**DATE:** March 14, 2023 for March 21, 2023

**AGENDA ITEM:** 3 (a) ii

**ITEM IDENTIFICATION:**

*Tuition Fee Schedules for Publicly-funded Programs 2023-24*

**JURISDICTIONAL INFORMATION:**

Pursuant to Section 5.11 (a) the Business Board recommends the schedule of tuition fees to Governing Council for approval.

**GOVERNANCE PATH:**

1. Business Board [for recommendation] (March 15, 2023)
2. **Executive Committee [for endorsement and forwarding] (March 21, 2023)**
3. Governing Council [for approval] (March 30, 2023)

**PREVIOUS ACTION TAKEN:**

The *Tuition Fee Schedules for Publicly-funded Programs 2022-23* was approved by the Governing Council at its March 31, 2022 meeting.

**HIGHLIGHTS:**

Tuition revenue in publicly-funded programs of \$2.05 billion for 2023-24 represents approximately 61% of the University’s total budgeted operating revenue of \$3.36 billion. With the continued freeze in base operating grant revenue from the Provincial Government for 2023-24, new tuition revenues are critically necessary to maintain and fund investments in programs and services for students across academic and shared service divisions.

Tuition fees at the University of Toronto are determined in accordance with the University's *Tuition Fee Policy*, the *Statement of Commitment Regarding International Students* and the Provincial Government's Tuition Framework. The *Tuition Fee Policy* speaks to five elements: advocacy, fee revenue, fee differentiation, fee level commitment and monitoring. In presenting this tuition schedule, the University reaffirms its commitment to student aid for domestic students and its accessibility statement. A full overview of financial assistance available to students is included in the 2021-22 *Annual report on Student Financial Support*, which accompanies these schedules through governance.

Note that the tuition fees in these schedules are limited to for-credit publicly-funded programs. Fees for non-credit continuing education or life-long learning programs are established locally within the relevant divisions and the School of Continuing Studies and are not discussed in these schedules.

### **Domestic Tuition Fees**

On January 17, 2019, the Ontario government announced a 10% cut to domestic tuition fees beginning in 2019-20, and a freeze at that level for 2020-21. The freeze was subsequently extended for two additional years to 2022-23.

On March 2, 2023 the Provincial Government announced the extension of the general freeze on domestic tuition fees for Ontario residents for another year. The cumulative impact of the 10% cut in 2019-20 and four-year freeze is a \$195 million reduction in annual operating revenue to the University in 2023-24 compared to the framework in place before 2019-20. Our domestic fees continue to be lower than they were in 2018-19 and, after inflation, tuition for Arts & Science programs is lower than it was in 1999.

Continuation of the freeze has a differential impact on each division, depending on program mix and divisional revenue sources and will require a careful review of divisional priorities. There will be fewer resources to cover inflation on expenses meaning that many priorities may need to be deferred or scaled back and, in some cases, budgets may need to be reduced.

While the budget plan assumes a freeze to domestic Ontario resident tuition fees for next year, there is a small chance that the Government could announce, at a later date, an interim framework that may allow some flexibility on domestic tuition for 2023-24. If this is the case, the University must be prepared to respond given the pressures on expenses. To prepare for this possibility, the University is taking the unusual step of proposing a second domestic tuition fee schedule (Schedule 2) that includes a 3% increase to domestic Ontario resident tuition fees. If the Government's 2023-24 Framework allows, this second schedule would be implemented and the additional revenue allocated across divisions according to the University's budget model as an in-year variance to the original budget. A 3% framework would provide about \$15 million in additional revenue to help meet inflationary pressures.

**Schedule 1: Domestic tuition fees for Ontario resident students frozen at the same level as in 2022-23. This is the fee schedule underlying the 2023-24 Budget Plan.**

**Schedule 2: 3% increase to domestic tuition fees for Ontario residents. This Schedule will be implemented if the Government makes an announcement allowing increases for 2023-24, subject to any limits in the framework.**

**In both schedules, tuition fees for undergraduate Non-Ontario residents, as defined by the Government, will increase by 5 per cent in 2023-24, consistent with the Framework.**

## **International Tuition Fees**

International fees are set at a level that takes into consideration the full cost of providing a program and with reference to fees at peer Canadian and US universities.

Overall, undergraduate international tuition fees will increase by an average of 2.1% and graduate international tuition fees will increase by an average of 3.5%, excluding international PhD students paying domestic rates, and 2.1% when international PhD fees are included. In order to provide potential applicants with information for planning purposes, the attached schedules also include currently planned tuition fees for international students for 2024-25 **for information only**.

International tuition fees for students entering and continuing in the tri-campus Arts & Science and Architecture programs will increase by 2% in 2023-24. Tuition for Applied Science & Engineering degree programs will increase by 3% for new and continuing students. Most other international fees will increase by 5%, consistent with the assumptions in last year's plan and reflecting their lower fee levels. The international fee for the Medicine MD program will remain at its current level in 2023-24 to be competitive with top American peers. International fees for all of the conjoint programs with the Toronto School of Theology will increase by 5% for 2023-24.

As is the case with domestic tuition fees, international tuition fees for the second and upper years of the Commerce, Business Administration, Management, Computer Science, Bioinformatics, Data Science, UTM Visual Studies, and Communication, Culture and Information Technology (CCIT) programs are differentiated from the first year general arts & science fee. These fees will increase by 2% in 2023-24.

As of 2018-19, most international PhD students at the University of Toronto pay tuition fees equivalent to those of domestic students and the fees will continue to be aligned for 2023-24.

International tuition fee increases in research-stream master's, professional master's, and professional doctoral programs vary by program, but primarily range from 0% to 5%, with higher increases in entering fees for the MSc Applied Computing (8.5%) and MSW (6%). Fee increases consider the resource requirements of the programs and the level of the tuition fee relative to competing programs. Fee increases for continuing students are limited to a maximum of 5% under the University's policy.

