DATE: March 18, 2025 for March 25, 2025

AGENDA ITEM: 3(a)(ii)

ITEM IDENTIFICATION:

Tuition Fee Schedules for Publicly-funded Programs 2025-26

JURISDICTIONAL INFORMATION:

Pursuant to Section 5.11 (a) the Business Board recommends the schedule of tuition fees to Governing Council for approval.

GOVERNANCE PATH:

1. Business Board [For recommendation] (March 12, 2025)
2. **Executive Committee [For endorsement and forwarding] (March 25, 2025)**
3. Governing Council [For approval] (April 3, 2025)

PREVIOUS ACTION TAKEN:

The *Tuition Fee Schedules for Publicly-funded Programs 2024-25* was approved by the Governing Council at its April 4, 2024 meeting.

HIGHLIGHTS:

Tuition revenue in publicly-funded programs of \$2.1 billion for 2025-26 represents approximately 59% of the University's total budgeted operating revenue of \$3.62 billion.

Tuition fees at the University of Toronto are determined in accordance with the University's *Tuition Fee Policy*, the *Statement of Commitment Regarding International Students* and the Provincial Government's Tuition Framework. The *Tuition Fee Policy* speaks to five elements: advocacy, fee revenue, fee differentiation, fee level commitment and monitoring. In presenting this tuition schedule, the University reaffirms its commitment to student aid for domestic students and its accessibility statement. A full overview of financial assistance available to students is included in the *2023-24 Annual Report on Student Financial Support*, which accompanies these schedules through governance.

Note that the tuition fees in these schedules are limited to for-credit publicly-funded programs. Fees for non-credit continuing education or life-long learning programs are established locally within the relevant divisions and the School of Continuing Studies and are not discussed in these schedules.

Domestic Tuition Fees

Changes to domestic tuition fees in publicly-funded programs at Ontario colleges and universities are subject to frameworks mandated by the Provincial Government. Under these frameworks, the Government sets limits on increases to fees (and in some cases, requires reductions or freezes) and retains the option to reduce operating grant funding to institutions that contravene the framework. The frameworks only apply to tuition for students for which the Government provides operating grant funding so do not apply to the majority of international students, non-publicly funded programs such as the Executive MBA, and continuing education programs.

On January 17, 2019, the Ontario government announced a 10% cut to domestic tuition fees beginning in 2019-20, and a freeze at that level for 2020-21. The freeze on Ontario resident domestic tuition has remained in place since then and the Government has committed to extending it to at least 2026-27.

In 2021-22, the Government introduced a new policy allowing for differentiated domestic tuition for Non-Ontario Residents. These fees can be increased by 5% annually. Starting in 2022-23, the University implemented differentiated tuition fees for undergraduate programs only. Given the challenges in determining residency at the graduate level, the University has not yet implemented differentiated fees for those programs.

In 2023-24, the Government approved anomaly increases to a select number of programs at each university where the existing fees were significantly lower than comparable programs in the Province. These fees can be increased by 7.5% per year until they reach the approved levels.

Consistent with the Provincial Framework in place for 2025-26, changes to domestic tuition at the University will be as follows:

- Ontario resident domestic tuition fees will remain frozen for all programs except the anomaly programs noted below.
- Non-Ontario resident domestic tuition in undergraduate programs will increase by 5%.
- Non-Ontario resident domestic tuition in graduate programs will remain frozen.
- Domestic tuition in the Master of Arts, Master of Science, and Master of Science in Applied Computing programs will increase by 7.5% for incoming students under the Government's anomaly program. Tuition increases for continuing students in these

programs will be limited to a maximum of 5% per annum under the University's internal policy commitment to continuing students.

International Tuition Fees

International fees are set at a level that takes into consideration the full cost of providing programs and with reference to fees at peer Canadian and US universities.

