

# Degrees Awarded Report 2024

February 2024

Planning & Budget Office

UNIVERSITY OF  
TORONTO

---

# Introduction

This report describes undergraduate and graduate degrees awarded in the 2024 calendar year.

The University of Toronto is the largest university in Canada and one of the largest publicly funded universities in North America – with 18 academic divisions, over 700 undergraduate programs, and more than 200 graduate programs across three campuses. In 2024-25, the University crested 100,000 students for the first time in its history, enrolling 102,431 individual students in 91,245 full-time equivalent enrolments (FTEs) of courseload activity.

The University of Toronto awarded more than 22,200 undergraduate and graduate degrees in the 2024 calendar year, including 790 doctors, nurses, pharmacists, and dentists. Last year, the University also graduated 815 healthcare workers with professional master’s degrees in public health, nursing and medicine, in addition to 820 teachers and social workers, and over 1,100 doctorates. Upon graduation, U of T graduates become part of a large and diverse global network of nearly 700,000 alumni.

Across the University, 80% of undergraduate students graduate within six years of starting their program, with higher rates among professional programs in the health sciences. This rate has grown steadily over the last decade and is now the same as the average for highly selective public schools in the United States and comparable with Canadian peers. The actual graduation rate of students is even higher as these figures exclude students who move on to second-entry professional programs prior to graduating from their original first-entry program.

Increasingly these students are graduating with experiential learning opportunities provided through curricular or co-curricular programs; and more than 22,500 undergraduate course enrolments are taught each year by preeminent faculty members like University Professors, endowed Chair holders, and those holding Canada Research Chairs. As such, according to the prestigious Times Higher Education magazine, U of T graduates are among the world’s most desirable employees – ranked 1<sup>st</sup> among publicly funded universities in North America and 14<sup>th</sup> place globally.

University of Toronto alumni active in the labour force enjoy a 97% employment rate, with a higher percentage of alumni participating in the knowledge-intensive economy compared to the national average, particularly in the educational, legal, health and government sectors. Among graduates from undergraduate programs, 89% report being employed full-time in jobs related to their program two years after graduation, and these recent graduates averaged a salary of around \$53,100 according to Statistics Canada.
