## Background

Ancillary and Incidental fees are charged to pay for services, materials, and activities that are not supported by operating grants, capital grants, or tuition fees. The University of Toronto introduced a Policy on Ancillary Fees in 1995 (the Policy), which translates the Ancillary Fee Guidelines provided by the Ministry of Colleges and Universities (MCU) into the University of Toronto context.

The Policy defines six categories of fees that may be established by the University:

- **Category 1: Services Provided by the University** includes fees for institution-wide and College-based student services, health services, athletics and recreation, and Hart House.
- **Category 2: Services Provided by Student Organizations** includes the costs of operating student societies and the cost of services provided by them, such as fees in support of student-initiated health plans, communications, and social and cultural services. The University acts as a collection agent for the student organization, but the fees are passed directly to the respective student organizations.
- **Category 3: Student Levies for Specific, Limited Projects** includes fees established by student organizations for specific projects within the University which are designated by them. The University acts as a collection agent for the student organization, but the fees are either passed directly to the student organization or to a restricted account for the purpose designated by the organization.
- **Category 4: Academic Surcharges for Extraordinary Cost** includes optional fees for extra services beyond those normally provided and required by a degree program or course, such as studio fees, cinema screening fees, laundry fees, or computing fees when additional computing time is made available to students at their option.
- **Category 5: Cost Recovery Ancillary Fees** include fees for publications, case studies, laboratory manuals, field trips, clothing, equipment, goods or services provided to students for their exclusive use; charges for various forms of non-credit remedial instruction; and materials, services, or licenses where the University acts as a broker with a vendor on behalf of students.
- **Category 6: Administrative User Fees and Fines** include fees for special registration arrangements, optional copies of records, special arrangements relating to examinations, placement fees, library fines, registration fees, and other services.

**Category 1, 2, and 3** fees are subject to the University's Policy for Compulsory Non-Academic Incidental Fees (2003) and reviewed by the Council of Student Services (COSS) and the University Affairs Board.

The University does not currently have any **Category 4** optional fees.

**Category 5 Cost Recovery Ancillary Fees and Category 6 Administrative User Fees and Fines** may be adjusted annually by administrative authority of the Vice President, Operations and Real Estate Partnerships, provided that changes relate to cost of materials or services provided. These changes are reported annually to the Business Board for information. The schedules of Category 5 and Category 6 fees for 2025-26 are attached.

Several factors have put upward pressure on proposed ancillary fee levels for 2025-26:

- Historically, some departments have partially subsidized some cost-recovery services. But, given the reduced flexibility in their budgets from constrained revenues and pressures on expenses, they have moved to reduce or phase out these subsidies, consistent with the Ministry's cost-recovery fee setting principle. In cases where the subsidy was substantial, some departments have elected to phase in the increase in fees over several years to reduce the impact on students.
- Fees for field trips and study abroad offerings have been impacted by higher supplier costs for transportation and accommodations. An increase in scheduled activities (e.g., lectures, events, tours etc.) spread across lower levels of estimated enrolment have also required fee increases for some programs.
- Increased vendor costs for supplies and equipment.
- Divisions are encouraged to consider a best practice approach of applying smaller, annual inflation-related increases to ancillary fees versus much larger periodic step-function increases. This reduces the impact on students from large increases and helps keep fees in-line with annual cost inflation.

In total, there are 984 fees in Category 5 and 306 fees in Category 6. Of these, roughly 18% (238) will remain unchanged or will be reduced in 2025-26, 121 fees are new, and 807 fees will see an inflationary increase of 5% or less. There are 124 fees that will increase by more than 5%, primarily due to the factors described above. There are 43 fees that are being removed from the schedules at the requests of the applicable divisions.

The University also publishes a schedule of fees charged to individuals who are not enrolled as UofT students, such as application and admission deferral fees for applicants, and licensing and degree verification fees for alumni. These fees are not subject to the MCU ancillary fee guidelines or the *Policy* described above. These fees are provided for information in Appendix D.

## Category 6 Fees for Approval

**The introduction or removal of Category 6 fees requires approval by Business Board.** The proposed changes for 2025-26 are outlined in Tables 1 and 2 below. There are some fees that warrant highlighting for this year's cycle:

- UTM is proposing new co-op professional development and placement fees associated with its co-op internship program (UTMCIP) that was introduced last year. The new fees proposed this cycle are part of a multi-year phase-in approach that will reach its steady-state next year. Students from the incoming Fall 2023 cohort who opt into UTM's co-op internship program will be charged the same amount in Year 3 for the professional modules as students in the similar Arts & Science Internship (ASIP) and Applied Science Professional Experience Co-op programs.
- Last year, UTSC expanded its Life Science co-op placement program from two work terms to three – with the fee levels in line with their already existing three-work term programs. This year, UTSC is proposing to continue to introduce new fees in line with this transition for those in Year 2 of the Life Science program. UTSC is also proposing to expand its co-op placement programs to three terms in other departments as well. During this transition period, fees for both the two and three work terms options will remain on the schedule.
- The Faculty of Information is proposing to introduce a new preparatory module fee for its Master of Information co-op program for the cohort entering in 2025-26 consistent with best work-integrated learning practices.
- The optional fees for the APSC Engineering Summer Internship program (eSIP) that were previously charged to students that entered the eSIP program prior to 2020 are being removed from the schedule as all such students have graduated. Incoming students since 2021 may seek placements via the Professional Experience Co-op program.
- Dentistry is proposing to remove a Clinic Placement Fee for its Clinical Specialist PhD program.

