**AGENDA ITEM:** 6

**ITEM IDENTIFICATION:**

Status Report on Debt to February 29, 2024.

**JURISDICTIONAL INFORMATION:**

Pursuant to Section 5 (1.) (b.) of the Business Board Terms of Reference, the Business Board has responsibility for reviewing regular reports on matters affecting the finances of the University and on financial programs and transactions.

**GOVERNANCE PATH:**

- 1. Business Board [For Information] (March 13, 2024)**

**PREVIOUS ACTION TAKEN:**

The borrowing strategy was initially approved by Governing Council in June 2004. A revision of this debt strategy was approved in April 2023.

**HIGHLIGHTS:**

This regular status report provides the Business Board with an update of the debt policy limit, debt allocated by Business Board and actual external and internal debt. It also provides the actual debt burden and viability ratios as compared to the ratios of the debt policy limit.

The total debt policy limit for 2023-24 is \$2.6 billion, reflecting the maximum debt that can be taken on based on a debt burden ratio of 6% at April 30, 2023, as defined by the amended Debt Strategy. The debt burden ratio equals interest plus principal divided by total expenditures.

Allocations include external direct, indirect and internal borrowing approved by Business Board along with a contingency for donations targets and pledges. To February 29, 2024, net allocations were \$1.8 billion, leaving \$724.1 million available for future allocation.

Actual debt outstanding is the sum of internal loans issued from internal funds plus actual external debt issuance. At February 29, 2024, actual debt outstanding was \$1.1 billion. The debt burden ratio reflecting actual outstanding debt was 2.2%, of which 0.6% related to internal loans and 1.6% related to external debt issuance. The viability ratio reflecting actual outstanding debt was 5.0, above the minimum threshold of 0.8. If we assume that all approved debt allocations (including projects in progress) of \$1.8 billion is issued and outstanding, the debt burden ratio would then increase to 3.8%, below the policy maximum of 6.0% and the viability ratio would be 4.1, above the minimum threshold of 0.8.

**FINANCIAL IMPLICATIONS:**

None

**RECOMMENDATION:**

For information.

Changes	141.9	(0.1)	-	142.0
Closing balance at February 29, 2024	1,054.6	735.2	-	319.4

#### **Definitions:**

**Debt** includes all long-term external and internal borrowed funds obtained by any means (e.g. debentures, bank loans) and excludes letters and lines of credit and all short-term and medium term internal financing for purposes such as construction financing and fund deficits.

**Indirect Debt** includes off-balance sheet debt such as long-term debt obtained through a limited partnership arrangement that is not recorded in the University's balance sheet, but exposes the University to a potential financial liability.

**Debt burden ratio**, key determinant of debt policy limit, equals interest plus principal divided by total expenditures.

**Debt policy limit** is the maximum debt that can be taken on based on a debt burden ratio of 6%.

**Viability ratio**, be taken into consideration in setting debt policy limit, equals expendable resources divided by external debt. The debt strategy has set a preference of a viability ratio of 0.8 or greater.

**Allocations** are all borrowings approved by Business Board, including indirect debt plus contingency for donations pledges.

**Actual debt outstanding** is the sum of actual internal loans issued, actual external debt issuance and indirect debt.