Overall, undergraduate international tuition fees will increase by an average of 3.1% and graduate international tuition fees will increase by an average of 3.4%, excluding international PhD students paying domestic rates, and 2.1% when international PhD fees are included. In order to provide prospective applicants with information for planning purposes, the attached schedules also include currently planned tuition fees for international students for 2026-27 **for information only**. These fees are subject to change next year when the final tuition fees are brought forward to governance for approval as part of the 2026-27 budget plan.

International tuition fees for students entering and continuing in the tri-campus Arts & Science, Architecture, Information, and Medicine MD programs will increase by 3% in 2025-26. Tuition for Applied Science & Engineering will increase by 4% for new and continuing students. Most other international fees will increase by 5%, consistent with the assumptions in last year's plan and reflecting their lower fee levels. International fees for all the conjoint programs with the Toronto School of Theology will increase by 5% for 2025-26.

As is the case with domestic tuition fees, international tuition fees for the second and upper years of the Commerce, Business Administration, Management, Computer Science, Bioinformatics, Data Science, UTM Visual Studies, and Communication, Culture, and Information Technology (CCIT) programs are differentiated from the first-year general arts & science fee. These fees will increase by 3% in 2025-26.

As of 2018-19, most international PhD students at the University of Toronto pay tuition fees equivalent to those of domestic students and the fees will continue to be aligned for 2025-26.

International tuition fee increases in research-stream master's, professional master's, and professional doctoral programs vary by program, but primarily range from 2% to 5%, with higher increases in entering fees for the MSW (6%), Master of Financial Economics (8%), and the Master of Financial Insurance (8%) programs. Fee increases consider the resource requirements of the programs and the level of the tuition fee relative to competing programs. Fee increases for continuing students are limited to a maximum of 5% under the University's policy.

FINANCIAL IMPLICATIONS:

Revenue projections for publicly-funded programs are included in the *Budget Report 2025-26 and Long Range Budget Guidelines 2025-26 to 2029-30*. Related information on student financial support accompanies this report in the *Annual Report on Student Financial Support, 2023-24*.

RECOMMENDATION:

Be it Recommended to the Governing Council

THAT the 2025-26 tuition fees as described in the Tuition Fee Schedule for Publicly-Funded Programs 2025-26 be approved;

DOCUMENTATION PROVIDED:

Appendix A: Policies	6
Appendices B-D: 2025-26 Tuition Fee Schedule	8

Tuition Planning and Context

The following report provides the proposed 2025-26 tuition fees for for-credit degree, diploma, and certificate programs at the University of Toronto. An overview of the policy frameworks and context for fee setting is included along with detailed schedules of the fees in the appendices. Note that the tuition fees in this report are limited to for-credit programs. Fees for non-credit continuing education or life-long learning programs are established locally within the relevant divisions and the School of Continuing Studies and are not discussed in this report.

Tuition fees at the University of Toronto are determined in accordance with the University's Tuition Fee Policy, the Statement of Commitment Regarding International Students, and the Provincial Government's Tuition Framework.

The Provincial Framework for Domestic Tuition Fees

Changes to domestic tuition fees in publicly funded programs at Ontario colleges and universities are subject to frameworks mandated by the Provincial Government. Under these frameworks, the Government sets limits on increases to fees (and in some cases, requires reductions or freezes) and retains the option to reduce operating grant funding to institutions that contravene the framework. The frameworks only apply to tuition for students for which the Government provides operating grant funding so do not apply to the majority of international students, non-publicly funded programs such as the Executive MBA, and continuing education programs.

On January 17, 2019, the Ontario government announced a 10% cut to domestic tuition fees beginning in 2019-20, and a freeze at that level for 2020-21. The freeze has remained in place since then – with some exceptions as described below – and the Government has committed to extending it to at least 2026-27.

