistry DDS, Pharmacy PharmD, Law JD and Nursing BScN has remained fairly flat year-over-year, in accordance with academic plans and provincial funding agreements. Enrolment in the Faculty of Applied Science & Engineering declined modestly by 162 FTE, as planned, and in Arts & Science by 343.

It should be noted that although the tables accompanying this report include a breakdown of undergraduate Arts & Science FTE by field of study, many students graduate with specialists and/or majors in more than one field so this breakdown should not be viewed as a precise accounting. It is only indicative of broad trends, such as a gradual shift over the last five years towards the Sciences on all three campuses.

In 2013 the Ministry of Advanced Education and Skills Development (MAESD) and the Ministry of Education jointly announced changes in Ontario's initial teacher education program (BEd). Changes included doubling the length of the undergraduate program to two years, while maintaining the number of enrolment spaces currently available in the system, thus reducing the number graduates entering the teaching profession by about half. In response to these changes the University of Toronto negotiated an agreement with the Province, as part of the Strategic Mandate Agreement (SMA1), to end the undergraduate teacher education program and focus on teacher education at the graduate level, in line with OISE's position as a leader in research-intensive teaching and learning. OISE is in the process of converting its 1,167 B.Ed spaces into approximately 500 graduate spaces, and is building on its existing Master of Teaching (MT) and Master of Arts, Child Study & Education (MA-CSE) programs.

The University's plan is to increase undergraduate enrolment by 1,152 FTE (2%) over the next five years.

The following are a few highlights regarding undergraduate enrolment:

- Overall the University essentially met its 2016-17 enrolment target (-0.2% variance on 61,413 target);
- UTSC plans to increase by just under 1000 FTE (9%) by 2021-22;
- UTM plans to increase by just under 700 FTE (6%) by 2021-22;
- An overall reduction of about 500 FTE (-1%) at the St. George campus is planned by 2021-22;
- The Faculty of Arts & Science St. George came in slightly below its undergraduate enrolment target in 2016-17 (570 students or 2%); outer year plans have been adjusted slightly downward with a steady state target of just under 24,000 FTE;
- The Faculty of Applied Science & Engineering plans to reduce undergraduate enrolment over 5 years by about 300 FTE (-6%) as part of a graduate intensification plan.
- The Daniels Faculty of Architecture, Landscape & Design is very close to reaching its steady state target of 900 FTE by 2021-22
- The Faculty of Music is essentially at its steady state target of just under 600 FTE;
- The Faculty of Kinesiology & Physical Education will maintain a steady-state target of just over 900 FTE;
- The number of students in professional faculties is projected to remain relatively constant by 2021-22, at just over 7,000 FTE. Domestic enrolment in some of these programs is regulated by separate funding agreements with the Province (MD and BScN)
- OISE will decline by a further 134 FTEs as the phase-out of the Concurrent Teacher Education program is completed
- Over half of <u>incoming</u> undergraduate students, 54.1% in 2016-17, come from the Greater Toronto Area (GTA) and another 8.4% are from other areas in Ontario.
- Comments on international enrolment are included in the section below.

The University has maintained the quality of its undergraduate Arts & Science student body as measured by entering averages over the last five years. Entering averages continue to increase across all three campuses: in the Faculty of Arts & Science St. George from 87.2% to 89.4%, at UTSC from 82.3% to 84.5%, at UTM from 82% to 83.3% and in the Faculty of Applied Science & Engineering from 90.4% to 93.1%.

Aligned with the current SMA, the University of Toronto provides a variety of pathways for students and opportunities for students to participate in programs in collaboration with other institutions. In 2016-17, 3,092 (4.4%) of the University's undergraduate students study in programs offered jointly with external or affiliated institutions and 808 (1.1%) students came to the University of Toronto after studying at an Ontario College of Applied Arts and Technology. There were also 4,352 (6.2%) students registered in 2016-17 who came from another Canadian university, CEGEP, or non-Ontario college.

# **Graduate Enrolment**

As Canada's leading research intensive university, strong graduate programs are critical to institutional and divisional plans. Even with significant graduate expansion in many Ontario universities over the last decade, the University of Toronto continues to enrol almost 30% of all provincial doctoral students and 23% of master's students.

Over a decade ago, the University undertook an extensive planning process, the results of which are described in a document entitled *A Framework for Graduate Expansion 2004-05 to 2009-10*. These plans were approved by Governing Council in 2006. Graduate expansion has unfolded in three phases, described below.

Phase 1 began in 2004 when the University of Toronto received approval from the MAESD to increase enrolment to 6,192 master's and 3,867 PhD funded spaces.

Phase 2 was announced in 2009 when our allocations were revised to 7,031 master's and 3,853 PhDs funded spaces. The slight decrease in the number of PhD spaces was the result of our request to convert some PhD spaces into master's spaces to keep pace with the rapid growth in master's level enrolment. Phase 2 of graduate expansion was concluded in 2011.

Expansion is continuing under the Strategic Mandate Agreement process with 7,925 master's and 3,925 PhD approved provincially-funded spaces in 2016-17.

The University has achieved strong master's growth this year which now puts us 66 spaces above our 2016-17 SMA1 allocation, reaching a total of 8,471 eligible FTE. The University of Toronto is one of four institutions in Ontario that exceeded its SMA1 master's target, which sets the stage for the upcoming SMA2 negotiations in spring 2017. The SMA1 master's allocation of graduate spaces is accompanied by a gradual, revenue-neutral conversion of OISE's undergraduate teacher education (BEd) spaces into 502 additional graduate Master of Teaching (MT) and Child Study & Education (MA-CSE) spaces by 2019-20. Rapid growth in professional master's enrolment reflects the rising importance of these programs, the increased demand from students and the increased number of program offerings at the University. Twenty-six new professional master's offerings have been introduced since 2006-07. Divisional plans call for almost another 1,000 funded master's spaces over the next five years; this will be discussed as part of the SMA2 and SMA3 negotiations. It is important to note that the Ministry considers professional master's spaces as one category for funding purposes.

After a period of rapid expansion, recent growth in eligible (BIU-funded) doctoral enrolment has been more challenging, with a decline of 25 spaces over the prior year to 3,727 eligible FTE in 2016-17, 198 spaces short of our allocation; this challenge is consistent with other Ontario universities. Overall, the Ontario system has 1,400 unfilled graduate spaces in 2016-17. We plan to request permission to retain

the 198 unfilled spaces in SMA2, and to seek further spaces in SMA3, as divisions have growth plans of about 500 eligible spaces over the next five years.

The Province retains 2,000 spaces (over and above the 1,400 unused spaces) from the 2011 Ontario Budget allocation. For revenue planning purposes, the budget assumes the University will retain its normal share of this pool.

The Ontario Government announced last year that it would allow universities to claim a limited number of international doctoral level graduate students for provincial funding. Starting in 2015-16, the University of Toronto was deemed eligible to claim up to 38 International doctoral students towards our graduate expansion targets. While the number of spaces is relatively small, this represents a significant policy shift for the Government and is the result of substantial advocacy work by the University and a number of our peers. Further discussion on international graduate enrolment is included in the section below.

Divisional plans will be re-calibrated, if necessary, once the final MAESD allocations are known. The University continues to monitor funding available to students in doctoral stream programs to ensure that the quality of the graduate student experience is maintained. Several divisions have recently increased funding for graduate students in the "funded cohort"; in Arts & Science base funding packages were raised by \$1,500 in 2016, and packages will go up again in 2017 and 2018.

## **International Enrolment**

The number of international students at the University of Toronto has grown steadily over the last decade, reaching 17,452 FTE in 2016-17, which is 19.7% of total enrolment. International students make up 20.5% of the undergraduate population and 16.5% of the graduate population. The University has essentially reached its undergraduate long term goal of 21% by 2021-22. The proportion of international students in graduate programs is projected to remain at just under 17% by 2021-22, however there would be significant demand for more international doctoral students if additional funding were available from the Province. The University will continue its advocacy efforts for increased flexibility to fund additional international PhD spaces through the SMA negotiation process.

The University's reputation attracts **students from 165 countries and regions**. The top 5 countries for undergraduate students are China (63%), India (4%), South Korea (3%), the United States (2%) and Hong Kong (2%). Brazil has fallen out of the undergraduate top 15 as the Science without Borders program draws to a close. For graduate students, the top 5 countries are China (35%), the United States (12%), India (11%), Iran (4%) and South Korea (3%). Divisions are pursuing recruitment strategies to attract international students from more diverse source countries. The introduction of the new Lester B. Pearson Scholarship program has been launched to attract outstanding students from around the world, including international students studying at Canadian high schools. The scholarship will cover tuition,

books, incidental fees, and full residence support for four years. Each year approximately 37 students will be named Lester B. Pearson Scholars, reaching 150 scholarships by 2020.

# **Linking Enrolment Plans to Capital Plans**

Both UTM and UTSC have experienced enormous growth over the last decade, reaching about 12,000 and 11,000 FTE respectively. Moderate growth is planned over the next five years and in the longer-term both campuses plan to grow to over 21,000 total students each. The campuses are located in regions where significant future demand for growth is projected. In order to accommodate the planned expansion there is a critical need for new space on both campuses, including space for teaching and research, student services, residences and parking.

In 2011 the Province announced \$52.5 million of capital funding for the new Deerfield Hall (North Building replacement phase 1) and Davis Laboratory renovation projects at UTM. These projects have begun to redress critical space shortages at that campus. Further investments are planned to accommodate growth to 15,000 undergraduate students by 2021-22 and to improve outdated academic facilities. Projects include a new Science Building expansion to house the recently announced Centre for Medicinal Chemistry, the North Building phase 2 project, expanded student centre space, teaching and research labs, and additional parking.

Capital expansion is also underway at UTSC to accommodate growth to just over 14,000 undergraduate students by 2021-22. The new Environmental Science and Chemistry building, opened in January 2016, adds substantial teaching and research space to the campus. Construction has started for the new Highland Hall and renovations to the Andrews building. Planning is underway for a 750-bed residence on the north campus and a second instructional centre. In 2015 UTSC also completed the world class Toronto Pan Am Sports Centre jointly funded by the Province, the City of Toronto and the University.

The Province released the Major Capacity Expansion Policy Framework in 2013 to inform future large scale expansions of undergraduate capacity at Ontario universities. This framework applies to capital projects that will accommodate short-term growth of approximately 1,000 students and longer-term growth of 5,000-10,000 students, both at existing and potential new satellite campuses. Under this framework, the Province subsequently released a call for proposals in 2014 for projects that would add significant undergraduate capacity. The University of Toronto submitted proposals for planned projects at UTSC and UTM. In May 2015, the Province announced that York University's proposal to create a satellite campus in Markham with Seneca College was successful in obtaining provincial funding support under this program. No further allocations have been announced as of the writing of this report. The City of Toronto released last year a revised transit plan that proposes an LRT line to UTSC. This would be a welcome addition to the already significant transit options at the campus.

Over the next two years, the recently announced Lab Innovation for Toronto (LIFT) project will upgrade almost half of the University's research labs across the three campuses representing a \$190 million effort with \$84 million coming from the Federal Government's Post-Secondary Institutions Strategic Investment Fund (SIF), \$14.3 million contributed by the Province and \$92 million by divisions. The St. George campus is experiencing additional capital renewal with opening of the Jackman Law building this year, and the renovation and expansion of the 1 Spadina building for the Daniels Faculty of Architecture, Landscape & Design. The Centre for Engineering Innovation and Entrepreneurship for the Faculty of Applied Science & Engineering is currently under construction while construction will begin soon on Robarts Common, a five-floor free-standing addition to expand Robarts Library study spaces by 25% and offer modern collaboration spaces. Many other projects are in the planning stages including the Centre for Civilizations and Cultures on the site of the decommissioned McLaughlin Planetarium, the renewal of the historic University College building, and the revitalization of King's College Circle and Hart House Circle as part of the Landmark of Landscape Quality project. While the University has been very successful at fundraising for capital projects, continued support from the Province is essential to ensure that the University of Toronto continues to fulfill its mandate of providing a world-class teaching and research environment for its faculty and students.

#### Table 1 Total Headcount

Notes: 1. 'Direct-entry' includes undergraduate programs offered by the following divisions: Arts & Science St. George, UTM, UTSC, Applied Science & Engineering,

Architecture, Landscape & Design, Kinesiology & Physical Education, and Music, as well as the Transitional Year program.

2. Medicine MD students at UTM are included in the UTM subtotal above (ranging from 211 to 216 students per annum).

Notes: 1. 'Direct-entry' includes undergraduate programs offered by the following divisions: Arts & Science St. George, UTM, UTSC, Applied Science & Engineering, Architecture, Landscape & Design, Kinesiology & Physical Education, and Music, as well as the Transitional Year program. 2. Medicine MD students at UTM are included in the UTM subtotal above (ranging from 211 to 216 students per annum).

### Chart A: Total Headcount and FTE Enrolment 2011-12 to 2021-22

Source: Headcount data per Table 1. FTE data per Table 2. Note: Data up to 2012-13 exclude all TST programs. From 2013-14 onwards, data include TST Conjoint programs.

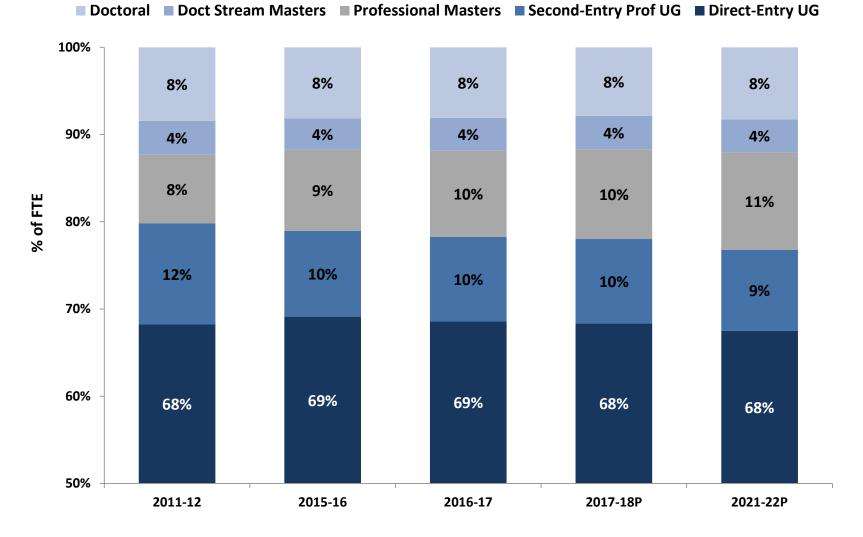

# Chart B: Total FTE Enrolment by Campus 2011-12 to 2021-22

Source: Data per Table 2.

Notes: 1. Data up to 2012-13 exclude all TST programs. From 2013-14 onwards, data include TST Conjoint programs.

2. The UTM totals above include MD at UTM students.

3. Decline in 'St. George UG Other' category primarily attributable to conversion of former BEd spaces into graduate master's spaces.

### **Chart C: Enrolment Balance by Degree Type**

Source: Undergraduate data per Table 1. Graduate data per Tables 9 to 11. Note: Data for 2011-12 exclude all TST programs. From 2015-16 onwards, data include TST Conjoint programs.

| TOTAL UNDERGRADUATE - U of T INTAKE                  | 17,057            | 16,789          | 16,368            | (421)                          | (689)                             | 16,791          | 16,820               | 16,819               | 16,838               | 16,868               |

Notes: 1. Intake in Table 5 is defined as follows:

- For all divisions, only full-time students are included. The data exclude all TST programs.