## **FINANCIAL IMPLICATIONS:**

Revenue projections for publicly-funded programs are included in the *Budget Report 2023-24 and Long Range Budget Guidelines 2023-24 to 2027-28*. Related information on student aid accompanies this report in the *Annual Report on Student Financial Support, 2021-22*.

**RECOMMENDATION:**

Be It Resolved

THAT the following recommendations be endorsed and forwarded to the Governing Council

THAT

- (a.) the 2023-24 tuition fees as described in Schedule 1 of the Tuition Fee Schedule for Publicly-Funded Programs 2023-24, be approved;
- (b.) the 2023-24 tuition fees as described in Schedule 2 of the Tuition Fee Schedule for Publicly-Funded Programs 2023-24, be approved;

AND

(c.) subject to the provisions in the Provincial Government’s Tuition Fee Framework, either Schedule 1 or Schedule 2 of the Tuition Fee Schedule for Publicly-Funded Programs 2023-24 be implemented.

**DOCUMENTATION PROVIDED:**

- *Tuition Fee Schedule for Publicly-Funded Programs for 2023-24 – Schedule 1*
- *Tuition Fee Schedule for Publicly-Funded Programs for 2023-24 – Schedule 2*

# Tuition Fee Schedules for Publicly-Funded Programs 2023-24

Appendices B-E with Domestic Ontario Resident Freeze	
2023-24 Tuition Fee Schedule 2	55
Appendices B-E with 3% for Domestic Ontario Residents	

# Tuition Planning and Context

The following report provides the proposed tuition fees for for-credit degree, diploma, and certificate programs at the University of Toronto for 2023-24. An overview of the policy frameworks and context for fee setting is included along with detailed schedules of the fees in the appendices. Note that the tuition fees in this report are limited to for-credit programs. Fees for non-credit continuing education or life-long learning programs are established locally within the relevant divisions and the School of Continuing Studies and are not discussed in this report.

Tuition fees at the University of Toronto are determined in accordance with the University's Tuition Fee Policy, the Statement of Commitment Regarding International Students, and the Provincial Government's Tuition Framework.

## The Provincial Framework for Domestic Tuition Fees

Changes to domestic tuition fees in publicly funded programs at Ontario colleges and universities are subject to frameworks mandated by the Provincial Government. Under these frameworks, the Government sets limits on increases to fees (and in some cases, requires reductions or freezes) and retains the option to reduce operating grant funding to institutions that contravene the framework. The frameworks only apply to tuition for students for which the Government provides operating grant funding so do not apply to majority of international students, non-publicly funded programs such as the Executive MBA, and continuing education programs.

On January 17, 2019, the Ontario government announced a 10% cut to domestic tuition fees beginning in 2019-20, and a freeze at that level for 2020-21. The freeze was subsequently extended for two additional years. Tuition paid by international students was unaffected.

On March 2, 2023, the Provincial Government announced the extension of the general freeze on domestic tuition fees for Ontario residents for another year to 2023-24.

The cumulative impact of the 10% cut in 2019-20 and the four-year freeze is a \$195 million reduction in annual operating revenue to the University in 2023-24 compared to the Framework in place before 2019-20. Our domestic fees continue to be lower than they were in 2018-19 and after inflation, our fee for Arts & Science programs is lower than it was in 1999.

In 2021-22, the Government introduced a new policy allowing for differentiated fees for Out of Province domestic students. Given the lateness of the announcement of the fee framework, coming at the start of the Summer 2021 session, the University opted to not implement differentiated fees for 2021-22. However, the University proceeded with establishing differential fees for non-Ontario resident domestic students in 2022-23, with a 3% increase to fees for all undergraduate programs while fees for domestic Ontario residents remained frozen under the Framework. For 2023-24, the University will increase non-Ontario resident domestic fees in undergraduate programs by 5%, consistent with the Framework.

### Second Tuition Fee Schedule:

While the budget plan assumes a freeze to domestic Ontario resident tuition fees for next year, there is a small possibility that the Government could announce, at a later date, an interim framework that may allow some flexibility on domestic tuition for 2023-24. Given the constraints that a continued freeze would put on budget resources to address pressures on expenses, the University must be able to use any flexibility provided. **To position us to respond to a late announcement, the University is taking the unusual step of proposing a second tuition fee schedule that assumes a 3% increase to Ontario resident domestic tuition fees.**

If the Government does make a late announcement allowing flexibility, this Schedule of tuition fees would be implemented in 2023-24, subject to any limits in the framework. A 3% increase to domestic Ontario resident fees would increase revenue to the University by approximately \$15 million, which would be allocated across divisions through the University's budget model to help meet inflationary pressures.

## Tuition Revenue

---

The proposed budget for 2023-24 includes incremental, for-credit tuition fee revenue of \$73 million. This reflects the net impact of updated international and domestic enrolment plans, a continued freeze to Ontario resident domestic tuition fees, a 5% increase to non-Ontario resident undergraduate domestic fees, and a 2.1% average increase in international tuition fees. With the continued freeze in per-student operating grant revenue for 2023-24, new tuition revenues are critically necessary to maintain and fund investments in programs and services for students across the University.

The University continues to monitor the impact of tuition fees to ensure that enrolment is unaffected, as required by the University's Tuition Fee Policy. Demand for University programs from both domestic and international students continues to be strong and undergraduate entering averages continue to be exceptional with more than 45% of the Fall 2022 incoming class having an entering average of 90% or more.

## Financial Aid

---

Undergraduate and graduate students at the University of Toronto have access to a wide range of financial supports through the University in addition to those available through government loan and grant programs like the Ontario Student Assistance Program (OSAP). Some are based on need, and others on measures of merit, such as academic achievement or leadership. There are supports for international and Canadian students as well as dedicated supports for students with disabilities.