In 2021-22, the Government introduced a new policy allowing for differentiated tuition for Out of Province or “non-Ontario resident” domestic students. Given the lateness of the announcement of the fee framework, coming at the start of the Summer 2021 session, the University opted to not implement differentiated tuition for 2021-22. However, the University proceeded with establishing differential tuition for non-Ontario resident domestic students in 2022-23, with a 3% increase to tuition for all undergraduate programs while tuition for domestic Ontario residents remained frozen under the Framework. Non-Ontario resident domestic undergraduate tuition was subsequently increased by 5% in each of 2023-24 and 2024-25 under the framework.

The 2023-24 Framework included a new process for institutions to request multi-year tuition anomaly

adjustments where a program's tuition rate was at least 15 per cent lower than the sector average of comparable programs. Tuition fees for approved anomaly programs can be increased up to 7.5% per year until they reach the approved level.

The University received approval for special anomaly increases for tuition in our doctoral stream Master of Arts and Master of Science programs, as well as the MSc in Applied Computing which are all significantly below comparable programs in Ontario. The University increased incoming domestic fees by 3 per cent for Fall 2023, 7.5 per cent for Fall 2024, and will increase fees by 7.5% again in 2025-26 as part of the multi-year plan to increase fees to closer to the sector averages. Tuition increases for continuing students will be limited to 5% per annum under the University's internal policy commitment to continuing students.

Tuition Revenue

The 2025-26 Budget includes incremental, for-credit tuition fee revenue of \$24 million. This reflects the net impact of updated international and domestic enrolment plans, a continued freeze to Ontario resident domestic tuition fees, a 5% increase to non-Ontario resident undergraduate domestic fees, the special anomaly increases described earlier, and a 2.9% average increase in international tuition fees.

While the flexibility on non-Ontario resident tuition and the anomaly increases is helpful, the overall financial impact is relatively small as the changes apply to a fairly small part of our enrolment. New tuition revenues are critically important to maintain and fund investments in programs and services for students across the University. So, it is imperative that the freeze on most domestic tuition fees does not extend past 2026-27, and ideally, ends sooner.

The University continues to monitor the impact of tuition fees to ensure that enrolment is unaffected, as required by the University's Tuition Fee Policy. Demand for University programs from both domestic and international students continues to be strong and undergraduate entering averages continue to be exceptional. The most recent statistics from the Ontario Universities Application Centre (OUAC) show that two-thirds of new U of T students have a 90%+ high school average, and 1 in every 5 high school graduates with a 90%+ average enrolls at the University of Toronto.

Student Financial Support

Undergraduate and graduate students at the University of Toronto have access to a wide range of financial supports through the University in addition to those available through government loan and grant programs like the Ontario Student Assistance Program (OSAP). Some are based on need, and others on measures of merit, such as academic achievement or leadership. There are supports for international and Canadian students as well as dedicated supports for students with disabilities.

The University of Toronto is independently committed to financial aid and is guided by the 1998 Governing Council Policy on Student Financial Support, which will continue to drive funding for need-based student aid for domestic students.

The policy sets out the principle that domestic students should have access to the resources that will enable them to meet their financial needs, as determined through the Ontario Student Assistance Program (OSAP), with appropriate modifications as determined by the Vice-Provost, Strategic Enrolment Management and the University Registrar, in consultation with the academic divisions of the University. The Province's Student Access Guarantee (SAG) requires institutions to provide non-repayable aid to assist domestic, OSAP-eligible students in direct-entry undergraduate programs with expenses related to tuition, books and supplies not covered by OSAP. The University's commitment goes above and beyond these requirements and also provides support for living expenses.

The University's primary mechanism for providing need-based financial aid to OSAP-eligible, direct-entry, domestic undergraduate students is the University of Toronto Advance Planning for Students (UTAPS) program which was redesigned in 2023-24 to make it more responsive to student needs and less impacted by changes in the Government's OSAP need assessment policies. These changes give the University greater flexibility to grant financial support earlier and to consider more accurate living costs for the GTA in need calculations. This has allowed for a much more targeted allocation of UTAPS support focused on the students who need it most.