- Tricampus Arts & Science data include new students in all years and non-degree students (except Science without Borders); returning students are excluded.

- Other direct-entry programs include new & returning students in year 1 only; non-degree students and new students in upper years are excluded.

- Arts & Science St. George and Applied Science & Engineering include students transferring from the prior year part-time International Foundation Program into full-time year 1.

- For second-entry professional programs, data include new intake into all years and exclude non-degree students.

2. OISE undergraduate programs do not have any new intake.

Notes: 1. Arts & Science St. George and Seneca College's Liberal Arts Program was initiated in 2008-09. UTSC and Seneca College commenced a formal transfer program in 2013-14.

Once accepted at UofT these students are not being tracked separately within UofT's enrolment and revenue projection models. Only after-the-fact actuals can be reported using enrolment count files. 2. There are additional students who have experience in Ontario Colleges, but only those who applied from Ontario Colleges are identified above.

3. Data include TST Conjoint programs only.

# Chart D: Entering Averages Arts & Science, UTM, UTSC and Applied Science & Engineering

### Table 14 Graduate Eligible FTE by Division: Doctoral

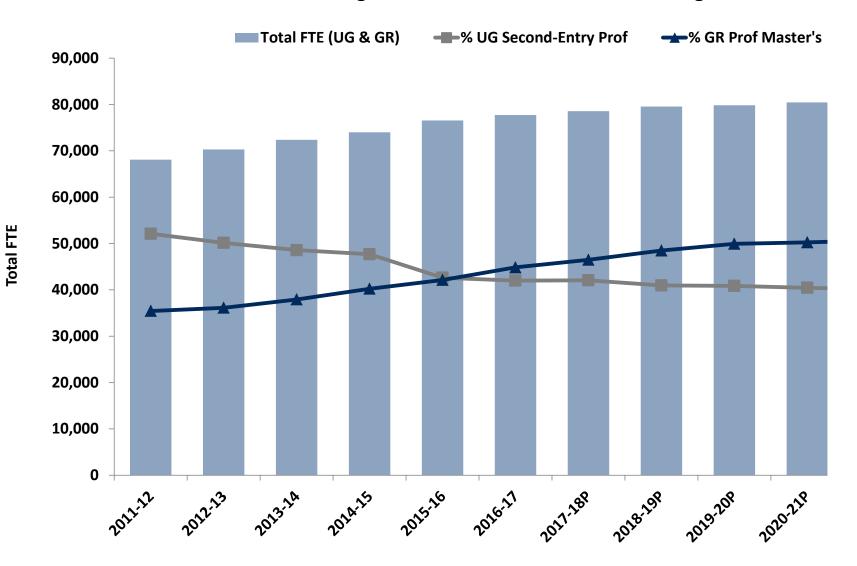

(Eligible FTE, Fall plus Summer)

Note: For funding purposes, Ministry definition of doctoral excludes Year 1 "PhD Qualifying Year" students.

### **Chart E: Share of Provincial Graduate Enrolment**

Source: University of Toronto Performance Indicators 2016; COU Enrolment Data.

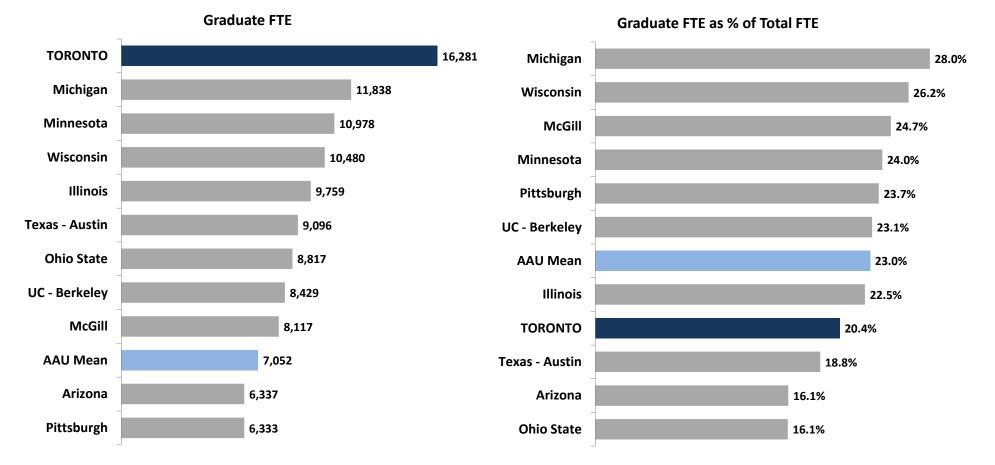

### **Chart F: Undergraduate & Graduate Professional Programs**

Source: Data per Table 2.

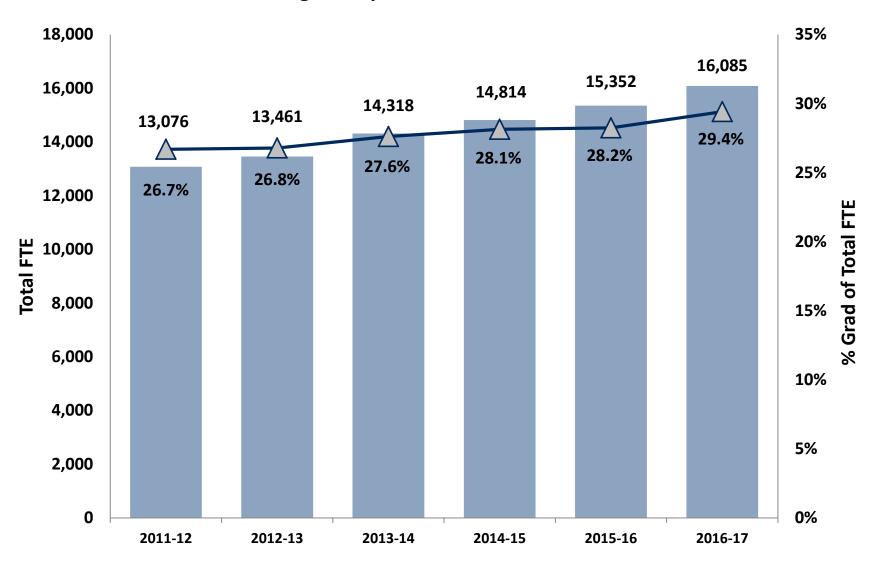

Notes: 1. UG second-entry professional includes Dentistry, Law, Medicine, Nursing, OISE, Pharmacy, and Woodsworth 2. Excludes all TST programs.

### Chart G: Graduate FTE Enrolment vs. Selected AAU Peer Institutions Fall 2015

Source: AAU Data Exchange, Fall 2015.

Note: FTE methodology changes as of Fall 2014. Therefore data above are not comparable to Fall 2013 data.

## Chart H: St. George Campus - Graduate FTE and % of Total FTE

Source: Data from UT Business Intelligence Enrolment Cube.

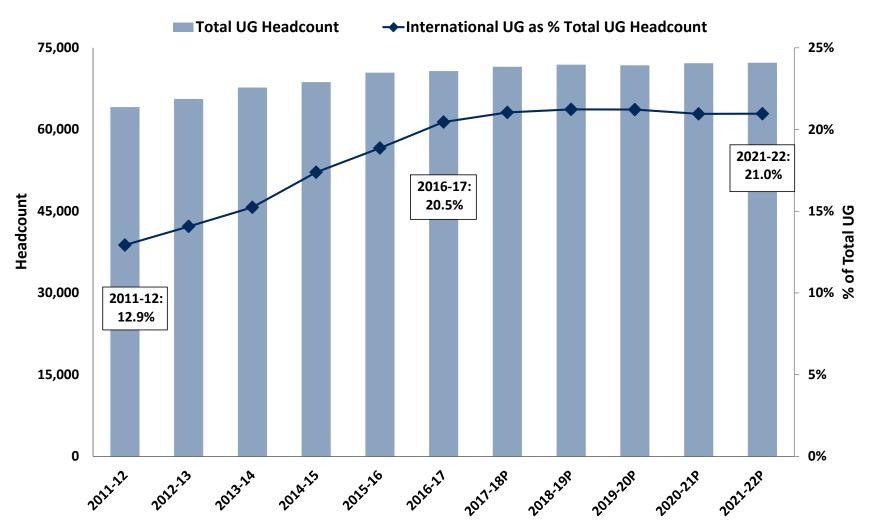

Notes: 1. Data up to 2012-13 exclude all TST programs; from 2013-14 onwards, data include TST Conjoint programs.
2. Data exclude doctoral-stream students who self-declare as UTM or UTSC students.

Notes: 1. Intake in Tables 18 and 19 is defined as follows:

- Includes full-time and part-time students.
- Includes all years of new intake and new non-degree students.
- Excludes students in TST, Transitional Year Program, Academic Bridging and Woodsworth programs.
- 2. Students' geographic origin determined using 'Home province', 'County of Residence' and 'Admission Applicant Type' fields in ROSI.
- 3. Data are presented in 5-year intervals to demonstrate long-term, gradual trends. Last year's actuals are also provided for short-term comparisons.
- 4. Graduate data include diplomas in Medicine and Music. Intake data are not available for Postgraduate Medical Education.
- 5. Data exclude Summer and Winter new intakes; consequently, programs that start in the summer are understated (e.g., DIFA, MBiotech, MMPA).
- 6. 'Other Countries' includes all international students plus domestic students living abroad.

#### TABLE 19 - Undergraduate and Graduate Intake by Geographic Origin by Division

Notes: 1. Please see note under Table 18 for definition of intake.

2. Students' geographic origin determined using 'Home province', 'County of Residence' and 'Admission Applicant Type' fields in ROSI.

3. Graduate data include diplomas in Medicine and Music. Intake data is not available for Postgraduate Medical Education.

4. Data exclude Summer and Winter new intakes; consequently, programs that start in the summer are understated (e.g., DIFA, MBiotech, MMPA).

5. 'Other Countries' includes all international students plus domestic students living abroad.

6. 2011-12 data has been re-expressed to reflect program transfers from Medicine to Public Health (Health Administration, Public Health Sciences, Bioethics) and

Medicine to UTM (Biomedical Communications, Management of Innovation) that occurred prior to 2016-17.

**University of Toronto** 

## Long Range Budget Guidelines 2017-18 to 2021-22 Budget Report 2017-18

February 8, 2017

Prepared by the University of Toronto Planning and Budget Office

## **Budget Highlights**

Budget plans continue to be shaped by the University of Toronto's academic priorities as articulated in the *President's Three Priorities* and the goals set out in *Towards 2030*. The 2017-18 Budget and Long Range Budget Guidelines, 2017-18 to 2021-22 remain essentially aligned with those presented and approved in principle a year ago. Tuition and grant revenue for 2017-18 is projected to be \$2.165 billion vs. the \$2.151 billion projected a year ago, less than a 1% change. Total operating revenue projected for 2017-18 of \$2.473 billion also remains within 1% of last year's projection and outer year revenue projections track very closely to last year's long range budget guidelines. Divisional enrolment plans adhere to strategies set over the last few years, as the University awaits the outcomes of the negotiation on the second round of our Strategic Mandate Agreement with the Province, and a revised provincial funding formula. Proposed budgets are balanced at the institutional level in each of the five years. In the case of a few academic divisions which are projecting deficits over the short term, these divisions will draw down on reserves while they move toward sustainable and balanced budgets.

Planning over the last three years was guided by the Strategic Mandate Agreement (SMA) with the Province of Ontario, which outlines "the role the University currently performs in the postsecondary education system and how it will build on its current strengths to achieve its vision and help drive system-wide objectives articulated by the Ministry's Differentiation Policy Framework." This initial SMA1 (2014-2017) distinguishes the University of Toronto as a "globally recognized, comprehensive, and research-intensive institution with a distinct leadership role in Ontario's postsecondary education system. The University of Toronto's broad range of program offerings and research activity has a major economic and social impact, locally and globally."<sup>1</sup> Discussions on SMA2 will run over the course of several months beginning in early 2017.

Enrolment, the primary driver of operating revenues, remains robust and the University continues to attract excellent domestic and international students; 2016-17 saw growth at both the undergraduate, and graduate levels. Undergraduate entering averages continue to increase across all three campuses and the outlook for the next few years remains healthy, despite Ontario demographics to the contrary. The University of Toronto Mississauga (UTM) plans to increase undergraduate enrolment by about 500 students over the next three years and then hold steady for a period after that. The University of Toronto Scarborough (UTSC) plans growth of about 1,000 undergraduate students over the next five years. The St. George campus is projecting a decline of about 500 students in undergraduate enrolment over five years. International undergraduate enrolment is planned to increase by about 5% (about 600 students) over five years. There is substantial pressure across all three campuses for growth in professional master's programs, with demand for 1,000 additional provincially-funded spaces; divisions plan for growth of about 400 provincially-funded doctoral spaces. Funding for graduate expansion and international PhDs will be a key priority of our SMA2 negotiation with the Province.

<sup>&</sup>lt;sup>1</sup> Strategic Mandate Agreement (2014-17) between the Ministry of Advanced Education and Skills Development and the University of Toronto

The \$2 billion Boundless Campaign was launched in November 2011 and reached its goal in November 2016, six months ahead of schedule; the campaign has expanded its goal to \$2.4 billion. Divisional campaigns, with support from the Division of University of Advancement, will continue to raise funds to support academic programs and research, the student experience, infrastructure and faculty support.

Budget planning at the University of Toronto is essentially a bottom-up process, arising from aspirations and service plans in the academic and shared-service divisions. Academic plans include additional tenure and teaching stream faculty in many divisions, strengthening commitments to equity and diversity in faculty hiring and student recruitment, including hiring to support the initiatives called for in the Final Report of the Steering Committee for the U of T Response to the Truth and Reconciliation Commission of Canada, enhancement of international student services and mental health services, investment in research infrastructure and clusters, fostering experiential and work integrated learning, curriculum redesign including integrating new learning technologies, and operating budget contributions toward capital projects. Allocations to shared-services are restrained, yet recognize the importance of continued investment, and in some cases enhancement, in vital services. Priorities over the next few years include implementation of recommendations outlined in the Report on Prevention and Response to Sexual Violence, ongoing improvements to the student information system, funding to sustain the services and collections (primarily electronic) of our world-class library system, a multiyear project to upgrade classrooms on the St. George campus, and continuation of the Boundless fundraising campaign. Compensation increases are planned within the provincial restraint context. Overall expenditure plans reflect that the University has been granted Stage 2 pension solvency relief; the effective date of the next required actuarial valuation to be filed with the regulators is July 1, 2017.

The Long Range Budget Guidelines, including the 2017-18 budget, are presented in the budget schedules in Appendix A. The projections are presented in five schedules.

- Schedule 1 provides a high-level summary of projected revenue and expense;
- Schedule 2 provides further detail on Provincial Operating Grants and Student Fees;
- Schedule 3 provides further detail on university-wide expenses and campus costs. Universitywide expenses are grouped by the 12 cost bins which are the basis for cost attribution to divisions. It also provides further detail on Student Aid Expenditures;
- Schedule 4 contains a detailed summary of revenue attributions and deductions by division for 2017-18;
- Schedule 5 provides multi-year projections by division for the five-year budget cycle.

It is important to note that the operating budget is prepared on a cash basis, in contrast to the accrual basis of the audited financial statements. Also, the operating budget is only one, albeit the largest (approximately 75% of total revenues), of the four funds included in the financial statements; the three others are the restricted fund, the capital fund and the ancillary operations fund.