The University of Toronto is independently committed to financial aid and is guided by the 1998 Governing Council Policy on Student Financial Support, which will continue to drive funding for need-based student aid for domestic students.

The policy sets out the principle that domestic students should have access to the resources that will enable them to meet their financial needs, as determined through the same methodology used by the Ontario Student Assistance Program (OSAP), with appropriate modifications as determined by the Vice-Provost, Strategic Enrolment Management and the University Registrar, in consultation with the academic divisions of the University. The Province's Student Access Guarantee (SAG) requires institutions to provide non-repayable aid to assist domestic, OSAP-eligible students in direct-entry undergraduate programs with expenses related to tuition, books and supplies not covered by OSAP. The University's commitment goes above and beyond these requirements and also provides aid for living expenses.

The University's primary mechanism for providing need-based aid to OSAP-eligible, direct-entry, domestic undergraduate students is the University of Toronto

Advance Planning for Students (UTAPS) program, which supported more than 15,500 students in 2021-22. Need-based aid for domestic students in second-entry and professional master's programs is administered in divisionally-run programs, allowing for a more individualized and nuanced approach to providing assistance. Divisional programs are supported where necessary by access to an institutionally negotiated line of credit.

In 2020-21, the largest direct entry undergraduate divisions introduced the new International Scholars program to attract and support top international students from around the world. Each division has designed its own award program based on diverse criteria including merit, financial need, priority regions for diversification, and intended program of study. This program is funded from a set aside of up to 6% of international undergraduate tuition revenue and has been phased in with an additional cohort added each year. The program will reach full implementation in 2023-24 with four cohorts in the program and a \$75 million total budget. The budget will grow with international revenue and is projected to reach \$89 million by 2027-28. This program is in addition to the Pearson Scholarships that award approximately 150 full-ride to exceptional international students. And the University is increasing need-based bursary support for international students to help them manage unforeseen financial pressures.

Additional information on the University's student aid programs and OSAP can be found in the 2021-22 Student Financial Aid Report.

## University of Toronto Fee Level Commitment

---

The University's Tuition Fee Policy (Appendix A) states that in establishing the tuition fee schedule, a commitment will be made to each student upon entry as to the level of fees to be charged over the normal course of the full-time program of study. Beginning in 1998-99, the University of Toronto made a commitment to students in its fee schedules that, unless otherwise noted, no student continuing in a program will be subject to a fee increase of more than 5% per year.

This commitment remains in effect regardless of the provincial tuition framework in place at any given point in time and applies for the normal length of each program, as posted on the University's website. For students in the doctoral stream, the commitment is in effect for two years at the Master's level and typically for four years at the doctoral level (with some exceptions for longer doctoral programs). For students who participate in Co-op or internship programs as part of their undergraduate program, the normal length of full-time study increases by one year. For undergraduate students entering the University via an International Foundation Program, the normal length of study also increases by one year.

# Tuition Fee Structures

## Program Fees and Course Fees

---

Full-time undergraduate student fees are levied in one of two ways: program fees or course fees. Under a program fee structure, students pay a single fee for study classified as full-time for fee purposes. Under a course fee structure, students pay a fee for each course in which they are registered. Most University of Toronto programs levy fees under the program fee model.

## Programs with higher fees in upper years

---

In some undergraduate programs, students are admitted after completing one or more years of study in arts and science courses. During the initial year(s), students pay general arts and science tuition; upon admission to the program, students pay a higher tuition fee in upper years. This structure reflects the move from a general program to an upper-year specialized program. These programs include: Commerce; Business Administration; Management; Computer Science; Bioinformatics; Data Science; UTM Visual Studies; Communication, Culture and Information Technology (CCIT); and the undergraduate program in Information.

Bachelor of Information (BI) students complete the equivalent of two years of full-time study at the undergraduate level in any discipline before transferring into the BI program. Once registered in the BI program, students pay the same tuition as Computer Science students.

## Programs with fees set at beginning of program (Cohort Fees)

---

There are a few programs in which tuition fees are normally set at the point of entry to the program and are held constant for students in the cohort as they progress through the program. These programs include the MD/PhD, the Morning & Evening MBA (3-year), the MEng (extended full-time option), the MFC (extended full-time option), the MHI Executive Stream, and the Global Professional Master of Laws (extended full-time option).

## Combined, Double Degree, and Dual Degree Program Fees

---

The University has an increasing number of combined degree program offerings and has begun to develop additional double degree and dual degree programs. Schedules B4, C4 & E5 provide detailed information on fees for these programs. The proposed fees by year of study for almost all cases are based on the fees for the constituent programs proposed in Schedules B1-B3, C1-C3, D & E4.

## Part-Time and Partial Fees

---

Some students at the University of Toronto are charged partial fees primarily based on the tuition fee for full-time

study. The following formulas guide the derivation of partial fees:

1. When computing a partial fee, the respective fee for full-time study is the tuition fee for either domestic or international students, depending on the legal status of the student.
2. Part-time fees for undergraduate programs are typically equal to the full-time fees pro-rated on a per-course basis relative to full-time course load, except in a couple of special cases.
  - The program fee for part-time domestic MD Extended Clerkship students is assessed on a per term basis, typically in the summer and fall terms. No international students are expected in this program.
  - Fees for the part-time domestic PharmD for Pharmacists program are assessed on per half course basis.
3. Part-time fees for graduate programs are normally set at 30% of the full-time annual fee with the following exceptions:
  - The Nursing Post-Masters Nurse Practitioner Diploma program is offered on a part-time basis only and fees are assessed on a program fee basis.
  - The part-time Medicine Graduate Diploma in Health Research is available to MD students and fees are assessed on a per term basis.
  - The UTM Master of Forensic Accounting is only offered on a part-time basis. The proposed part-time program fee rates for 2023-24 are listed in Schedules D & E4.
4. Because of the minimum costs incurred for registration in any program, no tuition fee in 2023-24, after refunds in the case of full withdrawal from the University, shall be less than \$320.