Need-based financial aid for domestic students in second-entry and professional master's programs is administered in divisionally-run programs, allowing for a more individualized and nuanced approach to providing assistance. Divisional programs are supported where necessary by access to an institutionally negotiated line of credit.

University practice has been to link the change in the UTAPS budget to the domestic fee framework. While tuition for Ontario resident students remains frozen, increases to undergraduate non-Ontario resident tuition and growth in the domestic population will increase need for UTAPS support. In response, the 2025-26 budget includes a 3% increase to UTAPS bringing it \$41 million, which is then topped up by about \$2 million in funding from endowments including the Boundless Promise Program. While UTAPS is the primary program to meet student financial needs, the University provides additional funding outside of UTAPS to support students facing unexpected financial challenges.

The large direct entry undergraduate divisions have committed to a significant investment in merit-based scholarships for international students from diverse global regions. Divisions are earmarking 6% of total international undergraduate tuition to support International Scholars awards to reduce the cost for top international applicants from around the world. Each division has designed its own awards program based on diverse criteria including merit, financial need, priority regions for diversification, and intended program of study. The 2025-26 Budget sets aside \$90 million for the International Scholars program and the full-ride Pearson Scholarships for exceptional international students.

Additional information on the University's student aid programs and OSAP can be found in the 2023-24 Student Financial Aid Report and the 2025-26 Budget Report.

University of Toronto Fee Level Commitment

The University's Tuition Fee Policy (Appendix A) states that in establishing the tuition fee schedule, a commitment will be made to each student upon entry as to the level of fees to be charged over the normal course of the full-time program of study. Beginning in 1998-99, the University of Toronto made a commitment to students in its fee schedules that, unless otherwise noted, no student continuing in a program will be subject to a fee increase of more than 5% per year.

This commitment remains in effect regardless of the provincial tuition framework in place at any given point in time and applies for the normal length of each program, as posted on the University's website. For students in the doctoral stream, the commitment is in effect for two years at the master's level and typically for four years at the doctoral level (with some exceptions for longer doctoral programs). For students who participate in Co-op or internship programs as part of their undergraduate program, the normal length of full-time study increases by one year. For undergraduate students entering the University via an International Foundation Program, the normal length of study also increases by one year.

Tuition Fee Structures

Program Fees and Course Fees

Full-time undergraduate student fees are levied in one of two ways: program fees or course fees. Under a program fee structure, students pay a single fee for study classified as full-time for fee purposes. Under a course fee structure, students pay a fee for each course in which they are registered. Most University of Toronto programs levy fees under the program fee model.

Programs with higher fees in upper years

In some undergraduate programs, students are admitted after completing one or more years of study in arts and science courses. During the initial year(s), students pay general arts and science tuition; upon admission to the program, students pay a higher tuition fee in upper years. This structure reflects the move from a general program to an upper-year specialized program. These programs include: Commerce; Business Administration; Management; Computer Science; Bioinformatics; Data Science; UTM Visual Studies; Communication, Culture and Information Technology (CCIT); and the undergraduate program in Information.

Bachelor of Information (BI) students complete the equivalent of two years of full-time study at the undergraduate level in any discipline before transferring into the BI program. Once registered in the BI program, students pay the same tuition as Computer Science students.

Combined, Double Degree, and Dual Degree Program Fees

The University has a number of combined degree program offerings and has begun to develop additional double degree and dual degree programs. Schedules B4 & D5 provide detailed information on fees for these programs. The proposed fees by year of study for almost all cases are based on the fees for the constituent programs proposed in Schedules B1-B3, C, & D1-D4.

Part-Time and Partial Fees

Some students at the University of Toronto are charged partial fees primarily based on the tuition fee for full-time study. The following formulas guide the derivation of partial fees:

1. When computing a partial fee, the respective fee for full-time study is the tuition fee for either domestic or international students, depending on the legal status of the student.
2. Part-time fees for undergraduate programs are typically equal to the full-time fees pro-rated on a per-course basis relative to the full-time course load, except in a couple of special cases.