## **Strategic Context**

## The Economic and Political Climate

Canada, and the world, is facing considerable political, immigration and trade uncertainty with the new US administration, the UK's withdrawal from the European Union, and rising European populism. Much remains to be seen in terms of the impact on Canadian universities.

The 2016 year experienced an improvement in the global economy with the US economy expected to grow over the next two years. The Bank of Canada Monetary Policy report released in January 2017 sees ongoing constraints on the growth in economic activity in Canada through 2017, with modest growth in real GDP, export growth limited by the recent appreciation of the Canadian dollar relative to the US dollar, and CPI inflation expected to be around 2%. While Ontario's economy has continued to grow in the uncertain global environment, the Province continues to run a deficit budget, projected at \$4.2 billion in their 2016 fall economic outlook, imposing pressure on all provincially funded sectors.

## Post-Secondary Education Funding in Ontario

The Province of Ontario is undergoing a shift in its approach to funding universities and colleges. In 2013 the Province of Ontario released its differentiation policy framework with the goal of shifting the focus away from funding based primarily on enrolment growth, reducing unnecessary duplication and ensuring institutional mandates align with government priorities. The differentiation framework is being operationalized through the introduction of a Strategic Mandate Agreement for each institution, which "outlines the role the University currently performs in Ontario's postsecondary education system and how it will build on its current strengths to achieve its vision and help drive system-wide objectives and government priorities." Future funding is expected to be increasingly directed towards achievement of excellence metrics, rather than enrolment numbers.

The Province of Ontario is entering a period of significant decline in the 18-20 year-old population, primarily in the northern part of the province where the government has expressed concern about the sustainability of universities. In the Greater Toronto Area, projections for this age group call for a slight decline to 2021 and growth of over 20% to 2035. As a result of these demographics, undergraduate growth across the province will be more closely managed, likely through negotiated undergraduate targets; this is a noteworthy departure from the relatively unrestricted approach to undergraduate growth in the last decade.

In 2014 the University of Toronto negotiated its first Strategic Mandate Agreement (SMA1) with the Ministry of Advanced Education and Skills Development (MAESD). SMA1 recognized the University's strength across a broad array of programs and included an allocation of graduate expansion spaces and conversion of undergraduate teacher education spaces to additional graduate teacher education spaces. SMA1 continued to rely on enrolment growth as the key driver (> 90% at UofT) for provincial grant allocations. SMA1 will conclude on April 30, 2017; discussions have begun with MAESD on SMA2, which will cover the 3-year period 2017-18 to 2019-20.

The Province is also engaging with universities and colleges in a funding-formula review designed to support the new differentiation framework. While the current funding model for universities is primarily enrolment driven, the new funding formula is designed to focus on accomplishing three key objectives:

- 1. Improving student outcomes;
- 2. Driving differentiation by linking funding to SMAs; and
- 3. Providing stability to institutions through a formula which provides predictable funding and supports enrolment planning during a period of projected demographic change and enrolment decline.

The government has suggested that the new formula will likely include three envelopes:

- 1. The core operating grant, linked to enrolment
- 2. The differentiation envelope, linked to SMA metrics
- 3. Special purpose grants

Transition to the new funding formula in 2017-18 is designed to ensure that no university will see changes to core funding levels as a result of the transition. Beyond that, changes will be gradual and subject to negotiation between each university and MAESD via Strategic Mandate Agreements.

## Enrolment

For the 2016-17 academic year, across an undergraduate population of 61,000 undergraduate students (FTEs), actual results came within 152 FTE of plan, a variance of 0.2%, spread across all three campuses. Our plans call for UTM to increase undergraduate enrolment by about 500 FTE over the next three years and then hold steady for a period after that; UTSC plans growth of about 1,000 undergraduate students over the next five years; the St. George campus is projecting a decline of about 500 FTE in undergraduate enrolment over five years, all as specified in the University's *Towards 2030* plan. The growth will be accompanied by considerable capital investment and faculty hiring at the three campuses.

The University continues to attract very high quality students. Entering averages of undergraduate students are rising each year across all three campuses and are carefully monitored as an indicator of the academic quality of our students. The University of Toronto's first-choice applications from Ontario high school students increased by 1.0% relative to January 2016, slightly less than the provincial total of 1.5%. Total University of Toronto applications for all choices increased 3.0%, compared to a system total increase of 2.7%. In the non-Ontario high school category, application numbers do not become fully meaningful until later in the spring. System upgrades at OUAC (the provincial application processing centre) this year have also resulted in processing delays for these applications, which make year-over-year comparisons difficult at this point in time. However, initial indications suggest strong growth in this pool for the University of Toronto.

The University met its master's enrolment target in 2016-17 and there is demand for another 1,000 provincially-funded spaces over the next five years. Doctoral enrolment (for provincially funded spaces) has held constant this year relative to last, however divisions plan for growth about 500 more domestic student spaces. Many divisions continue to push for advocacy with the province for increasing the number of funded international PhD spaces, currently only at thirty eight.

## Tuition and Student Assistance

A full discussion of tuition fees is contained in the annual *Tuition Fee Report 2017-18,* and a full discussion of student assistance in the annual *Student Aid Report 2015-16,* both which accompany this report when presented to the Business Board of Governing Council. It should be noted that the 2015-16 year is the most recent year for which the University and the province have complete information on student assistance. Key highlights of the reports are noted below.

Tuition fees at the University of Toronto are determined in accordance with the University's Tuition Fee Policy, the Statement of Commitment Regarding International Students and the Provincial Government's Tuition Framework which ran for a four-year period to 2016-17 and was recently extended to 2018-19. The long range budget projections assume the provincial Tuition Framework will remain unchanged over the final three years of the planning period.

The University of Toronto is independently committed to student aid and is guided by the 1998 Governing Council policy on accessibility, which predates the government's framework, and will continue to drive our funding for needs-based student aid. The policy contains the following Statement of Principle:

# "No student offered admission to a program at the University of Toronto should be unable to enter or complete the program due to lack of financial means."

At the University of Toronto approximately 55% of full time domestic undergraduate students and 23% of full time domestic graduate students receive support from the provincial needs-based assistance program (OSAP). Within that population many students also receive funding from the University's need-based financial aid program, called University of Toronto Advanced Planning for Students (UTAPS). When taking all of these grant and bursary programs (not loans) into consideration, the portion of total tuition paid by OSAP-eligible students, on average in 2014-15 (the year the university last completed the study) was 51% of the posted rate. There has been a 2.1% increase of students with OSAP debt graduating from direct-entry programs since 2010-11; however, the average OSAP debt of these students decreased over the same period by 3%. The combination of these University and provincial student financial aid programs enhances access to the University's excellent education opportunities for a wide array of students.

The 2016 Ontario budget announced a fundamental restructuring of the provincial financial aid system, to begin in 2017-18. These changes are discussed later in this report.

## Federal Funding

Funding from the federal government is provided to universities primarily to support research and is not generally part of the University's operating budget. However, it interacts with the University's operating budget in three important areas: Canada Research Chairs, the institutional cost of research, and graduate student support.

In the 2014 federal budget, the government positioned postsecondary research within their Science, Technology and Innovation strategy. The federal budget announced the creation of the Canada First Research Excellence Fund (CFREF), a \$1.5 billion fund over ten years. The objective of the fund is to "help Canada's postsecondary institutions excel globally in research areas that create long-term economic advantages for Canada." In July 2015 the University of Toronto was awarded the largest research grant in our history under the CFREF program. The \$114 million grant is spread over seven years, whereby the University and its partners, which include the Hospital for Sick Children, the University Health Network, and Mount Sinai Hospital to deliver a new program, called Medicine by Design. The initiative and the funding build on years of support for U of T's regenerative medicine researchers from federal granting councils, the Canada Foundation for Innovation and support from the Canada Research Chairs and Canada Excellence Research Chairs programs. The University did not receive funding in the second round of CFREF awards.

The Canada Research Chairs program introduced in 2000-01 provides salary and research support for outstanding university researchers on a competitive basis. Research chairs are awarded to each university based on its share of research funding by the federal granting councils. The University experienced a decline in the number of CRC chairs several years ago but the trend is reversing as we increase our share in tri-council funding competitions. Since the CRC program was introduced, inflation has reduced the effective value of Chair funding by over 25%. An appropriate adjustment to government funding is long overdue.

As a long-standing subject of government advocacy, universities have been requesting that the federal government recognize the full cost of research in its research funding policy, with a 40% rate as a minimum target for the indirect costs. The government began to provide institutional costs of research funding in 2003-04 through what is now called the Research Support Fund (RSF), with an effective rate for the University of Toronto now at 17.3%. This is currently contributing just over \$20 million to the University's operating budget, and continues to be considerably short of the actual institutional cost of research, estimated at over 50% at the University of Toronto. A doubling of the federal RSF rate would bring us to \$40 million, putting us somewhat closer to our AAU competitors and would have a significant impact on allowing the research intensive divisions to close the gap on their structural deficits. Without a change in the funding formula, each additional dollar of research funding places a higher burden on the University's operating funds.

The federal government supports graduate students by providing fellowships on a competitive basis. Although these funds do not flow through the University's budget, they provide indirect budget relief to the academic divisions by freeing up funds that would otherwise have to be used for graduate student support. The support for graduate students has not kept pace with the rapid growth in graduate enrolment.

## Compensation

In accordance with the Broader Public Sector Accountability Act, 2010, a compensation freeze remains in effect for those members included within the "designated executives" category specified in the legislation. Further compensation restraint legislation, Bill 8 *Broader Public Sector Executive Compensation Act, 2014* has been passed that will effect elements of the compensation freeze, however will not be in effect until new executive compensation frameworks are established. Work is proceeding and a new framework for the University of Toronto must be in place by September 2017. In the meantime the status quo on compensation restraint for "designated executives" applies.

The University is entering into collective bargaining with the majority of its unions throughout 2017-18, as well as with its Faculty Association. Compensation terms for each agreement will not be known until bargaining is completed.

### Pension

Like almost every other Canadian and US public sector institution that sponsors a defined benefit pension plan, the University is facing both a going concern and a solvency pension deficit. Both the overall economic and financial climate and the regulatory landscape continue to be uncertain with respect to pensions. Interest rates continue to be very low, making it much more difficult to achieve target investment returns. Longevity continues to increase. The University is participating in the Ontario Government's temporary solvency relief program and net solvency deficit payments are scheduled to begin July 1, 2018, albeit at a much lower level given an additional round of temporary solvency funding relief announced in 2016. Expense projections include annual pension special payments and associated costs of \$127 million by the end of the planning period. Further details are included in the *Overview of Key Planning Assumptions* section of this report.

## Other Future Liabilities

The University has many future liabilities, not currently funded directly through the operating budget.

As noted in the *Annual Report on Deferred Maintenance*, presented to Business Board for information on January 23, 2017, the University's total deferred maintenance liability on academic and administrative buildings presently stands at \$551 million, up from last year's figure of \$518 million. The St. George campus saw an increase of \$24 million. The majority of the increase was the result of an adjustment to the window replacement values in the replacement cost table. Both UTSC and UTM saw an increase in their respective total liability compared to last year; with UTSC up by \$2.3 million compared to previous year and UTM by \$6.4 million. As with previous reports, the vast majority of deficiencies are still focused at St. George with \$474 million of the total \$551 million liability. The operating budget sets aside approximately \$17 million annually (growing to about \$20 million in 4 years) for deferred maintenance at St. George. Separate funds are set aside at UTM and UTSC.

Additional funds are available to address deferred maintenance through the provincial Facilities Renewal Program (FRP) program. In 2014 the Province announced its intention to phase in increases to the FRP program beginning in 2015-16. Funding for the university sector is projected to increase from \$17 million in 2014-15 to \$67 million in 2019-20. The portion allocated to the University of Toronto is projected to increase from \$4.8 million in 2016-17, to \$7.2 million in 2017-18 and to \$12 million in 2019-20. In July 2016 the federal government announced the Post-Secondary Institutions Strategic Investment Fund (SIF). Total funding of \$190 million (\$84 million SIF, \$14 million FRP provincial funds (redirected from the ongoing program) and \$92 million divisional funds) will provide upgrades to nearly half of UofT's research labs over the next two years; this initiative will address a critical component of the University's overall deferred maintenance backlog. The balance of funding provided by the operating budget vs. the province will be reviewed annually to ensure optimal use of resources.

The ancillary operations' cumulative deficit has been declining over the last several years and is projected to be \$38 million at April 30, 2017, a reduction of 67% of the \$115 million deficit in 2011. The capital fund cumulative deficit is projected to be \$72 million at April 30, 2016. These deficits are primarily due to the internal financing of capital projects, which has the impact of increasing both the University's overall deficit and the investment in capital assets.

## **The Budget Process**

## The Planning Process

This budget represents the culmination of many months of planning and the decisions of many academic and administrative units. The budget-setting process at the University of Toronto is very much a bottom-up process, whereby Deans and their teams in academic divisions and departments look at their own revenue and expense budgets and make decisions locally. Decisions are rolled up for review and approval, informed by relevant economic factors, risk assessments, collective agreements, provincial and University policies and then approved by administration and governance.

An essential and major part of the annual budget process is the formal process for budgetary reviews for both academic and shared-service divisions. Two review processes are conducted annually, one for shared-services and the associated university-wide costs, and the other for the academic divisions.

Each shared-service division prepares multi-year budget plans for its units. These plans are reviewed by the President, who takes advice from the Divisional Advisory Committee, which includes the Principals at UTM and UTSC, and representative deans of faculties. The purpose of the review is twofold. First, the review ensures that any proposed changes in services are aligned with the needs and priorities of the academic enterprise. Second, the review establishes spending priorities, considers the alignment of services between those provided centrally and those provided in the divisions, and ensures that all possible cost reductions have been examined.

The annual academic budget reviews (ABRs) take place throughout the autumn term. Each division submits a multi-year budget plan to the Provost based on its academic plans. Revenue projections are based on enrolment plans, new program offerings, advancement outcomes, etc. Expense projections take into account cost increases, changes in faculty and staff complement, student financial support, etc. These plans are discussed in individual review meetings with a Provostial committee that includes the Provost, the Vice Provost Academic Programs, the Vice President University Operations and senior staff in Planning and Budget. The reviews inform approvals of enrolment targets, academic appointments, allocations from the University Fund, approval of campaign priorities, and approval of capital plans.

The review process, whether for academic or administrative divisions, amounts to a high level of engagement by deans and members of the senior administration in the budget process. As a result, budgetary allocations are informed not only by the overall budget situation of the University but also by the circumstances of individual divisions and by their academic values and priorities. Cost containment measures, which are often necessary because of the constraints on revenue, are applied by each academic division based on its own circumstances.

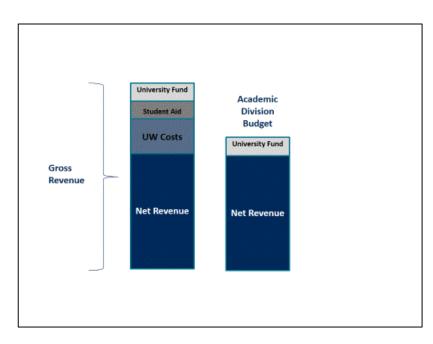

The review process also promotes a better alignment of the University-wide services with the needs of the academic divisions. The involvement of members of the senior administration leads to a deeper understanding of the nature of the University's expenses, how services can be best delivered, and where and how savings may be realized.