## Conjoint Programs with the Toronto School of Theology

---

In accordance with the Memorandum of Agreement between the University of Toronto and the Toronto School of Theology (TST), proposed tuition fees for conjoint undergraduate and graduate programs are forwarded to the Business Board for review and approval annually – these fees are included in the accompanying schedules.

Note that tuition fees for TST's non-conjoint programs are not included as these are not University of Toronto programs. Approval for these fees is through the TST Board of Trustees.

# 2023-24 Tuition Fees

## Tuition Fees for Domestic Students

The University's Tuition Fee Policy (Appendix A) states that public funding should be supplemented as necessary to offer students an educational experience of a quality that ranks with that of the finest public research universities in the world. Furthermore, it calls for a differentiated fee structure in which tuition fees reflect individual program goals, resource requirements, program costs, etc.

Tuition fees therefore differ by program. Appendix B (Domestic Ontario Resident) and Appendix C (Domestic Non-Ontario Resident) list the proposed tuition fees for domestic students, by program, and by entering cohort where relevant. For the purposes of this report, direct-entry undergraduate programs are programs of study into which a student may be admitted directly from high school (e.g., Engineering, Arts and Sciences, Architecture, Music and Kinesiology) plus the Transitional Year Program (TYP). Second-entry undergraduate programs are programs of study that require a student to have some university preparation before admission to the program (e.g., Law JD, Medicine MD, Dentistry DDS, PharmD and Nursing). Graduate fees are listed in Appendix D.

As noted earlier in this report, two tuition fee schedules are proposed that assume the following with respect to domestic fees:

- Schedule 1:** Domestic tuition fees for Ontario resident students frozen at the same level as in 2022-23. This is the fee schedule underlying the 2023-24 Budget Plan.
- Schedule 2:** 3% increase to domestic tuition fees for Ontario residents. This will be implemented if the Government makes a late announcement allowing flexibility in fees for 2023-24, subject to any limits in the framework.

**In both schedules, tuition fees for undergraduate Non-Ontario residents, as defined by the Government, will increase by 5 per cent in 2023-24, consistent with the framework, with the exception of conjoint programs with TST where domestic fees will continue to be undifferentiated by residency status.**

Undergraduate students entering first year in 2023-24 should note that tuition fees for upper year students in the Commerce, Business Administration, Management, Computer Science, Data Science, Information, Bioinformatics, Visual Studies, and Communication, Culture and Information Technology (CCIT) programs are provided separately in Schedules B2 and C2. Fees for the upper years of these programs in 2024-25 will be submitted to Governing Council for approval in Spring 2024 and will comply with the Provincial Tuition Framework in place at that time.

## Tuition Fees for International Students

The University of Toronto is committed to maintaining and strengthening its international enrolment as expressed in the Statement of Commitment Regarding International Students (Appendix A). The University continues to invest in services to enhance the experience and success of our international students and in scholarship programs to attract and support top students from across the world. The proposed international fees listed in Appendix E are set at a level that takes into consideration the full cost of providing a program and with reference to fees at peer Canadian and US universities.

The international tuition fees for students entering and continuing in the tri-campus Arts & Science and Architecture programs will increase by 2% in 2023-24. Tuition for Applied Science & Engineering degree programs will increase by 3% for new and continuing students. Most other international fees will increase by 5%, consistent with the assumptions in last year's plan and reflecting their lower fee levels. The international fee for the Medicine MD program will remain at its current level in 2023-24 to be competitive with top American peers. International fees for all of the conjoint programs with the Toronto School of Theology will increase by 5% for 2023-24. The weighted average undergraduate international tuition fee increase across all programs and years of study in 2023-24 will be 2.1%.

As is the case with domestic tuition fees, international tuition fees for the second and upper years of the Commerce, Business Administration, Management, Computer Science, Bioinformatics, Data Science, UTM Visual Studies, and Communication, Culture and Information Technology (CCIT) programs are differentiated from the first year general arts & science fee. These fees will increase by 2% in 2023-24.

As of 2018-19, most international PhD students at the University of Toronto pay tuition fees equivalent to those of domestic students and the fees will continue to be aligned for 2023-24. International tuition fee increases in research-stream master's, professional master's, and professional doctoral programs vary by program, but primarily range from 0% to 5%, with higher increases in entering fees for the MSc Applied Computing (8.5%) and MSW (6%). Fee increases consider the resource requirements of the programs and the level of the tuition fee relative to competing programs. In all cases, continuing fee increases are limited to a maximum of 5% under the University's policy.

In response to competitive pressures from peer programs, international fees for the Master of Biotechnology, Master of Management and Professional Accounting, Master of Accounting and Finance, Master of Forensic Accounting, Master of Management of Innovation, Master of Management in Urban Innovation, Master of Science in Sustainability Management, and the Master of Science in

Biomedical Communication programs will remain at their current levels for 2023-24.

The weighted average tuition fee increase for international graduate students, excluding international PhD students paying domestic rates, in 2023-24 is 3.5%. When international PhD programs are included, the average increase in international graduate fees is 2.1%.

Schedule E5 includes the international fees for students in combined, double degree or dual degree programs. Most combined programs do not currently have international students enrolled. In the event that they do in future, international tuition fees would be charged following the same practices as outlined in the domestic Schedule B4.

## Planned International Tuition Fees for Information Only

---

The University provides a supplemental schedule of currently planned fees for 2024-25 **for information only** to assist students considering applying to the University in the future. Note that these fees are subject to change when the University finalizes its plans next year.

For planning purposes, undergraduate arts & science fees are projected to increase by 2% in 2024-25 and 3% for undergraduate engineering programs, with variations in other programs to reflect competitive environments (lower rate of increase) or exceptional resource requirements (higher rate of increase).