## Appendix A: Policy on Ancillary Fees (1995)

In addition to the Tuition Fee Schedule, there shall be a Schedule of Ancillary Fees. The schedule will be organised as follows:

### 1.0 Student Services provided by the University<sup>1</sup>

1.1 Student Services; 1.2 Health Services; 1.3 Athletics; 1.4 Hart House; and 1.5 Constituent College Fees (excludes college library fees which are prohibited)

### 2.0 Student organizations and services provided by such organizations<sup>2</sup>

2.1 Student society fees including any portion thereof in support of student-initiated health plans and communications; 2.2 Social and cultural services (excluding Hart House); and 2.3 Other fees levied by student organizations to cover the costs of operating the organizations or services provided by them. The University may act as a collection agent for the student organization, but the fees will be passed directly to the respective student organizations.

### 3.0 Student levies for specific, limited projects<sup>3</sup>

Student organizations may establish levies for specific, limited projects within the University which are designated by them. The University may act as a collection agent for the student organization, but the fees will either be passed directly to the respective student organization or to a restricted account for the purpose(s) designated by the organization.

All fees in Categories 1.0, 2.0 and 3.0 that are compulsory will be governed by the University's Policy on Compulsory Non-academic Incidental Fees. The application of the Policy will not preclude the assignment of Category 3.0 Student levies for specific, limited projects to academic purposes.

### 4.0 Academic surcharges for extraordinary cost

4.1 Studio Fees; 4.2 Cinema Screening Fees; 4.3 Laundry; and 4.4 Computing Fees. Compulsory ancillary fees normally may not be levied for these services. The only exception may be for extra services beyond those normally provided and required by a degree program or course, as for example when additional computing time is made available to students at their option.

### 5.0 Cost Recoveries<sup>4</sup>

5.1 Publications, case studies, laboratory manuals; 5.2 Field trips; 5.3 Clothing; 5.4 Equipment purchases that become the property of students; 5.5 Equipment rentals that, for the period of rental, come into the individual possession of students; and 5.6 Other goods and services provided individually to students for their exclusive use. Charges for various forms of non-credit remedial

---

<sup>1</sup> All fees in this category are compulsory. The Ministry of Colleges and Universities' Compulsory Ancillary Fee Policy requires that protocols be established in order to increase or add new fees to this category.

<sup>2</sup> In accordance with the Ministry of Colleges and Universities' Compulsory Ancillary Fee Policy fees established by student governments, including those resulting from referenda sponsored by them are excluded from the protocol requirement.

<sup>3</sup> Such fees must be approved by student referenda as required by the Ministry of Colleges and Universities' Compulsory Ancillary Fee Policy. These fees are exempt from the protocol requirement of the Ministry's policy.

<sup>4</sup> Such fees, whether or not they are compulsory, are exempt from the Ministry of Colleges and Universities' Compulsory Ancillary Fee Policy protocol requirement.

instruction, if provided, may be included here; and 5.7 Materials, services, or licenses where the University acts as a broker with a vendor for the student.<sup>5</sup>

Fees charged to recover costs must relate to those costs, and may not exceed them, or a reasonable estimate of them. The only cost recoveries that may be charged are those shown on the University Schedule of Cost Recovery Fees, which initially was the list of cost recoveries shown in the University's submission to the Ministry of Training & Education, February 16, 1987. The fees shown on the Schedule may be adjusted annually by administrative authority (the Vice President, Operations and Real Estate Partnerships) provided that the adjustments relate to changes in cost, and are for goods and services that comply with the Policy on Ancillary Fees. All changes shall be reported annually to the Business Board for information.

## **6.0 Administrative user fees and fines<sup>6</sup>**

6.1 Registration fees; 6.2 Records and documents (excluding diplomas and certificates, for which no fee may be charged except for replacements); 6.3 Examination and grades (excluding initial grade reports, for which no fee may be charged); 6.4 Co-op program placement fees; 6.5 Library fines; and 6.6 Other administrative user fees or fines shown on the University Schedule of Administrative User Fees and Fines.

Administrative user fees must relate to the costs of the services provided, and may not exceed them, or reasonable estimates of them. The only administrative user fees and fines that may be charged are those shown on the University Schedule of Administrative User Fees and Fines. The fees and fines shown on the Schedule may be adjusted annually by administrative authority (the Vice President, Operations and Real Estate Partnerships), provided that the adjustments relate to the costs of the services provided. All changes shall be reported annually to the Business Board for information. The introduction or removal of a fee from the Schedule must be submitted to the Business Board for review and approval.

## **7.0 General program support**

Other than tuition fees, no fees may be levied for general program support, except as provided for in Category 3.0, student levies for specific, limited projects.

## **8.0 System Wide Fees<sup>7</sup>**

8.1 University Health Insurance Plan (UHIP). Such fees are established through a formal agreement under which students at all Ontario universities pay a comparable fee for a comparable service. Such fees are exempt from the Ministry of Colleges and Universities' Compulsory Ancillary Fee Policy protocol requirement.

---

<sup>5</sup> This is a new category introduced by the Ministry of Colleges and Universities. For the University of Toronto, this category replicates Category 5.4.

<sup>6</sup> All fees in this category are exempt from the Ministry of Colleges and Universities' Compulsory Fee Policy protocol requirement.

<sup>7</sup> This is a new category introduced by the Ministry of Colleges and Universities policy. The UHIP fee is actually a Council of Ontario Universities fee which is reported here for information.