## The University's Budget Model

The University adopted the University of Toronto Budget Model in 2007-08. The fundamental guiding principle underlying the budget model is *"The budget allocation process is a primary tool for the implementation of the university's academic plans and academic priorities.*" The model has three basic objectives:

- to provide a high degree of transparency, enabling all levels of university administration and governance to have a clear understanding of university revenues and expenses,
- to introduce broadly-based incentives to strengthen the financial health of the university by increasing revenues and reducing expenses, and
- to encourage a higher level of engagement of all senior levels of administration in budget planning for academic divisions and in recommending priorities and budgetary allocations for shared infrastructure.

The model introduced a methodology for attributing revenues and the costs of shared infrastructure to all divisions. A major portion of the expense budget allocated to an academic division is its *Net Revenue*, which is equal to its share of the University's gross revenue less its share of expenses,

including its contribution to student aid and to a university-wide fund called the University Fund. А division's net revenue includes revenues from its programs, student enrolments, advancement activities through the endowment payout, and research activities through funding from indirect costs of research. Divisions benefit as their activities increase revenue and when, in cooperation with central service units, they are able to make more efficient use of shared resources.

The remainder of a division's budget is an allocation from the University Fund. This is an entirely nonformulaic allocation, intended to provide funding in accordance with the University's academic values and priorities. It ensures that the total budget of a division is determined by the University's own priorities rather than by those of an external entities. It also enables the University to recognize differences in the cost of delivery of various programs.

The process of attributing revenues and costs to divisions has been designed to minimize administrative overhead. For example, no transaction accounting is used to attribute the cost of a particular service. Instead, revenues and costs are attributed using readily available and verifiable parameters that provide a reasonable basis for the distribution of revenue or a suitable measure of the extent to which a division has access to a particular resource or service. These measures are referred to as revenue drivers and cost drivers, respectively. They include such parameters as number of students, number of faculty, usable space area occupied, etc.

The budget planning cycle is based on a five-year rolling window. Budget assumptions used in the Long Range Budget Guidelines are updated each year, and new assumptions are prepared for one additional year. Revised revenue and expense projections are then prepared for the new cycle based on these assumptions.

## Surplus/Deficit Management

Governing Council guidelines for deficit control were revised in 2008 as a result of the change from a fixed to a rolling-window planning cycle. According to these guidelines, the University should strive to plan a balanced budget in every year of the cycle. In addition, any outstanding accumulated deficit from previous years should be reduced to zero by the end of the five-year planning period. An in-year deficit may be allowed in some years to facilitate planning, recognizing that fluctuations often occur in enrolments, government grants, investment income, etc. The deficit or surplus in the University's

integrated budget is a result of the aggregated plans of individual divisions. A planned deficit may also be necessary in exceptional circumstances. Planned budgetary deficits should also be repaid over five years.

## **Overview of Key Planning Assumptions**

## **Revenue and Enrolment Projections**

Operating revenues are derived primarily (88%) from provincial operating grants and tuition and other student fees, which in turn are fully tied to enrolment. Non-enrolment driven sources of revenue include investment income, endowment income, Canada Research Chairs, funding for the indirect costs of research, revenue from activities such as continuing education, sale of services and cost recovery and administrative ancillary fees. The University projects growth in total revenue of \$155 million in 2017-18 (6.7% over 2016-17) to total revenue of \$2.473 billion, and growth of \$631 million over the planning period. A high level summary of enrolment plans is shown in the following three tables.

|                    | 2016-17A | 2017-18P | 2018-19P | 2019-20P | 2020-21P | 2021-22P |
|--------------------|----------|----------|----------|----------|----------|----------|
| UG Domestic        | 48,362   | 48,333   | 48,491   | 48,397   | 48,828   | 48,883   |
| UG International   | 12,900   | 13,403   | 13,622   | 13,583   | 13,501   | 13,532   |
| Grad Domestic      | 14,060   | 14,374   | 14,900   | 15,188   | 15,374   | 15,538   |
| Grad International | 2,969    | 2,988    | 3,111    | 3,202    | 3,285    | 3,335    |
| Total FTE          | 78,291   | 79,098   | 80,124   | 80,370   | 80,988   | 81,288   |

#### Table 2: Undergraduate FTE by campus

|            | 2016-17A | 2017-18P | 2018-19P | 2019-20P | 2020-21P | 2021-22P |
|------------|----------|----------|----------|----------|----------|----------|
| UTM        | 11,915   | 12,111   | 12,390   | 12,455   | 12,561   | 12,583   |
| UTSC       | 10,747   | 11,090   | 11,365   | 11,546   | 11,641   | 11,699   |
| St. George | 38,600   | 38,535   | 38,358   | 37,979   | 38,127   | 38,133   |
| Total FTE  | 61,262   | 61,736   | 62,113   | 61,980   | 62,329   | 62,415   |

#### Table 3: Graduate FTE by degree type

|                    | 2016-17A | 2017-18P | 2018-19P | 2019-20P | 2020-21P | 2021-22P |
|--------------------|----------|----------|----------|----------|----------|----------|
| Profess. Master's  | 7,743    | 8,111    | 8,570    | 8,855    | 8,980    | 9,095    |
| Doc. Str. Master's | 2,948    | 3,031    | 3,053    | 3,063    | 3,066    | 3,067    |
| PhD                | 6,338    | 6,220    | 6,388    | 6,472    | 6,613    | 6,711    |
| Total FTE          | 17,029   | 17,362   | 18,011   | 18,390   | 18,659   | 18,873   |

*Note: The enrolment tables above include TST conjoint enrolment (i.e., exclude TST non-conjoint enrolment).* 

#### **Operating Grants**

The operating grant projections in this report do not reflect any changes that may arise as a result of negotiation of SMA2 or the funding formula review. The Ministry has indicated that implementation of a new funding formula will be a multi-year process with no redistribution of funds through the transition phase. SMA3 will be implemented in 2020-21 and at that point the metrics linked to the differentiation envelope will take effect. Details of operating grants are included in Appendix A, Schedule 2. A decrease of \$3 million (0.5%) is projected in the operating grant for 2017-18 as a result of slower undergraduate growth, and an increase of only \$13 million is projected over the next five years. The increase is entirely the result of more students; there is no increase to per student funding.

The budget assumes the following for provincial grants:

- No changes have been projected related to the provincial funding formula review or SMA2;
- The budget projections are based on the most recent divisional enrolment plans and the information available about government funding;
- The budget projections do not include funding for capital expansion;
- The provincial government operating grants will not include an inflationary increase;
- Undiscounted funding will be received for all undergraduate students as per divisional enrolment plans and funding for graduate expansion up to the <u>estimated</u> University of Toronto final Strategic Mandate Agreement allocation from the provincial graduate envelope; some graduate divisional plans exceed this and tuition revenue only is assumed in those cases.

#### **Tuition Fees**

A breakdown of tuition fees vs. ancillary, continuing and executive education fees is included in Appendix A, Schedule 2. Tuition fees for domestic students are set within the provincial Tuition

Framework which has been extended to 2018-19; the projections assume there will be no change in Tuition Framework beyond the 2018-19 year. It is important to note that tuition revenue increases are a result of both increased tuition fees <u>and</u> higher enrolments.

Under the provincial Tuition Framework, tuition fees for entering and continuing students in Arts and Science and selected other undergraduate programs may increase by a maximum of 3%. Tuition fees for entering and continuing students in graduate and high-cost professional programs may be increased by a maximum of 5%. Overall, the average increase in tuition for all students in any institution may not exceed 3%. The projected average for gross tuition fee increases at the University of Toronto in 2017-18 is 2.97%. In order to fit within the overall 3% cap, the University is not able to maximize fee increases in all programs due to the mix of our graduate and professional programs. To provide a bit of tuition room for professional programs to increase tuition by 5%, tuition fees for doctoral stream students will **decrease** by \$70 in 2017-18. A reduction in tuition fees for doctoral stream students often has a net zero budgetary impact for divisions because in many cases tuition fees are funded as part of a students' graduate funding package.

Tuition fees for international students are set at a level that takes into consideration the full cost of providing a program and with reference to fees at peer Canadian and US universities. With the current exchange level of the Canadian dollar, tuition fees are favorable to students from key international markets such as China, Pakistan, South Korea, Hong Kong and the United States. Tuition fee increases, measured at the gross level, are estimated to be just shy of 3% on average for domestic students. The average tuition increase for international students is 5.9% in 2017-18 and varies slightly each year thereafter depending on divisional plans. Details on proposed tuition fee increases program by program are found in the *Tuition Fee Report*, which comes to Governing Council for approval along with this report.

The concept of "net tuition" is an important one. Net tuition is defined as the tuition paid by a student after deducting non-repayable bursaries provided by the provincial government and the University. It does not take into account student loans. Universities and the provincial government provide significant amounts of student financial support to reduce the stated cost of tuition and to ensure that academically qualified students have the resources they need to attend university.

Last year the University of Toronto updated the study of the impact of student financial support on the tuition rates actually paid by our students. Results of the analysis yields important insights into the true cost of accessing higher education at the University of Toronto. Some of the key findings from the 2014-15 analysis include:

- About 53% of UofT full-time domestic undergraduate students received support through OSAP;
- Of this OSAP-eligible population, about 43% also received additional support from the University of Toronto;
- When OSAP, University bursaries and the Ontario Tuition Grant are taken into consideration, net tuition for the OSAP-eligible undergraduate population of students is 51%; when the net

tuition study was completed for 2012-13, the net tuition rate was 48%. The increase in average net tuition from 48% to 51% is attributable to the decline in relative provincial and federal government support. The University has improved its contribution towards net tuition, with increases to our need-based financial aid programs such as UTAPS. Advocacy efforts will continue with the Province to seek contributions to provincial student aid that keep pace with tuition.

• Net tuition for the OSAP-eligible undergraduate population of students in <u>direct-entry</u> programs is 45%;

#### **Ancillary Fees**

Ancillary fee revenue includes fees charged to students as permitted by MAESD Guidelines. These include fees in the following categories: student services, health services, athletics, Hart House, constituent college fees, student society fees, cost recovery fees, and administrative user fees and fines. Increases in compulsory ancillary fees are regulated by MAESD through their Guidelines and in accordance with the Memorandum of Agreement between the University and student governments (1996).

#### **Tuition Fees for Continuing and Executive Education Programs**

Most divisions offer continuing and/or executive education programs. Fees in these types of programs are not regulated by MAESD. Examples include: language, creative writing, and professional development programs in the School of Continuing Studies, and executive education programs in many professional faculties.

#### **Endowment Income**

The University of Toronto has many generous friends and benefactors, who have contributed a total endowment in excess of \$2.1 billion (fair value at April 30, 2016.) Endowment income is highly targeted. The endowment income included in the operating budget is directed to student aid and to the support of endowed chairs and represents a modest but important part of the University's total operating revenue, 2.5% in 2017-18. It is important to note that endowment revenue for research and academic program support is not reflected in the operating budget. The Long Range Budget Guidelines build in a conservative assumption of growth in endowments; this will be adjusted each year as gifts are received.

By policy, pay-outs on the University's endowed funds range from 3% to 5% of the market value of the relevant assets, with a target around 4%. The endowment payout strategy is to increase the payout per unit annually with inflation. The payout rate per unit will be determined and announced in March 2017 and the actual distribution will occur just prior to year end at April 30, 2017, following the normal process. In 2016 the endowment payout rate was not increased because the cushion above the cumulative preservation of capital of the investment pool had decreased from \$133 million at April 2015 to only \$6.6 million at April 2016 due to a year of almost zero return. From May to December 2016, returns have been more positive with an actual investment return rate of 8.3%. Given the return

for the year so far, the plan is to increase the payout by 2% for April 2017 to \$7.86 per unit. If investment return remains unchanged for the rest of the year, after a payout of \$7.86 per unit, the cumulative preservation of capital is expected to increase to about \$55 million above the desired cumulative inflation protection.

For the remaining four years in the planning period, the payout rate is assumed to remain at \$7.86 as a precautionary measure. In 2017-18 the projected payout rate results in \$43 million for student aid and \$17 million for chairs, reflected in the operating budget.

#### **Investment Income**

Investment income projections have been reduced relative to last year's budget due to investment rates being lower on average by 0.5%. The University receives interest on short- and medium-term investments of the Expendable Funds Investment Pool (EFIP.) The investments are primarily managed by the University of Toronto Asset Management Corporation (UTAM). Investment income makes up a small but important portion of total operating revenue (under 2%) and fluctuates with market conditions.

The projection is based on assumptions of cash balances, revenue and expenditure rates, divisional reserve balances, transfer of operating funds to capital funds, cash donations, research revenue forecasts, and investment return rates. The UTAM return rate assumption over the next 5 years is assumed to rise from 1.21% in 2017-18 to 2.59% by 2021-22. Capital available for investment has increased relative to last year's projections due to higher levels of student fees, donations, capital grants and lower capital expenditures.

#### Sales, Services and Sundry Income

This income source of \$122 million in 2017-18 includes application fee revenue, service charges on unpaid fees, real estate rental income, licensing revenue from commercialization, and revenue collected directly by divisions for general sales and services.

#### **Canada Research Chairs**

The federal allocation of CRC chairs is based on a rolling average of proportional shares of federal tricouncil funding. Several years ago the University began to experience a reduction in our allocation of CRC Chairs, bringing the number as low as 232. Over the last few years, commensurate with increased federal tri-council funding received by the University, the number of CRC chairs has increased to 248 and is projected to increase to 254 by the end of the planning period; projections include a 5% vacancy rate and "flex" moves, in which two Tier II chairs can be combined to form one Tier I chair or vice versa at the discretion of the University.

#### Institutional Costs of Research on Grants and Contracts

This category includes recovery of indirect operating costs from research grants and contracts. Although direct research expenditures are recorded in restricted funds, indirect costs incurred in support of research (e.g. occupancy, information technology, research services, human resources, library acquisitions and services) are recorded in the operating fund. The University incurs roughly \$0.55 in operating costs related to each \$1.00 in direct research expenditures, and recovers a portion these costs from restricted research funds based on the indirect cost rate specified in each individual grant or contract.

Most research sponsored by NSERC, SSHRC, CIHR and Networks of Centres of Excellence funding programs generates indirect cost funding from the federal Research Support Fund (previously named the Indirect Costs Program). The University of Toronto's share of the Research Support Fund results in an effective rate of federal indirect costs recovery of 17.3% for 2017-18. Budget projections assume the value, at \$20.6 million for campus-based research in 2016-17 will increase to \$22.7 million in 2017-18 and then will remain constant over the planning period.

The \$114 million Medicine by Design initiative funded by the Canada First Research Excellence Fund includes \$19 million for on-campus indirect costs over a seven year period. The recovery amount will vary annually based on the timing of direct expenditures in the Medicine by Design program, from \$2.9 million in 2017-18 during the initial phase of the project in 2017-18, to \$1.7 million in the final year of funding in 2021-22.

Revenue from indirect costs on private sector-sponsored and other research funding agreements, and funds awarded through the Ontario Ministry of Research and Innovation (MRI) is projected to increase from \$11.6 million this year to \$13 million next year and throughout the planning period. The majority of the MRI funds are from the Ontario Research Fund Research Excellence (ORF-RE) program. Projections for the ORF-RE include existing funding and have not assumed future competitions, given some degree of uncertainty about provincial capacity to continue the program.

Funding from the provincial Research Overheads Infrastructure Envelope (ROIE) is projected to remain constant at \$11 million over the planning period. MAESD has indicated that this grant will be rolled into the differentiation envelope of the provincial operating grant in SMA2.