# Appendix A: Policies

## The University's Tuition Fee Policy

---

The University of Toronto's tuition fee policy should reflect its mission as an internationally significant, public research university with undergraduate, graduate and professional programs of excellent quality. Such a goal assumes an appropriate level of funding which, for a public university, means principal support from the Provincial and Federal Governments, and from endowment funds as well as tuition fees. It also assumes the existence of programs of student aid to maintain the accessibility of the University to students of varying financial means. The effect of this policy should be neutral with regard to enrolment levels, which will be determined from time to time through the University's planning processes. Our tuition fee policy has five elements:

1. **Advocacy.** In making the case for public policies strongly supportive of an accessible public system of university education, the University will continue to advocate ongoing and substantial public investment in the university sector.
2. **Fee Revenue.** The University of Toronto will continue to be a public university, for which ongoing and substantial support from government will always be essential. The basic principle of the tuition policy is that public funding should be supplemented as can be demonstrated to be necessary to offer students an educational experience of a quality that ranks with that of the finest public research universities in the world.
3. **Fee Differentiation.** The University should continue to move toward a more differentiated structure of fees across programs. In setting fees for each particular program, the following factors will be taken into account:
  - Fees should take into account the plans and aspirations of each academic division, and the level of resources necessary to achieve high program quality.
  - Program costs should be taken into account in setting fees.

- Fees should be set at a level that is competitive with programs of similar quality in institutions with which we compete or expect to compete for students.
- Fee levels should be relatively higher in programs for which the future income prospects of graduates are relatively higher.
- Fee levels should reflect a justifiable balance across public and private sources of revenue per student.
- Fee policy should allow for intentional, disproportionate public subsidies and intra-university cross-subsidies, where a case for cross-subsidization can be made.

In bringing forward the tuition fee schedule each time, the administration shall provide an explanation taking account of the above factors.

4. **Fee Level Commitment.** The tuition fee schedule will include a commitment to be made to each student upon entry as to the level of fees to be charged over the normal course of the full-time program of study.
5. **Monitoring.** In presenting the annual Report on Enrolment, the Vice-President and Provost shall include commentary regarding the effects, if any, of changes in tuition fees upon changes in enrolment.

## Statement of Commitment Regarding International Students

---

### Preamble

International students are an essential feature of the University of Toronto's participation in international scholarship. They contribute to the international character of the University's research, and provide opportunities for the international exchange of knowledge through its teaching programs. The presence of outstanding students from all parts of the world in the University's undergraduate and graduate, professional, and research programs, helps to achieve the excellence the University seeks to assure for all its activities. On the University's campuses international students also make an important and positive contribution to the cultural life of the community and create lasting relationships of benefit to individuals as well as to the institution and the country generally. And finally, by enrolling international students, the University of Toronto, as an internationally significant university, has an opportunity to share its educational resources with other countries whose institutions are still evolving.

In light of these considerations, the Governing Council has adopted the Statement of Commitment Regarding International Students that commits the University to enrolling a broad mix of international students in its programs, and that articulates the basic principles that will guide their admission to the University, arrangements for their financial support, right of access to academic courses and programs, and the provision of services to address their particular needs.

This Statement of Commitment applies to University of Toronto students in university degree, diploma and certificate programs who are not Canadian citizens, permanent residents, or convention refugees.

### Statement of Principles

1. Within the Framework of divisional academic plans, the University of Toronto welcomes international students into all of its programs.
2. The admission of international students will be consistent with the Policies and Principles for Admission to the University of Toronto approved by the Governing Council in 1991.
3. The University will broaden and strengthen its recruiting efforts abroad.
4. Once admitted to the University, international students will have access to the same range of courses and support services on the same basis as other students.

### Financial Support

1. International students who are admitted and enrolled may encounter financial emergencies and the University will provide financial assistance as needed and where possible.
2. The University will develop a program of international admission scholarships using its own resources and support from external sources to be awarded on the basis of exceptional academic merit and financial need.
3. The Report of the Vice-Provost, Students on Student Financial Support, submitted annually to governance for information, will include data on the support provided to international students.

# 2023-24 Tuition Fees Schedule 1

This schedule will be implemented if the freeze to domestic Ontario resident tuition fees is extended to 2023-24.

## Appendix B: Undergraduate Domestic (Ontario Resident) Tuition Fee Schedules

Table B1: Domestic (Ontario Resident) Tuition Fees for Undergraduate Direct-Entry Programs

		2022-23	2023-24 APPROVAL
<b>APPLIED SCIENCE &amp; ENGINEERING</b>			
	Bachelors	\$14,180	\$14,180
	Undergraduate Specials (AE NDEGP)	\$12,310	\$12,310

<b>TRANSITIONAL YEAR PROGRAMME</b>			
	TYP Regular Program	\$5,170	\$5,170
	TYP Extended Program	\$2,570	\$2,570
<b>Notes:</b>			
1)	Tuition fee increases for domestic students are to comply with both the Provincial Tuition Fee Framework, and the University's internal Fee Level Commitment to continuing students. The Fee Level Commitment ensures increases of no more than 5% annually for in-program students, guaranteed for the normal length of a full-time program. Students who exceed the normal length of their program are charged the same tuition as students in the final year of that program. The existing Provincial Tuition Fee Framework expires on April 30, 2023. If the 2022-23 framework requiring a freeze to Ontario Resident domestic fees is extended to 2023-24, this schedule will apply.		
2)	Tuition fee rates for each year noted above are effective May 1st. For example, the tuition fees for 2023-24 commence in the Summer 2023 session.		

Table B2: Domestic (Ontario Resident) Tuition Fees for Undergraduate Programs with Higher Fees in Upper Years

Students entering these programs pay a general Arts & Science program fee in Year 1. They begin to pay a higher specialized program fee in either Year 2 or in Year 3 for the Bachelor of Information only.