## **Expenditure Projections**

Aggregated expenditure projections are included in Appendix A, Schedule 1. More detailed views are included in Appendix A, Schedule 3 outlining projections for each university-wide "cost bin" and UTM and UTSC campus costs, and Appendix A, Schedules 4 and 5 outlining expense budgets for each academic division.

With the requirement to fund the pension solvency deficit, the declining proportion of revenue from government funding, and restriction under the provincial tuition framework, we must remain restrained in our allocation of resources, while ensuring we maintain standards of excellence in teaching, research and the student experience. Expenditure allocations are proposed within these competing constraints and priorities. Decisions on the allocation of resources across the institution take

into consideration a balance between the rates of expenditure increase in the administrative divisions vs. the academic divisions.

Commensurate with revenue increases, total expenditures are projected to increase by 6.7% from \$2.32 billion in 2016-17 to \$2.47 billion in 2017-18. Investments in important strategic initiatives will continue to be funded across academic and service divisions. A cost containment of \$2 million (1%) will be applied to the shared service divisions in 2017-18. Academic divisions are responsible for their own increases in expenses, including the cost of compensation increases, and they will implement internal cost containment measures according to their individual circumstances.

#### **Compensation Assumptions**

Approximately 60%<sup>2</sup> of operating budget expenditures fund salaries and benefits and another 4% funds pension special payments and related costs.

Compensation expense increases are due both to negotiated increases, if any, for employees, the hiring of additional faculty and staff needed to support the growth in student enrollment and research activity, and to increases in the cost of some benefits.

The Broader Public Sector Accountability Act contains provisions, enacted as part of the June 2012 Budget, for compensation restraint with respect to "designated executives" at listed broader public sector institutions, including the University. These restraints apply to the President, Vice-Presidents, Vice-Provosts, Principals, Deans, Assistant Vice-Presidents and a number of senior Professional Staff. On December 9, 2014 the Ontario Government passed Bill 8 "Public Sector and MPP Accountability & Transparency Act, 2014" which outlines some changes and timelines to the restraint legislation currently in place however any impact will not be seen until an executive compensation framework for the University of Toronto is established. Development of this framework is underway and must be in place by September 2017. In the meantime the status quo on compensation restraint applies.

One of the Government's priorities, shared by the University, has been to ensure the long term sustainability of pension plans. The University has been successful in negotiating increased employee contributions with all employee groups, meeting the Government's requirements for granting solvency relief. However, low interest rates are resulting in a continued and growing deficit and the Government has encouraged Universities to consider adopting joint risk sharing through jointly sponsored pension plans (JSPP's). The University is actively participating in ongoing discussions with a number of other Ontario Universities with respect to a multi-Employer JSPP and, at the same time, is continuing discussions with UTFA, USW, CUPE, and other employee groups with respect to the long term sustainability of the University's plan.

<sup>&</sup>lt;sup>2</sup> Note that this percentage is calculated on the cash basis (which is the basis upon which the operating budget is prepared); the financial statements are prepared on the accrual basis and in that case compensation makes up about 63% of operating expenditures when employee future benefits are excluded and 73% when employee future benefits are included.

Academic divisional budgets must cover the full cost of compensation increases, if any. Shared-service divisions receive central funding to cover compensation increases. Budgets for all divisions have been constructed based on the following assumptions:

- The standard benefit rate (SBR) will decrease from 24.75% to 24.00% for appointed staff and will remain at 10% for non-appointed staff in 2017-2018. The SBR covers legislated and negotiated benefits. The decrease is as a result of salaries growing faster than the cost of benefits combined with a lower average rate of payroll deductions since most salaries are now above the maximum legislated salary for CPP and EI.
- The Provincial Government *Broader Public Sector Accountability Act, 2010 (BPSAA)* is still in effect.
- Compensation increases for all University employees are assumed to be as per negotiated agreements or, in the case of ongoing negotiations, as per the University's offer. In the case where there is no agreement or offer in place, divisions plan for compensation increases within the context of the University's structural deficit constraint (see further information of the structural deficit later in this report.) If compensation increases result in an overall cost greater than planned by a division, the division will be required to reallocate resources or to implement a cost containment. The same planning framework applies to planning for compensation increases at the centre for shared service divisions.
- The *Broader Public Sector Executive Compensation Act, 2014, Bill 8* has passed however will not be in effect until a new executive compensation framework for the University of Toronto is established.
- The University will be engaged in collective bargaining throughout 2017-18 with a majority of unions, and the Faculty Association.

#### Pension special payments and pension-related costs

#### Original pension contribution strategy

The Budget Report for 2012-13 addressed a \$1 billion pension going concern deficit and about a \$1 billion solvency deficiency at July 1, 2011. The planned strategy<sup>3</sup> for dealing with this deficit was projected to require an increase of \$70 million per annum to the pension annual special payments budget, increasing it from \$27.2 million per annum in 2010-11 to \$97.2 million by 2015-16. This operating fund pension special payments budget funds special payments into the registered pension plan, and other related costs, including Pension Benefits Guarantee Fund payments, the potential cost of issuing letters of credit, and the costs related to the lump sum payments element of the strategy which included principal and interest payments on up to \$150 million of borrowing and SRA payments

<sup>&</sup>lt;sup>3</sup> The pension contribution strategy anticipated in the 2012-13 Budget Report was approved by the Business Board in May 2012, based on pension results to July 1, 2011

to pensioners. This annual special payments budget was expected to remain in place at this level until at least 2029.

#### Update to July 1, 2016<sup>4</sup> pension results

Both the overall economic and financial climate and the regulatory landscape continue to be uncertain with respect to pensions. Interest rates continue to be very low, making it much more difficult to achieve our target investment return in the long-term. Longevity continues to increase, making the same pension benefits more expensive. In 2014, reflecting these trends, the discount rate and the longevity assumption were changed, increasing the funding requirement both from a current service cost perspective and from a going concern and solvency perspective. We continue to monitor these assumptions for possible future changes that could further increase funding requirements.

Actual experience and University special payments have resulted in improvements to the going concern deficit between 2011 and 2016 (from a deficit of about \$1 billion in 2011 to a deficit of \$573.1 million in 2016) but lower interest rates and increases in longevity have resulted in deterioration in the solvency deficiency (from a deficiency about \$1 billion in 2011 to a deficiency of \$1.681 billion in 2016).

Under the most recent version of the Ontario Government's temporary solvency funding relief program net solvency deficit payments for our pension plan will begin July 1, 2018. The amount is currently estimated at about \$15 million per annum, reflecting additional solvency funding relief announced in 2016, in addition to the going concern pension special payments currently required which are \$78.7 million per year. The Ontario Government is also considering permanent changes to its solvency funding regime, but those changes have not yet been determined.

Discussions continue with respect to creating a jointly sponsored pension plan for a small group of Ontario Universities as well as the potential for a University of Toronto jointly sponsored pension plan. Both of these initiatives are forward – looking and would not address the going concern or solvency deficits, which reflect past experience. These discussions are expected to continue to the end of June 2017, the results of which will underpin a revision of the pension contribution strategy, which will be submitted to the Business Board for approval once the work has been completed.

In the meantime, <u>as a placeholder</u> until the actual required additional funding is determined, \$5 million per year is being added to the pension special payments budget for each year of the long-range budget plan, increasing this budget line to \$127.2 million per year by the end of the planning period.

#### Academic Expense Budgets

This budget line includes the majority of the funds that are managed by the academic divisions. Future unspecified allocations to academic divisions from the University Fund are included on the University Fund budget line. Under our budget model each division receives an expense budget equal to net

<sup>&</sup>lt;sup>4</sup> July 1, 2016 is not a filing year for pension results. The actuarial valuation was most recently filed with the Financial Services Commission of Ontario (FSCO) at July 1, 2014, and the current service payments and special service payments identified in that 2014 report continue to be required until the next required filing date as of July 1, 2017.

revenue plus an allocation from the University Fund, as described earlier. Academic divisional plans include hiring of tenure and teaching stream faculty across many divisions, enhancement of student services, funding of all compensation increases, allocations for renovations and upgrades of laboratory and office space, principle and interest payments for divisions holding mortgages, and funding for research stream and professional master's graduate students. Some examples of current academic initiatives and priorities include:

- New academic tenure and teaching stream hiring is planned across many divisions with the objective of maintaining and enhancing the quality of the student experience and building new programs in emerging areas. Some divisions remain focussed on reducing the student faculty ratio, particularly in the three Arts and Science divisions. Divisional plans include adding 61 additional faculty in 2017-18;
- The Faculty of Arts & Science has announced increases to graduate student funding levels to be phased in over 2017-18 and 2018-19 (building on an increase previously implemented in 2016-17); several other divisions will follow suit;
- The School of Graduate Studies continues to work with divisions and graduate units to put in place supports and incentive structures to improve outcomes for doctoral students, as measured by time-to-degree, student retention and job placements;
- Divisions are developing new course delivery methods, including fully online courses, hybrid and inverted courses;
- International enrolment is projected to remain strong across arts and science programs at all three campuses, in the Faculty of Applied Science & Engineering, the Daniels Faculty of Architecture and Landscape Design and many professional master's programs. Divisions are reviewing recruitment practices, in collaboration with the new Vice-President International portfolio, with the objective of diversifying the international student population. They continue to invest in additional academic programming, co-curricular programming, and counselling and support services to ensure the success of our international students;
- Academic plans call for increased experiential learning, entrepreneurship and research opportunities and work-integrated learning for students, not just in the traditional professional programs but across a wide array of science, humanities and social science programs;
- Several divisions will be increasing funds available for new faculty start-up funding;
- Several divisions are planning increases in financial aid programs, funded from operating budgets as well as fundraising initiatives;
- Development of new double degree programs at the undergraduate level continues;
- As new space comes online divisions will require additional spending on occupancy costs;
- Divisions are contributing funds to match federal and provincial funds for the renewal of laboratory space under the federal Strategic Investment Fund (SIF) program; divisions will contribute a total of \$92 million from operating reserves;

 Many capital projects are planned over the next five years include North2 and Davis2 at UTM, Instructional Centre, Student Life Centre/Residence and Highland Hall at UTSC, renovations in several Arts & Science buildings at the St. George campus, the Site 12 academic tower, renovations at University College and the Centre for Civilizations and Culture on Queen's Park. Divisions will provide a portion of the funds for these buildings from their operating reserves. In all cases deans continue to strive for increased support from donors toward these important projects.

#### **University Fund**

As noted above, the University Fund (UF) is the non-formulaic portion of an academic division's budget, intended to provide funding in accordance with the University's academic values and priorities. Each year the Provost has 10% of incremental (unrestricted) operating revenue available for distribution to academic divisions. The distribution is made after all annual budget reviews have taken place, and takes into consideration divisional and University-wide academic priorities. The total amount available for allocation in 2017-18 is \$18 million; the incremental base available is \$13 million and there is \$5 million available as one-time-only funds allocated in prior year become available for new allocations. Over the 5-year planning period the Provost is projected to have about \$57 million available for allocation to academic divisions through the University Fund. In 2017-18 the theme of the University Fund is *Advancing our Priorities* and allocations will be made in across four priority categories:

#### 1. Undergraduate and International Experience

- An allocation of \$1.5 million (base) to create 15 administrative positions to work within academic divisions in support of international student recruitment and student mobility in terms of study abroad and exchange opportunities. Twenty percent of each position will be available for cross-divisional initiatives in collaboration with the Office of Student Recruitment and the Centre for International Experience. The allocation includes positions for:
  - Faculty of Arts & Science 4 FTE
  - UTM 2 FTE
  - UTSC 2 FTE
  - Faculty of Applied Science and Engineering 1 FTE
  - Faculty of Medicine 1 FTE
  - OISE 1 FTE
  - School of Graduate Studies 1 FTE
  - Single Department Faculties Pool 3 FTE
- An allocation of \$1.3 million (base) to create 10 wellness counsellor positions that would augment existing resources in support of student mental health, additional to those that have been funded through student fees and previous budget allocations. The 80% of each position will follow the embedded counsellor model of service provision; distribution is informed by the Student Health & Wellness Centre's analysis of need. Twenty percent of each position will be

devoted to the provision of services in the Tri-Campus Sexual Violence Prevention and Support Centre. This allocation includes positions for:

- Faculty of Arts & Science 2 FTE (split between New College (0.5 FTE); University College (0.5 FTE); and Woodsworth College (1.0 FTE shared with TYP))
- UTM 1.5 FTE
- UTSC 1.5 FTE
- Faculty of Applied Science and Engineering 1 FTE
- Faculty of Medicine 1 FTE
- Faculty of Nursing 1 FTE
- School of Graduate Studies 1 FTE
- Faculty of Dentistry 0.5 FTE
- Faculty of Pharmacy 0.5 FTE
- An allocation of \$1 million (one-time-only for 3 years) to support proposals for initiatives that enhance undergraduate research and career development, which may include work-integrated learning and experiential learning. The fund will be managed by the Vice Provost, Innovations in Undergraduate Education.

#### 2. Diversity and TRC Related Supports

- An allocation of \$2.5 million (base) for 20 faculty and 20 staff positions to support the initiatives called for in the *Final Report of the Steering Committee for the U of T Response to the Truth and Reconciliation Commission of Canada*. The funds will be held in a central pool until positions are filled, allowing for maximum flexibility in where the hires are made. Positions will be funded at 50% of starting salary and benefits.
- An allocation of \$1.5 million (one-time-only for 1 year) as matching funds for the conversion of existing space, including co-curricular space, to space that is welcoming to members of our Indigenous community.
- An allocation of \$200,000 (base) for one faculty appointment as the Director of the Transitional Year Programme.
- An allocation of \$750,000 (one-time-only for 3 years) to build on the initiative started last year to increase the diversity of divisional faculty complement across the three campuses. This allocation provides support for 50% of salary and benefit costs for an additional 10 faculty hires, bringing the total to 40 faculty hires when combined with last year's allocation. These hires will be part of divisional approved complement plans and meet the division's definition of underrepresented groups as outlined in a diversity plan prepared by each division.

#### 3. Cities Initiatives

• An allocation of \$1.5 million (base) to cover the costs of the initiatives being proposed by academic divisions in the area of cities research.

• An allocation of \$1 million (one-time-only for 1 year) to renew institutional performance spaces that serve students and the public.

#### 4. Structural Budget Support

- An allocation of \$3.5 million (base) for a Provostial Reserve for structural budget support to be allocated to academic divisions facing budget challenges. Specific allocations will be determined as the impact of future SMA and SMA enrolment-related changes becomes clear.
- An allocation of \$1.6 million (base) to maintain our existing research strength in the area of high performance computing.
- An allocation of \$2 million (one-time-only for 1 year) to be used for capital project matching.

#### **Student Aid Expenditures**

A breakdown of proposed student aid budgets for 2017-18 to 2021-22 is displayed in Appendix A, Schedule 3. Total spending is projected at \$200 million for 2017-18, growing to \$228 million over five years. Note that this amount excludes external funding and internal employment income for doctoral stream graduate students.

The greatest portion of student aid is derived from operating funds, followed by funding from endowments, and then provincial scholarship grants. The funds are managed through both centralized programs as well as divisional programs.

Undergraduate and graduate students at the University of Toronto have access to a wide range of financial supports through the University in addition to those available through government loan and grant programs like the Ontario Student Assistance Program (OSAP). Some are based on need, and others on measures of merit, such as academic achievement or leadership. There are supports for international and Canadian students as well as dedicated supports for students with disabilities.