<b>TRANSITIONAL YEAR PROGRAMME</b>			
	TYP Regular Program	\$5,320	\$5,580
	TYP Extended Program	\$2,640	\$2,770
<b>Notes:</b>			
1)	Tuition fee increases for domestic non-Ontario resident students are to comply with both the Provincial Tuition Fee Framework, and the University's internal Fee Level Commitment to continuing students. The Fee Level Commitment ensures increases of no more than 5% annually for in-program students, guaranteed for the normal length of a full-time program. Students who exceed the normal length of their program are charged the same tuition as students in the final year of that program. The existing Provincial Tuition Fee Framework expires on April 30, 2023. If the 2022-23 framework allowing a 5% increase to non-Ontario resident domestic fees is extended to 2023-24, this schedule will apply.		
2)	Tuition fee rates for each year noted above are effective May 1st. For example, the tuition fees for 2023-24 commence in the Summer 2023 session.		

Table C2: Domestic (Non-Ontario Resident) Tuition Fees for Undergraduate Programs with Higher Fees in Upper Years

Students entering these programs pay a general Arts & Science program fee in Year 1. They begin to pay a higher specialized program fee in either Year 2 or in Year 3 for the Bachelor of Information only.				
Notes	Cohort	Program Fees - Domestic (Non-Ontario Resident)	2022-23	2023-24 APPROVAL

<b>Information</b>				
3	2020	Bachelor of Information	\$11,760	\$12,340
3	2021	Bachelor of Information	\$6,280	\$12,340
3	2022	Bachelor of Information	\$6,280	\$6,590
3	2023	Bachelor of Information	NA	\$6,590
<b>Notes:</b>				
1)	Tuition fee increases for domestic non-Ontario resident students are to comply with both the Provincial Tuition Fee Framework, and the University's internal Fee Level Commitment to continuing students. The Fee Level Commitment ensures increases of no more than 5% annually for in-program students, guaranteed for the normal length of a full-time program. Students who exceed the normal length of their program are charged the same tuition as students in the final year of that program. The existing Provincial Tuition Fee Framework expires on April 30, 2023. If the 2022-23 framework allowing a 5% increase to non-Ontario resident domestic fees is extended to 2023-24, this schedule will apply.			
2)	Tuition fee rates for each year noted above are effective May 1st. For example, the tuition fees for 2023-24 commence in the Summer 2023 session.			
3)	Bachelor of Information students will first complete at least the equivalent of two years of full-time study at the undergraduate level in any discipline. The lowest 3-campus A&S Year 1-2 fee rates are displayed above for demonstration purposes. BI students will then pay the same tuition as Computer Science students.			

Table C2: Domestic (Non-Ontario Resident) Tuition Fees for Undergraduate Programs with Higher Fees in Upper Years (continued)

Students entering these programs pay a general Arts & Science program fee in Year 1. They begin to pay a higher specialized program fee in either Year 2 or in Year3 for the Bachelor of Information only.

Master of Science in Sustainability Management	\$16,880	\$16,880
Combined Bachelors / Master of Science in Sustainability Management Program	<b>SEE TABLES B4 &amp; C4</b>	
<b>Notes:</b>		
1)	Tuition fee increases for domestic students are to comply with both the Provincial Tuition Fee Framework, and the University's internal Fee Level Commitment to continuing students. The Fee Level Commitment ensures increases of no more than 5% annually for in-program students, guaranteed for the normal length of a full-time program. Students who exceed the normal length of their program are charged the same tuition as students in the final year of that program. The existing Provincial Tuition Fee Framework expires on April 30, 2023. If the 2022-23 framework requiring a freeze to Ontario Resident domestic fees is extended to 2023-24, this schedule will apply. Non-Ontario resident graduate students are not subject to differentiated fees in 2023-24.	
2)	Tuition fee rates for each year noted above are effective May 1st. For example, the tuition fees for 2023-24 commence in the Summer 2023 session.

5C	Oral and Maxillofacial Surgery	\$30,120	\$30,120
<b>Notes:</b>			
1)	Tuition fee increases for domestic students are to comply with both the Provincial Tuition Fee Framework, and the University's internal Fee Level Commitment to continuing students. The Fee Level Commitment ensures increases of no more than 5% annually for in-program students, guaranteed for the normal length of a full-time program. Students who exceed the normal length of their program are charged the same tuition as students in the final year of that program. The existing Provincial Tuition Fee Framework expires on April 30, 2023. If the 2022-23 framework requiring a freeze to Ontario Resident domestic fees is extended to 2023-24, this schedule will apply. Non-Ontario resident graduate students are not subject to differentiated fees in 2023-24.		
2)	Tuition fee rates for each year noted above are effective May 1st. For example, the tuition fees for 2023-24 commence in the Summer 2023 session.		
4)	Graduate Dentistry:		
& 5)	4) This field is for students enrolled in the MSc and PhD who are not also undertaking concurrent clinical specialty training.		
	5A) After minimum registration, in year 3 & onwards students are subject to the prevailing SGS doctoral stream tuition fee.		
	5B) After minimum registration, in year 4 & onwards students are subject to the prevailing SGS doctoral stream tuition fee.		
	5C) After minimum registration, in year 5 & onwards students are subject to the prevailing SGS doctoral stream tuition fee.		
	5D) After minimum registration, in year 7 & onwards students are subject to the prevailing SGS doctoral stream tuition fee.

MBA/MGA Combined degree program	<b>SEE TABLE E5</b>		
Dual degree programs			
<b>Notes:</b>			
1)	Tuition fee increases for continuing full-time international students are limited to a maximum of 5% in 2023-24 for the normal length of a full-time program. The normal length of program is two to six years. Students who exceed the normal length of their program will be charged the same tuition as students in the final year of that program.		
2)	Tuition fee rates for each year noted above are effective May 1st. For example, the tuition fees for 2023-24 commence in the Summer 2023 session.