As articulated in the Governing Council Policy on Student Financial Support (approved by Governing Council in April 1998): "No student offered admission to a program at the University of Toronto should be unable to enter or complete the program due to lack of financial means." The University of Toronto's Policy on Student Financial Support sets out the principle that students should have access to the resources that will enable them to meet their financial needs, as determined through the same methodology used by the Ontario Student Assistance Program (OSAP). In practice, this means that the University provides institutional student aid to qualified students whose financial need is greater than what OSAP provides. This aid is provided as non-repayable grants for direct-entry undergraduate students and as a combination of non-repayable grants and access to a preferred line of credit for students in professional master's and second-entry undergraduate professional programs. This commitment goes beyond the requirements for meeting a student's financial needs. SAG requires institutions to provide non-repayable aid to assist direct-entry undergraduate students with expenses related to tuition, books and supplies not covered by OSAP; the University of Toronto <u>also provides aid</u>

<u>for living expenses</u>. The Province requires each institution to meet no less than 20 per cent of the aggregate value of snapshot tuition/book shortfalls of its second-entry students using non-repayable assistance. In 2015-16 the University provided \$38 million in non-repayable aid to undergraduate students over and above our \$20 million SAG requirement.

The 2016 Ontario budget announced a fundamental restructuring of the Province's financial aid system, to begin in 2017-18. The goal is to modernize financial assistance by introducing a system that is more progressive, effective and transparent for students and will provide students who have the greatest need with better access to grants upfront.

The changes will be rolled out in two phases. In 2017-18, a new single upfront grant, called the Ontario Student Grant (OSG), will be established, redirecting all funds previously provided to students through Ontario Tuition Grant (the "30% off grant"), the Ontario Student Opportunity Grant (which helps students reduce their Canada-Ontario student loan debt), Ontario Access Grants (for students from low and middle-income families) and other grants offered by OSAP. The Province has stated that under the new OSG, students from families with income under \$50,000 will have no provincial debt; that more than 50% of students from families with incomes under \$83,000 will receive non-repayable grants that exceed university tuition; and that all students will be the same or better off than under the old OSAP programs. In addition, the Province will discontinue the tuition and education tax credits and reinvest these funds into the OSG program or other post-secondary programs. A variety of additional enhancements to OSAP are planned as well.

The second phase will see the implementation of net billing for domestic direct-entry undergraduate students, starting in 2018-19. The Province has signaled that net billing will be rolled out for all students in future years. Essentially this means that students will be billed for the net tuition owing to the university: tuition fees plus ancillary fees less OSAP grants and loans, less institutional aid = net amount owing. In order to provide better information to students applying to direct-entry programs<sup>5</sup> at the University of Toronto, we will provide proposed domestic tuition fees for 2018-19, for information, to Governing Council as part of the *Tuition Fee Schedule for Publicly Funded Programs, 2017-18.* 

Many details of net tuition billing are still being worked out between universities and the Ministry however we do know some key implications of the change to net billing:

- Students will apply to OSAP a full year ahead of beginning their first year at university;
- Students will have much better information the true cost of attending university at the time they receive an offer, rather than part way through their first year,
- OSAP loans and grants will be flowed to the university, rather than to the student

<sup>&</sup>lt;sup>5</sup> Includes Arts & Science at the three campuses, Engineering, Music, Kinesiology & Physical Education, and Architecture & Landscape Design.

The single largest financial aid program is the University of Toronto Advance Planning for Students (known as UTAPS), the University's major program for meeting financial need not addressed by OSAP or other government programs. As the Province works through details, the impact of OSAP restructuring on the UTAPS program is not fully established yet.

The UTAPS budget for undergraduate students is projected to increase by \$2.6 million in 2017-18 and \$14 million over the planning period. In the coming year the financial aid programs for students in professional master's programs, Dentistry DDS and Pharmacy PharmD will transition from the centrallymanaged UTAPS program to divisionally-run programs. In the past, divisions have allocated a portion of their funds to the central UTAPS pool of funds and professional master's /DDS/PharmD students have been eligible to receive funds from this central pool. However, it has become clear that allocations to these students from the central UTAPS pool have not been made based on a fully transparent and equitable basis. Therefore, the decision was made to leave the funds that would have been collected from divisions for UTAPS in the local academic divisions to be allocated through divisionally-run programs. We believe this will lead to more informed decision-making at the local level, where divisions are better able to ensure that funds are allocated to those students most in need. For some time students in some professional programs, such as DDS, PharmD, Management and Law, had access to the Scotiabank line of credit which offers a preferred rate of interest. We have now negotiated with Scotiabank to extend the line of credit option to students in all professional master's programs. During the transition, continuing students in these programs will be grandparented under the central UTAPS fund for the duration of their program in order to allow continuity in their financial planning.

The University is launching the Lester B. Pearson International Scholarship program in 2017-18. The program is available to students in direct-entry programs (Arts & Science, UTM, UTSC, Music, Kinesiology, Engineering and Architecture) and is aligned with the President's priority to strengthen international partnerships. Each scholarship will cover tuition, books and living costs for four years. Each year approximately 37 students will be named as scholars. Funds will be provided from a combination of international tuition revenue and fundraising.

Our graduate students receive support from several sources. Some of this is reported as part of student aid in the operating budget and some comes from other sources, such as research stipends, external awards and employment income from positions as teaching assistants. In total our graduate students received support of \$273 million in 2015-16.

#### **University-wide Costs**

University-wide costs charged to academic divisions in 2017-18 are projected to total **\$552 million**, comprised of:

1) **\$284 million in portfolio operating budgets** for compensation and other expenses incurred in the provision of shared services;

- 2) \$120 million in non-discretionary expense budgets for targeted, required institution-wide costs such as utilities, banking, audit, insurance and legal fees, payments under agreements with the federated colleges, municipal taxes, collective bargaining commitments, and licensing fees for existing institutional IT systems;
- 3) \$107 million in pension special payments, as described in the pension section of this report; and
- 4) \$41 million in academic and administrative initiative funds administered by multiple shared service units held as specific initiative funds for distribution to academic divisions throughout the year. This includes funds such as the International Fund, Major Research Project Management Fund, the Doctoral Expansion Incentive Fund, the Provost's Matching Fund and the Instructional Technology Fund.

For budget allocation purposes, the above costs (known in aggregate as university-wide costs) are grouped into twelve costs bins.

Shared service divisions play a vital role in providing faculty, students, and academic administrators with physical, technological, and human resources in support of teaching and research. For budget accountability purposes, the shared services are organized into 11 portfolios:

Occupancy costs, including utilities, maintenance and caretaking, and deferred maintenance make up the single largest university-wide cost category. A few key features of these cost projections include:

- Utility costs are projected to increase by approximately 4% in 2017-18. Hydro costs, which represent the single largest component of the utilities budget, are expected to increase by 17%. Water costs are expected to increase by 9%, while gas and oil costs are expected to decrease by 14% and 36%, respectively. All three campuses continue to invest in energy reduction programs to mitigate the impact of rising utility costs;
- As new space comes on line in outer years, utility and caretaking costs are projected to increase. Under the University's budget model, academic divisions are responsible for covering the operating costs of their space;
- The operating budget sets aside approximately \$17 million annually (growing to about \$20 million in 4 years) for deferred maintenance at St. George and additional funds at UTM and UTSC. Additional resources are available to address deferred maintenance through the provincial Facilities Renewal Program (FRP) program;
- The Academic and Campus Events (ACE) office manages 300 classrooms; while some classrooms have been rejuvenated and transformed, over 200 instructional spaces remain in relatively poor condition and do not reflect the diversity of learner needs. Investments are planned over the five-year planning cycle to upgrade and revitalize the classrooms. The cost is estimated at \$12 million. Funds will be provided from a combination of rental income and \$1.5 million per year from the operating budget; feedback from users and academic division stakeholders will continually inform the plan as it rolls out;

The central library cost bin is the second largest university-wide cost, including budgets for many centrally funded libraries. The budget includes the cost of collections, space and administrative and librarian services associated with the central library system. Additional funding is proposed for 2017-18 aligned with the library's strategic plan. Proposals for funding include:

- An increase of 5.3% on the cost of electronic acquisitions plus \$250k base budget dedicated to distinct collections;
- Expansion of librarian capacity in areas such as bibliometrics, records management and accessibility;
- Expansion of the TALint student mentorship program;
- Upgrade of graduate student carrels (phase 2 of 2)

Following are a few of the key priorities for other shared services for which new funding is proposed in 2017-18:

- a) Additional funds are proposed in the Research and Innovation portfolio to provide staff in support of inventions and commercialization, license and disclosure and research oversight and compliance;
- b) Additional funds are proposed for the Provost's portfolio for financial aid and admissions counsellors;

- c) Additional funds are proposed to strengthen staffing in the Human Resources portfolio in the areas of immigration, labor relations, diversity and communications;
- d) In the area of IT services continued investments are planned for the next instalment on the multi-year new student system (NGSIS), network infrastructure upgrades, expansion of the wireless network (last of six planned upgrades), and data visualization software;
- e) Funding will be provided over the next several years to support extension of the Boundless fundraising campaign to reach the \$2.4 billion goal. Funds will also be provided to support IT related initiatives;
- f) In 2015-16 the University created a new Communications portfolio. The first year of the new portfolio was funded on a one-time-only basis through existing resources from University Relations, Research and Innovation, and Advancement. In 2017-18 new resources will be allocated to enhance the capacity of the new portfolio and to fund the marketing plan;
- g) Several inter-portfolio initiatives will be funded in 2017-18 including staffing to implement the new policy on Sexual Violence, production of the UofT Magazine, and staffing to mitigate risk related to environmental health and safety.

The Federated Block Grant reimburses the Federated Universities for the provision of registrarial and library services, and the cost of space. These payments are calculated based on a methodology outlined in the Memorandum of Agreement, which includes a year-end adjustment for the actual cost of utilities. The Memorandum has expired and a new agreement is under discussion; the budget assumes the terms of the old Memorandum will continue.

#### **UTM and UTSC Campus Costs**

The University of Toronto Mississauga and University of Toronto Scarborough function both as campuses and as academic divisions. These costs include expenses for the offices of the Principals, occupancy costs (utilities, caretaking, grounds, etc.) and Student Life services on campus, defined in a manner parallel to the costs required to administer St. George at the campus level.

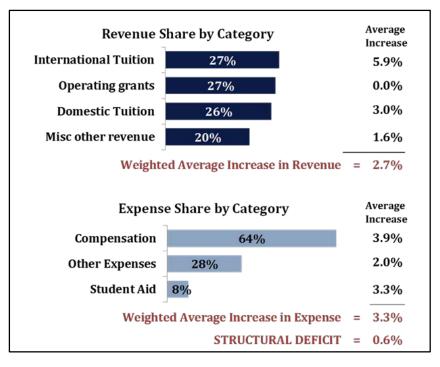

#### Flow-through revenue to other institutions

Several university programs include joint activities with other institutions, which aligns with our SMA objective of improving collaboration, pathways and student mobility. This expense category captures those portions of university revenue that flow to collaborating institutions. It includes:

- Canada Research Chair revenue flowing to hospitals;
- Provincial grant revenue flowing to the Toronto School of Theology; and
- Grant and tuition revenue flowing to the Michener Institute and Sheridan and Centennial Colleges with which the University offers joint programs.

## **The Structural Budget Challenge**

Like many publicly funded research intensive universities, the University of Toronto is facing a potential structural budget challenge with expenses rising faster than revenue. The weighted average rate of revenue growth is projected to be 2.7% when enrolment levels and enrolment mix reach the long term goals, often referred to as "steady state." In other words, when the University reaches its domestic and international, graduate and undergraduate enrolment targets, and is no longer relying on growth in student numbers, it is expected that revenues will increase at about 2.7% per year. Contrasted against this, is the anticipated "steady state" weighted average rate of growth on the expense side of the budget is approximately 3.3%. This leaves a notional structural budget annual gap of 0.6% at steady state. Last year's budget report estimated the structural deficit at 1.0%. The reduction this year is due to the lower cost of recent compensation increase agreements with faculty and staff, dropping the average increase from 4.4% to 3.9%. It is important to note that the compensation increase number of 3.9% is an average of all employee group agreements over the last five years; it is not a projection for the future. (The 4.4% figure is an average of the previous five years; the calculation is done on a rolling basis.) As compensation is the single largest expense in the operating budget, this decrease has a substantial impact.

#### Figure 2: Structural Budget Challenge at the University of Toronto

The University is actively pursuing strategies that align with our academic mission that will enable us to close this gap. On the revenue side we are exploring opportunities to diversify revenue sources through innovative new undergraduate and graduate programs, development of real estate assets, building the endowment and increasing expendable gifts through extension of the Boundless campaign, advocacy

with the federal government to increase the indirect costs of research rate to at least 40%, and negotiation with the provincial government under the differentiation framework. On the expense side the single largest cost is compensation for faculty and staff. Containing annual increases of salaries and benefits to no more than the rate of revenue growth would be one of the most powerful strategies we could pursue. And finally, we are continually implementing prudent financial controls and seeking operational efficiencies through programs such as the data centre integration, implementation of innovative teaching and administrative technology, classroom usage optimization, and many other initiatives.

#### **Inter-fund Transfers**

Within the approved budget process, the Provost has discretion to make allocations from operating funds in support of academic initiatives. In the last few years, and more recently with the launch of the Boundless Campaign, the University has sought external donations to enhance academic initiatives by establishing matching programs to create endowments and other trust funds. To meet these commitments some divisions have earmarked operating funds within their budgeting process. Others have sought to use operating funds to established or augment endowments as the most effective way to implement an initiative. An example of this includes the College ONE program in which \$500k was allocated to each of the associated colleges in support of programs for first year students in residence. Many colleges chose to endow this funding and/or use it as matching leverage for donations to their ONE program, to ensure the financial sustainability of the program. In keeping with the Policy on Inter-fund Transfers, decisions for the commitment of operating funds for restricted fund purposes do not need further approval when they are approved within the budget process. To balance the integrity of operating funds with divisional plans, the Provost is authorized to transfer operating funds to restricted and other funds up to \$2 million per instance, based on requests from the budget authority for those sources.

#### Long Range Budget Guidelines Projection of Operating Revenue and Expenses (\$ millions) 2017-18 to 2021-22

| Projection of Operating Revenues            | 2016-17           | 2017-18           | 2018-19           | 2019-20           | 2020-21           | 2021-22           |
|---|-------------------|-------------------|-------------------|-------------------|-------------------|-------------------|
| Student Fees                                | \$1,368.1         | \$ 1,508.0        | \$ 1,615.6        | \$ 1,711.4        | \$ 1,815.6        | \$ 1,919.3        |
| Prov. Gov't Grants for General Operations   | 660.4             | 656.9             | 663.6             | 665.4             | 671.0             | 673.7             |
| Subtotal - Grants and Student Fees          | 2,028.4           | 2,164.9           | 2,279.2           | 2,376.8           | 2,486.6           | 2,593.0           |
| Investment Income - Endowments              | 59.0              | 60.7              | 61.9              | 62.9              | 63.7              | 64.8              |
| Investment Income - Other                   | 30.4              | 36.2              | 43.4              | 48.1              | 54.9              | 66.6              |
| Sales, Services & Sundry Income             | 116.4             | 122.2             | 125.7             | 131.1             | 135.3             | 139.2             |
| Subtotal - Operating Revenue                | 2,234.2           | 2,384.0           | 2,510.2           | 2,618.9           | 2,740.5           | 2,863.6           |
| Recovery from Canada Research Chair Grants  | 37.5              | 37.7              | 35.8              | 35.8              | 35.8              | 35.8              |
| Recovery of Institutional Costs of Research | 46.1              | 51.0              | 51.4              | 52.0              | 50.6              | 49.9              |
| Total - Operating Revenue & Recoveries      | <u>\$ 2,317.8</u> | <u>\$ 2,472.6</u> | <u>\$ 2,597.3</u> | <u>\$ 2,706.6</u> | <u>\$ 2,826.9</u> | <u>\$ 2,949.2</u> |

| Projection of Operating Expenses           | 2016-17           | 2017-18           | 2018-19           | 2019-20           | 2020-21           | 2021-22           |
|--|-------------------|-------------------|-------------------|-------------------|-------------------|-------------------|
| Shared Services Costs                      | 424.7             | 444.3             | 465.1             | 481.5             | 500.0             | 516.5             |
| Pension Deficit Funding                    | 102.3             | 107.2             | 112.2             | 117.2             | 122.2             | 127.2             |
| Sub-total, Net Expenses in Cost Bins       | 527.0             | 551.5             | 577.3             | 598.7             | 622.2             | 643.7             |
| U-W costs offset by shared services income | 114.3             | 119.9             | 123.5             | 127.2             | 131.0             | 134.9             |
| UTM and UTSC Campus Costs                  | 80.8              | 90.7              | 95.2              | 100.0             | 105.0             | 110.2             |
| Sub-total, University-Wide Costs           | 722.1             | 762.1             | 796.0             | 825.8             | 858.1             | 888.9             |
| Academic Expense Budgets (Excl St. Aid)    | 1,366.5           | 1,472.8           | 1,562.1           | 1,635.2           | 1,713.0           | 1,796.9           |
| Student Aid Expenditures                   | 190.7             | 200.0             | 204.1             | 211.8             | 220.4             | 227.6             |
| University Fund (unallocated portion)      | 14.2              | 12.8              | 11.6              | 9.9               | 11.2              | 11.2              |
| Flow-through to Other Institutions         | 24.3              | 24.9              | 23.5              | 23.8              | 24.2              | 24.6              |
| Total - Operating Expenses                 | <u>\$ 2,317.8</u> | <u>\$ 2,472.6</u> | <u>\$ 2,597.3</u> | <u>\$ 2,706.6</u> | <u>\$ 2,826.9</u> | <u>\$ 2,949.2</u> |

Appendix A Schedule 1

#### Long Range Budget Guidelines Details of Operating Grants and Student Fees (\$ millions) 2017-18 to 2021-22

|  | l       |         |         |         |         |         |
|--|---------|---------|---------|---------|---------|---------|
| Prov. Gov't. Grants for General Operations   | 2016-17 | 2017-18 | 2018-19 | 2019-20 | 2020-21 | 2021-22 |
| Base Operating Grants                        | 514.1   | 514.1   | 514.1   | 514.1   | 514.1   | 514.1   |
| Undergraduate Enrolment Growth               | 28.0    | 25.2    | 27.9    | 28.1    | 32.0    | 33.0    |
| Graduate Enrolment Growth                    | 29.9    | 29.8    | 34.2    | 36.0    | 38.0    | 40.2    |

Notes:

1. Attributed revenue net of recoveries from restricted funds and divisional income

## Budget 2017

#### University of Toronto Scarborough Campus Affairs Committee

March 22, 2017

# Agenda

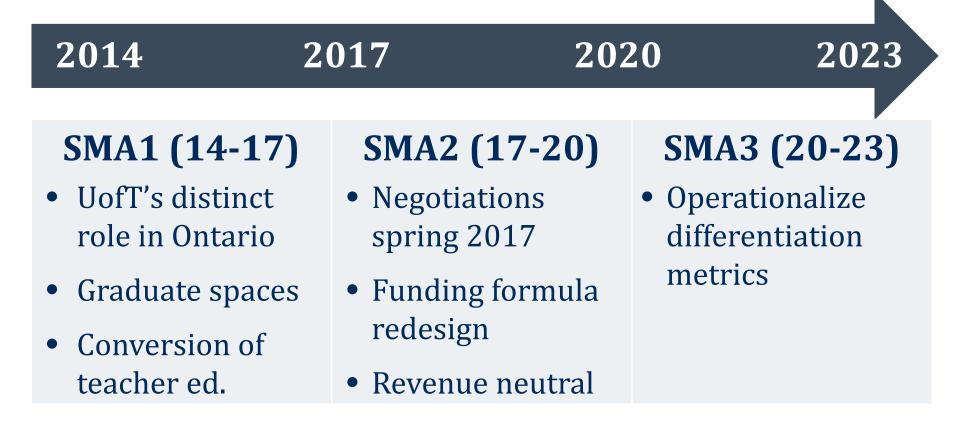

| 1) Context             | 4) Funding Sources |  |  |
|------------------------|--------------------|--|--|
| 2) Students & Teaching | 5) Student Aid     |  |  |
| 3) Faculty, Staff, UWC | 6) UF              |  |  |
|                        |                    |  |  |

7) Opportunities & Risks

## Strategic Mandate Agreements

Basis for Ontario's differentiation policy

# Provincial Funding Formula Review (anticipated funding envelopes)

#### **Core Operating Grant**

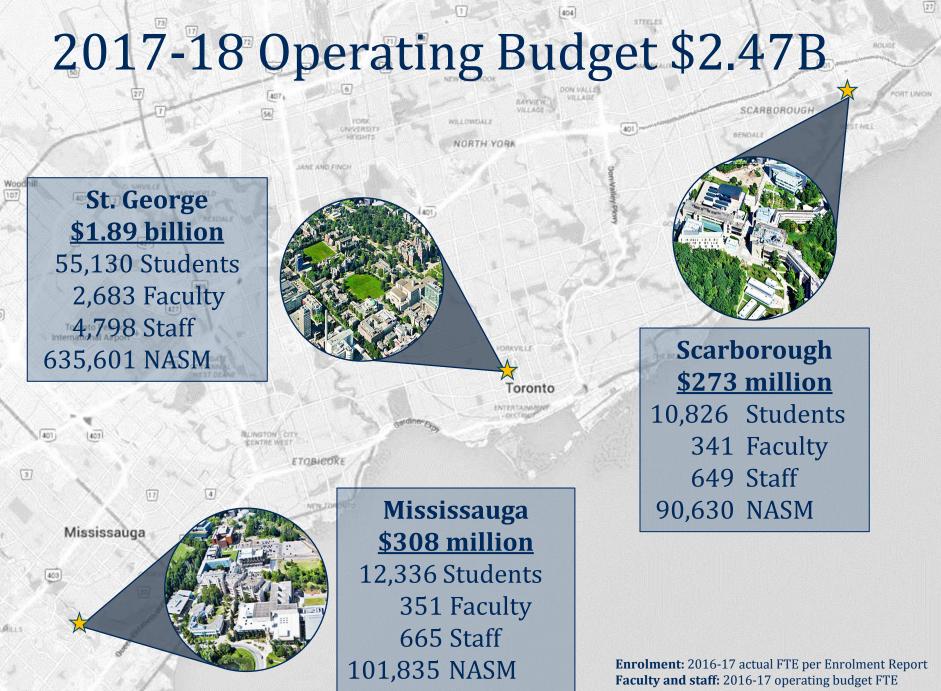

(Enrolment Based)

Differentiation Envelope

(linked to SMA metrics) Special Purpose Grants

Revenue neutral change through SMA2 with negotiated growth targets.

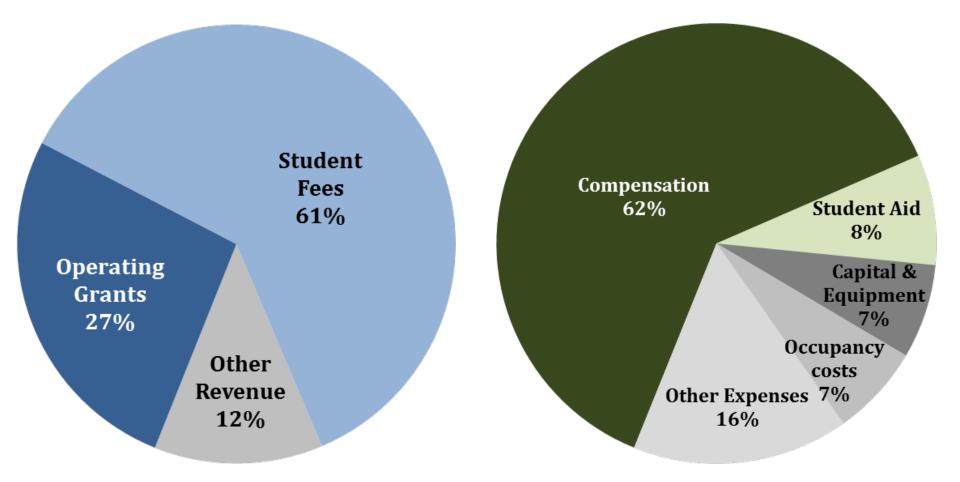

Potential for funding changes to the Differentiation Envelope in SMA3.

403

**Space (NASM):** as of Sept.2015 per Facts & Figures

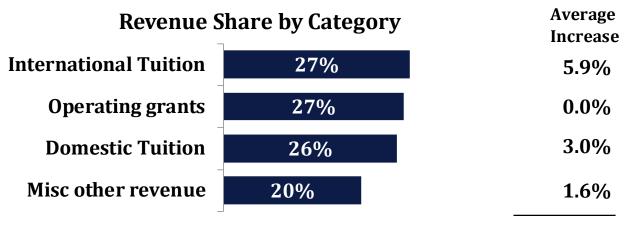

#### Balanced Budget for 2017-18 - \$2.47 billion

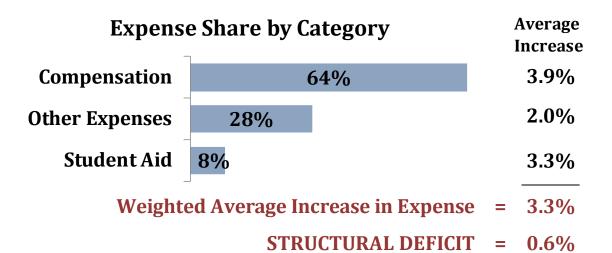

## Incremental Expenses \$155m

|                        | \$155m - | <b>\$155m</b>                                    |  |  |
|------------------------|----------|--|--|--|

\* As per self-declared code in student system

## Faculty, Staff and University-wide Costs

## 2017-18 Compensation Budget \$1.54B (Est.)

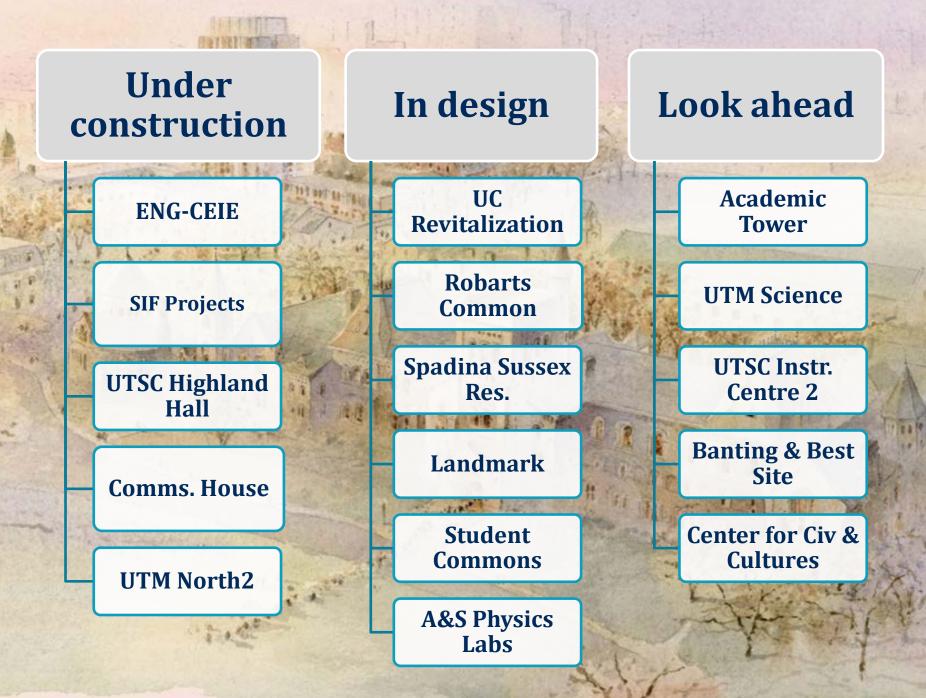

2016-17 Budget \$1.48B + Budget Increase \$62M

### Preliminary Faculty and Staff Hiring Plans at UTSC

|         | Faculty &<br>Librarians | Staff |
|---------|-------------------------|-------|
| 2016-17 | 365                     | 523   |
| 2017-18 | +11                     | +11   |
| 2018-19 | +13                     | +10   |
| 2019-20 | +11                     | +10   |
| 2020-21 | +10                     | +10   |
| 2021-22 | +8                      | +10   |

## Pension special payments and other related costs

|         |   | Incremental<br>Annual \$m | Total Annual<br>\$m |
|---------|---|---------------------------|---------------------|
| 2016-17 |   | 5                         | 102                 |
| 2017-18 |   | 5                         | 107                 |
| 2018-19 | ] | 5                         | 112                 |
| 2019-20 |   | ceholders 5               | 117                 |
| 2020-21 |   | 5                         | 122                 |
| 2021-22 | ] | 5                         | 127                 |

#### **Operating budget support of capital projects (\$m)**

|  | 14-15 | 15-16 | 16-17<br>est. | 17-18<br>est. |
|--|-------|-------|---------------|---------------|
| Payments on<br>loans &<br>mortgages      | \$32  | \$33  | \$35          | \$37          |
| Transfer from<br>operating to<br>capital | \$128 | \$24  | \$67          | \$101         |
| Total                                    | \$160 | \$57  | \$102         | \$138         |

A guiding principle is that capital projects in academic divisions should include funding from long term debt of no more than 20%.