<b>DUAL DEGREE PROGRAMS:</b>				
9	A&S MGA/Sciences Po MPP (Year 2 Fall/Winter)	\$46,160	\$48,470	\$50,890
9	A&S MGA/Hertie School of Governance MIA (Year 2 Fall/Winter)	\$46,160	\$48,470	\$50,890
9	A&S MGA/London School of Economics and Political Science (LSE) MPA (Year 2 Fall/Winter)	\$46,160	\$48,470	\$50,890
	National University of Singapore LLB/Law LLM	\$46,690	\$49,020	\$51,470
	Law JD/Tsinghua LLM	\$59,890	\$62,880	\$66,020
	Law LLM/Tsinghua LLB	\$46,690	\$49,020	\$51,470
10	Law LLM/Tsinghua LLM (Fall only)	\$23,345	\$24,510	\$25,735
10	Law LLM/Tsinghua JM (Fall only)	\$23,345	\$24,510	\$25,735
11	Law LLM/Universidad Torcuato Di Tella LLB	\$46,690	\$49,020	\$51,470
<b>Notes:</b>				
1)	Most of the combined programs do not currently have international student enrolment. In the event that they do in the future, international tuition fees will be charged following the same applicable fee patterns as outlined in the domestic Ontario Resident Schedule B4.			
2)	Tuition fee rates for each year noted above are effective May 1st. For example, the tuition fees for 2023-24 commence in the Summer 2023 session.			
7)	Includes co-op and non co-op programs.			
8)	After Year 8, MD/PhD students will be subject to the prevailing doctoral stream tuition fee rates.			
9)	Each cohort will start in the prior Fall at the other institution and then register as MGA students at UoFT in the following Summer.			
10)	Each cohort will be subject to 50% of the UoFT annualized LLM fee rate in the Fall terms of two consecutive years. Students will pay fees to Tsinghua University in the Winter terms of the same years.			
11)	The first cohort started in January 2018 at the Universidad Torcuato Di Tella in Argentina and then will register at UoFT after 4.5 years. UoFT fees will be levied for the first time in Fall 2022/Winter 2023.			

Table E5: International Tuition Fees for Combined, Double Degree and Dual Degree Programs

(continued)

The tuition fees for the combined, double, and dual degree programs by cohort/year of study are based on the individual program fees proposed in Schedules E1, E2, E3 & E4.				
		2022-23	2023-24 APPROVAL	2024-25 INFO

<b>Notes:</b>				
2)	Tuition fee rates for each year noted above are effective May 1st. For example, the tuition fees for 2022-23 commence in the Summer 2022 session.			
12)	Each cohort will pay tuition at CMU in Year 1, tuition at UoFT in Year 2. Students will only be registered at UoFT in the Fall term of the third year of time so will be charged 50% of the prevailing MEd continuing student tuition fee rate.			
13)	The first cohort will start in Fall 2023 at the China Medical University and then be registered as MEd students at UoFT in Fall 2024. UoFT fees will not be levied until Fall 2024/Winter 2025. Each cohort will pay tuition at CMU in Year 1, tuition at UoFT in Year 2. Students will only be registered at UoFT in the Fall term of the third year of time so will be charged 50% of the prevailing MEd continuing student tuition fee rate.			
14)	Each cohort will pay tuition at ZJU in Year 1, tuition at UoFT in Year 2. Students will only be registered at UoFT in the Fall term of the third year of time so will be charged 50% of the prevailing MEd continuing student tuition fee rate.			
15)	The first cohorts started in Fall 2022 at the Sapienza Università di Roma (Italy) and then will be registered at the Universidade do Porto (Portugal) or Université Paris-Saclay (France) in Winter and Summer 2023. Students will register at UoFT in Fall 2023 and complete three terms. UoFT fees will be levied for the first time in Fall 2023/Winter 2024.			

# 2023-24 Tuition Fees Schedule 2

If the Government makes a late announcement allowing 3% increases to Ontario Resident domestic fees for 2023-24, these schedules will apply (subject to any limitations in the framework).

## Appendix B: Undergraduate Domestic (Ontario Resident) Tuition Fee Schedules

Table B1: Domestic (Ontario Resident) Tuition Fees for Undergraduate Direct-Entry Programs

		2022-23	2023-24 APPROVAL
<b>APPLIED SCIENCE &amp; ENGINEERING</b>			
	Bachelors	\$14,180	\$14,600
	Undergraduate Specials (AE NDEGP)	\$12,310	\$12,670
	Undergraduate Specials (AE NDEG)	\$14,180	\$14,600
	Combined Skoll BAsc/MBA	<b>SEE TABLE B4</b>

<b>MUSIC</b>			
	Bachelors	\$6,100	\$6,280
	Combined Bachelor (Music Education Stream) / Master of Teaching Program	<b>SEE TABLE B4</b>	
<b>TRANSITIONAL YEAR PROGRAMME</b>			
	TYP Regular Program	\$5,170	\$5,320
	TYP Extended Program	\$2,570	\$2,640
<b>Notes:</b>			
1)	Tuition fee increases for domestic students comply with both the Provincial Tuition Fee Framework, and the University's internal Fee Level Commitment to continuing students. The Fee Level Commitment ensures increases of no more than 5% annually for in-program students, guaranteed for the normal length of a full-time program. Students who exceed the normal length of their program are charged the same tuition as students in the final year of that program. The existing Provincial Tuition Fee Framework expires on April 30, 2023. If the Government makes a late announcement allowing 3% increases to Ontario Resident domestic fees for 2023-24, these schedules will apply. The fee schedules will be revisited if the new Framework differs from this assumption.		
2)	Tuition fee rates for each year noted above are effective May 1st. For example, the tuition fees for 2023-24 commence in the Summer 2023 session.		