## What makes up university-wide costs?

#### 2017-18 University Wide Costs: \$552 million

Portfolio Operations \$284 million (51%) Non-discretionary \$120 million

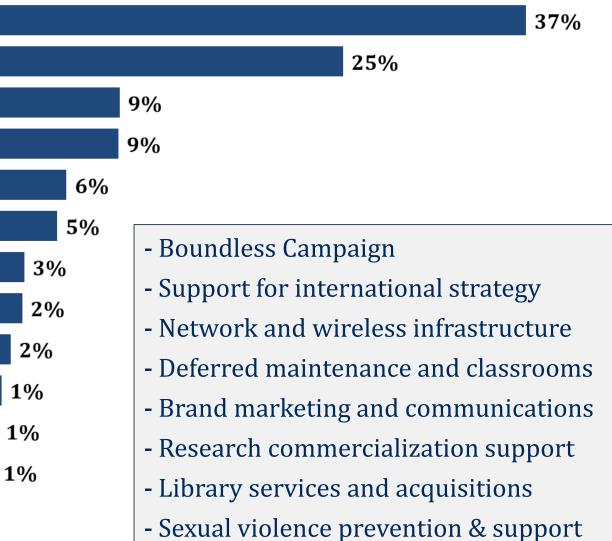

Pension Special Payment \$107 million

Acad & Admin Initiative Funds \$41m

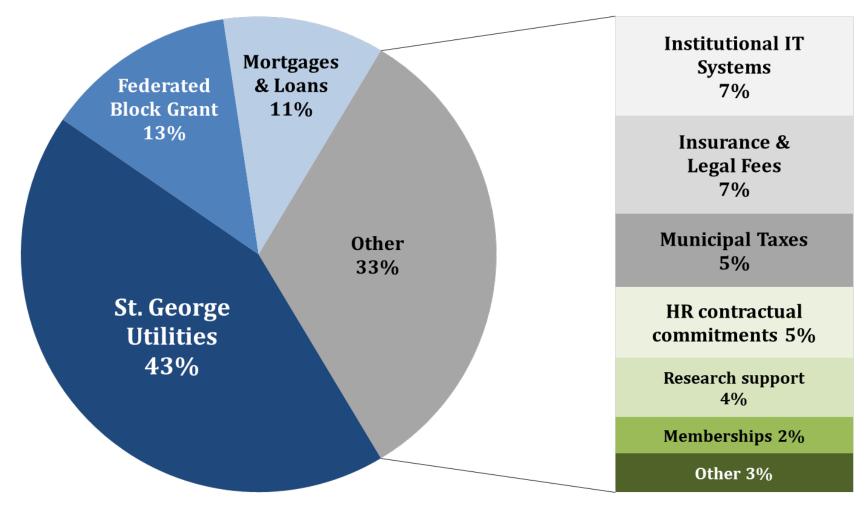

UTM/UTSC spend an additional \$91m on campus service costs

## Shared Service Portfolio Operations (\$284m)

**University Operations UofT Libraries University Advancement Provost's Division** Human Resources & Equity **Research & Innovation** Finance Communications **Governing Council President's Office** International **Government Relations** 

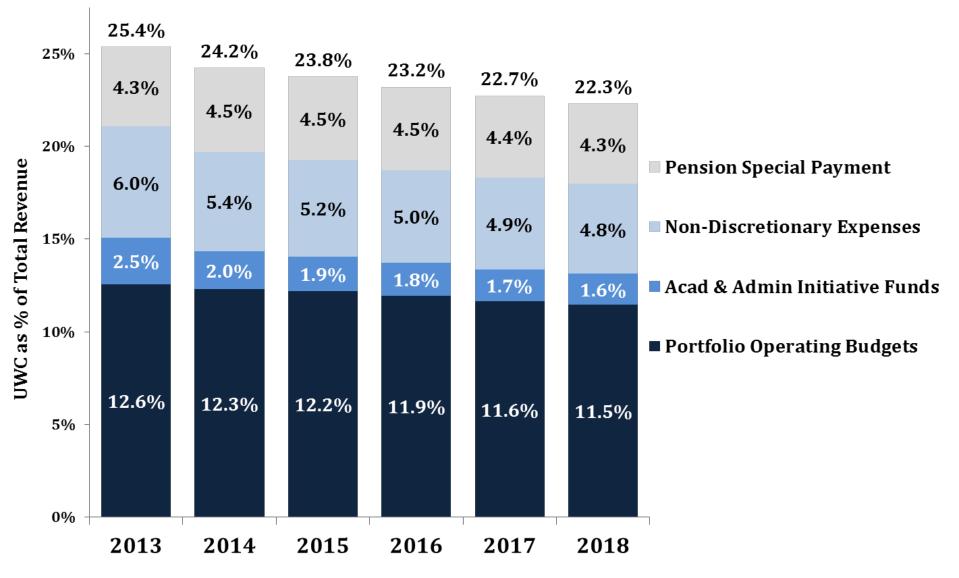

## Non-discretionary Expenses (\$120m)

\*Excludes UTM and UTSC utilities, which are reported separately as campus service costs.

### University-wide costs as % of Revenue

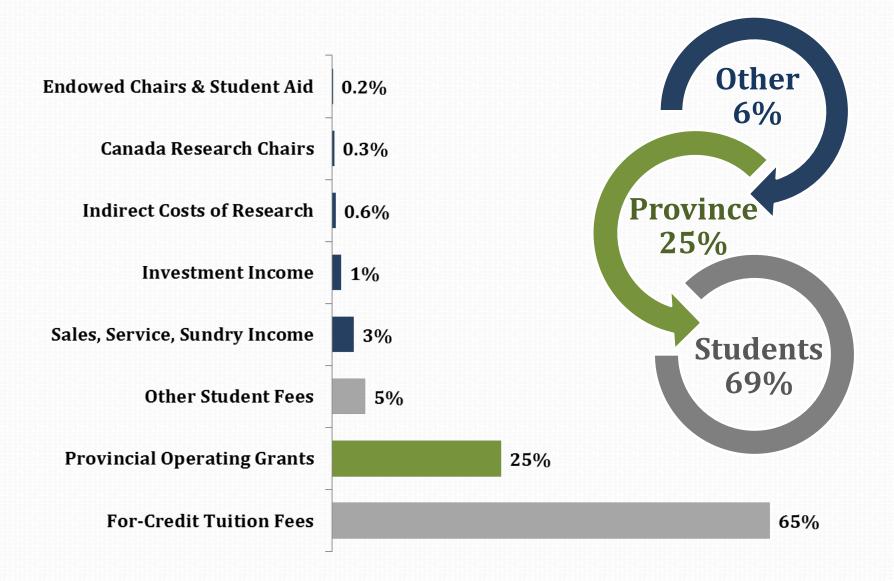

\*Restated to report academic and administrative initiative funds in a single category

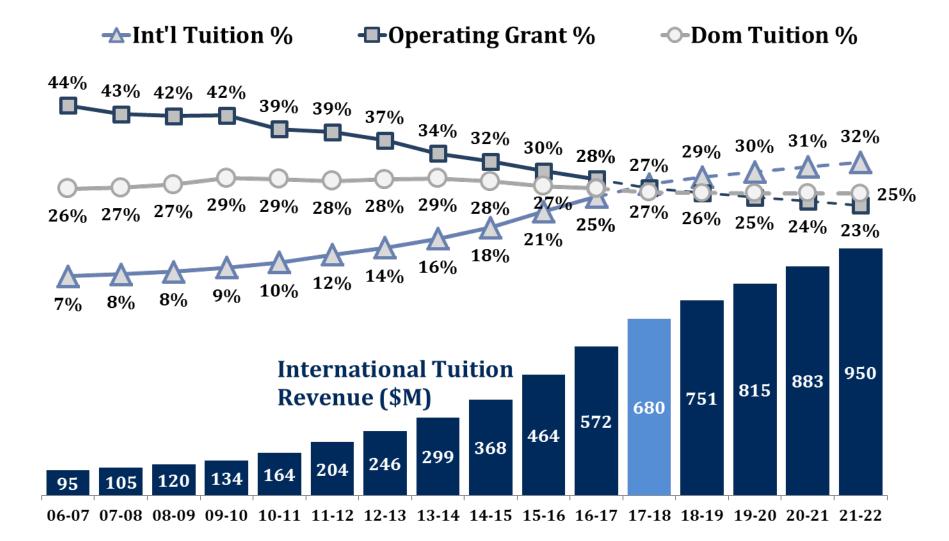

### **Funding Sources**

### UTSC 2017-18 sources of revenue (\$288m)

# The changing revenue landscape (excludes divisional income)

# Provincial Tuition fee framework extended 2017-18 and 2018-19

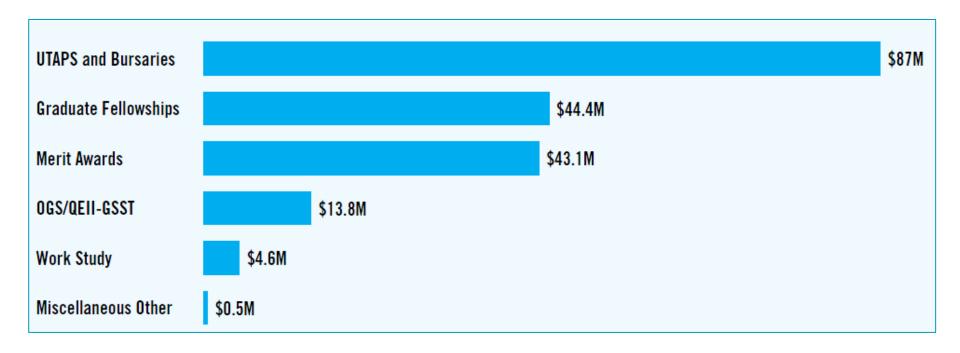

| (Domestic overall cap = 3%)  | Incoming<br>Students | Continuing<br>Students |
|------------------------------|----------------------|------------------------|
| Domestic General UG          | 3%                   | 3%                     |
| Domestic Prof and Graduate * | 5%                   | 5%                     |

\* Domestic tuition fee for doctoral stream will decrease by \$70

### Student Aid

# **STUDENT AID EXPENSES** \$193 million in 2015-16

### **STUDENT ACCESS GUARANTEE** \$65.8 million in 2015-16

The chart shows the University of Toronto's 2015-16 SAG expenditures. Expenditures totalled \$65.8M. Of that amount, \$35.5M was required to be paid as per SAG requirements. The remaining \$30.3M includes discretionary expenditures for students in second-entry programs and for the difference between actual living costs and living costs recognized in the OSAP need assessment for students in direct and second-entry programs.

Source: Ministry of Advanced Education and Training

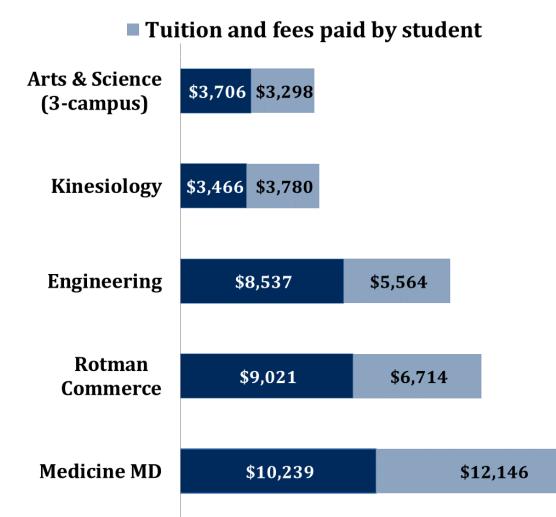

Second entry discretionary programs Direct discretionary programs

Required (direct and second entry)

#### \$70 \$60 \$30.2M 20.4 \$50 SPENT BEYOND REQUIRED \$40 \$ Millions 9.9 \$30 \$20 35.5 \$10 \$-

### Net tuition for UG students receiving OSAP 2014-15

#### Tuition and fees funded by U of T and Province

# Changes to Ontario Financial Aid

- Redesign of financial aid system (OSAP) will be good for students:
  - reduced complexity,
  - increased transparency
  - earlier decisions on available financial aid
- 2017-18→ consolidation of many provincial aid programs into one
- 2018-19→introduction of net-tuition billing for students in "direct-entry" programs

### University Fund

### 2017-18 UF \$18m: Advancing our Priorities

Undergraduate & International Experience TOTAL: \$3.8 million

Int'l Recruitment & Student Mobility (Support Staff) \$1.5m base

> Wellness Counsellors \$1.3m base

Undergraduate Research, WIL, Experiential Learning, Career Development \$1m OTO/year for 3 years Diversity and TRC-Related Supports TOTAL: \$4.95 million

TRC Response-Related Faculty and Staff Hires \$2.5m base

> TYP Director \$200k base

Indigenous Space Matching \$1.5m OTO

Expansion of Academic Diversity Hires Program \$750k OTO/year for 3 years

### 2017-18 UF \$18m: Advancing our Priorities

Cities Initiatives TOTAL: \$2.5 million Structural Budget & Infrastructure TOTAL: \$7.1 million

Support for cities research initiatives \$1.5m base

St. George performance space renewal \$1m OTO Structural budget reserve \$3.5m base

> ARCnet \$1.6m base

Capital matching \$2.0m OTO

#### 2017-18 UF Allocations to UTSC

#### **Undergraduate & International Experience**

(2) Int'l Recruitment & Student Mobility Support Staff \$200k base

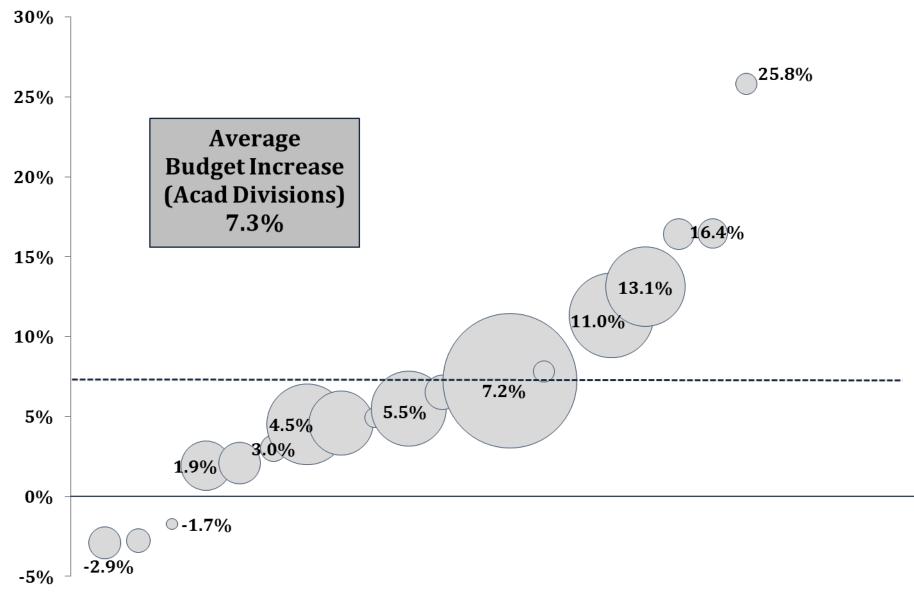

(1.5) Wellness Counsellors \$195k base

### **Budget Summary - Opportunities and Risks**

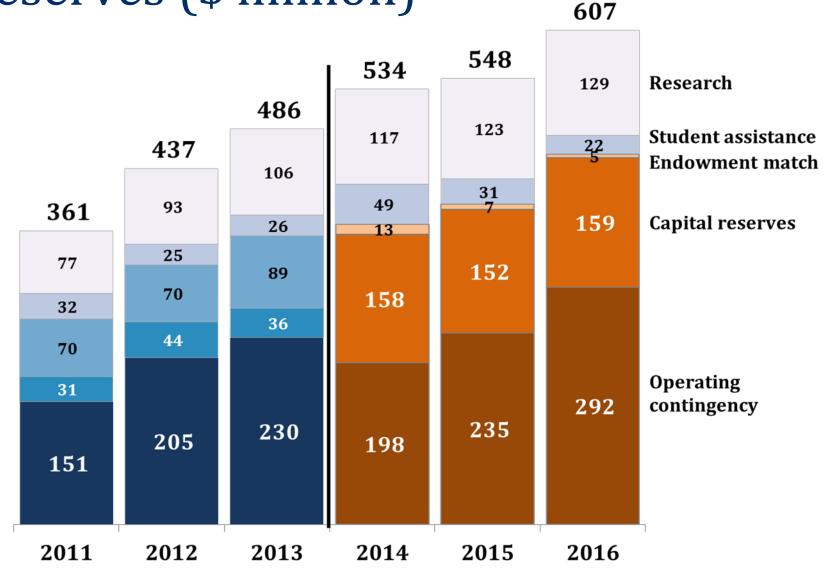

### Variation in Growth of Divisional Expense Budgets

(i.e. Revenue less University-wide Costs and Student Aid)

## Reserves (\$ million)

### Key metrics are strong