Table B2: Domestic (Ontario Resident) Tuition Fees for Undergraduate Programs with Higher Fees in Upper Years

Students entering these programs pay a general Arts & Science program fee in Year 1. They begin to pay a higher specialized program fee in either Year 2 or in Year 3 for the Bachelor of Information only.				
Notes	Cohort	Program Fees - Domestic (Ontario Resident)	2022-23	2023-24 APPROVAL
<b>Computer Science, Bioinformatics, Data Science</b>				
	2020	Computer Science or Bioinformatics or Data Science	\$11,420	\$11,760
	2021	Computer Science or Bioinformatics or Data Science	\$11,420	\$11,760
	2022	Computer Science or Bioinformatics or Data Science	\$6,100	\$11,760
	2023	Computer Science or Bioinformatics or Data Science	NA	\$6,280

<b>TRANSITIONAL YEAR PROGRAMME</b>			
	TYP Regular Program	\$5,320	\$5,580
	TYP Extended Program	\$2,640	\$2,770
<b>Notes:</b>			
1)	Tuition fee increases for domestic non-Ontario resident students are to comply with both the Provincial Tuition Fee Framework, and the University's internal Fee Level Commitment to continuing students. The Fee Level Commitment ensures increases of no more than 5% annually for in-program students, guaranteed for the normal length of a full-time program. Students who exceed the normal length of their program are charged the same tuition as students in the final year of that program. The existing Provincial Tuition Fee Framework expires on April 30, 2023. If the 2022-23 framework allowing a 5% increase to non-Ontario resident domestic fees is extended to 2023-24, this schedule will apply.		
2)	Tuition fee rates for each year noted above are effective May 1st. For example, the tuition fees for 2023-24 commence in the Summer 2023 session.		

Table C2: Domestic (Non-Ontario Resident) Tuition Fees for Undergraduate Programs with Higher Fees in Upper Years

Students entering these programs pay a general Arts & Science program fee in Year 1. They begin to pay a higher specialized program fee in either Year 2 or in Year 3 for the Bachelor of Information only.				
Notes	Cohort	Program Fees - Domestic (Non-Ontario Resident)	2022-23	2023-24 APPROVAL

Combined Bachelors / Master of Science in Sustainability Management Program	<b>SEE TABLES B4 &amp; C4</b>	
<b>Notes:</b>		
1)	Tuition fee increases for domestic students comply with both the Provincial Tuition Fee Framework, and the University's internal Fee Level Commitment to continuing students. The Fee Level Commitment ensures increases of no more than 5% annually for in-program students, guaranteed for the normal length of a full-time program. Students who exceed the normal length of their program are charged the same tuition as students in the final year of that program. The existing Provincial Tuition Fee Framework expires on April 30, 2023. If the Government makes a late announcement allowing 3% increases to Ontario Resident domestic fees for 2023-24, these schedules will apply. Non-Ontario resident graduate students are not subject to differentiated fees in 2023-24. The fee schedules will be revisited if the new Framework differs from this assumption.	
2)	Tuition fee rates for each year noted above are effective May 1st. For example, the tuition fees for 2023-24 commence in the Summer 2023 session.

	TYP Extended Program	\$2,640	\$2,770	\$2,900
<b>Notes:</b>				
1)	Tuition fee increases for continuing full-time international students are limited to a maximum of 5% in 2023-24 for the normal length of a full-time program. The normal length of program is two to six years. Students who exceed the normal length of their program will be charged the same tuition as students in the final year of that program.			
2)	Tuition fee rates for each year noted above are effective May 1st. For example, the tuition fees for 2023-24 commence in the Summer 2023 session.			

Table E2: International Tuition Fees for Undergraduate Programs with Higher Fees in Upper Years

Students entering these programs pay a general Arts & Science program fee in Year 1. They begin to pay a higher specialized program fee in either Year 2 or in Year 3 for Bachelor of Information only.

Master of Arts in Theological Studies	\$24,975	\$26,220	\$27,530
Doctor of Ministry (DMIN), Entered 2017 or earlier	\$15,520	\$600	NA
Doctor of Ministry (DMIN), Entered 2018	\$15,520	\$16,290	\$630
Doctor of Ministry (DMIN), Entered 2019	\$15,520	\$16,290	\$17,100
Doctor of Ministry (DMIN), Entered 2020	\$15,520	\$16,290	\$17,100
Doctor of Ministry (DMIN), Entered 2021	\$15,520	\$16,290	\$17,100
Doctor of Ministry (DMIN), Entered 2022	\$15,520	\$16,290	\$17,100
Doctor of Ministry (DMIN), Entering 2023	NA	\$16,290	\$17,100
Doctor of Ministry (DMIN), Entering 2024	NA	NA	\$17,100
Doctor of Theology (ThD), Entered 2013 or earlier (phasing-out)	\$580	\$600	NA
Doctor of Theology (ThD), Entered 2014 (phasing-out)	\$17,550	\$600	\$630
Master of Theology (ThM), Half Course Fee	\$3,750	\$3,930	\$4,120
<b>Notes:</b>			
1)	Tuition fee increases for continuing full-time international students are limited to a maximum of 5% in 2023-24 for the normal length of a full-time program. The normal length of program is two to six years. Students who exceed the normal length of their program will be charged the same tuition as students in the final year of that program.		
2)	Tuition fee rates for each year noted above are effective May 1st. For example, the tuition fees for 2023-24 commence in the Summer 2023 session.		

Table E5: International Tuition Fees for Combined, Double Degree and Dual Degree Programs

The tuition fees for the combined, double, and dual degree programs by cohort/year of study are based on the individual program fees proposed in Schedules E1, E2, E3 & E4.