- The program fee for part-time domestic MD Extended Clerkship students is assessed on a per term basis, typically in the summer and fall terms. No international students are expected in this program.
 - Fees for the part-time domestic PharmD for Pharmacists program are assessed on per half course basis.
3. Part-time fees for graduate programs are normally set at 30% of the full-time annual fee with the following exceptions:
 - The Nursing Post-Masters Nurse Practitioner Diploma program is offered on a part-time basis only and fees are assessed on a program fee basis.
 - The part-time Medicine Graduate Diploma in Health Research is available to MD students and fees are assessed on a per term basis.
 - The UTM Master of Forensic Accounting is only offered on a part-time basis. The proposed part-time program fee rates for 2025-26 are listed in Schedules C & D4.
 4. Because of the minimum costs incurred for registration in any program, no tuition fee in 2025-26, after refunds in the case of full withdrawal from the University, shall be less than \$338.

Conjoint Programs with the Toronto School of Theology

In accordance with the Memorandum of Agreement between the University of Toronto and the Toronto School of Theology (TST), proposed tuition fees for conjoint undergraduate and graduate programs are forwarded to the Business Board for review and approval annually – these fees are included in the accompanying schedules. The ThD degree program was fully phased-out during 2024-25.

Note that tuition fees for TST's non-conjoint programs are not included as these are not University of Toronto programs. Approval for these fees is through the TST Board of Trustees.

2025-26 Tuition Fees

Tuition Fees for Domestic Students

The University's Tuition Fee Policy (Appendix A) states that public funding should be supplemented as necessary to offer students an educational experience of a quality that ranks with that of the finest public research universities in the world. Furthermore, it calls for a differentiated fee structure in which tuition fees reflect individual program goals, resource requirements, program costs, etc.

Tuition fees therefore differ by program. Appendix B Undergraduate Domestic Tuition Fee Schedules list the proposed tuition fees for domestic students by residency, by program, and by entering cohort where relevant. For the purposes of this report, direct-entry undergraduate programs are programs of study into which a student may be admitted directly from high school (e.g., Engineering, Arts and Sciences, Architecture, Music, and Kinesiology) plus the Transitional Year Program (TYP). Second-entry undergraduate programs are programs of study that require a student to have some university preparation before admission to the program (e.g., Law JD, Medicine MD, Dentistry DDS, PharmD and Nursing). Graduate fees are listed in Appendix D.

Undergraduate students entering first year in 2025-26 should note that tuition fees for upper year students in the Commerce, Business Administration, Management, Computer Science, Data Science, Information, Bioinformatics, UTM Visual Studies, and Communication, Culture, and Information Technology (CCIT) programs are provided separately in Schedules B2. Fees for the upper years of these programs in 2026-27 will be submitted to Governing Council for approval in Spring 2026 and will comply with the Provincial Tuition Framework in place at that time.

Tuition Fees for International Students

The University of Toronto recognizes the important contributions of international students to our academic and research mission as expressed in the Statement of Commitment Regarding International Students (Appendix A). The University continues to invest in services to enhance the experience and success of our international students and in scholarship programs to attract and support top students from across the world. The proposed international fees listed in Appendix D are set at a level that takes into consideration the full cost of providing a program and with reference to fees at peer Canadian and US universities.

The international tuition fees for students entering and continuing in the tri-campus Arts & Science, Architecture, Information, and Medicine MD programs will increase by 3% in 2025-26. Tuition for Applied Science & Engineering will increase by 4% for new and continuing students. Most other international fees will increase by 5%, consistent with the assumptions in last year's plan and reflecting their lower fee levels. International fees for all conjoint programs with the Toronto School of Theology will increase by 5% for

2025-26. The weighted average undergraduate international tuition fee increase across all programs and years of study in 2025-26 will be 3.1%.

As is the case with domestic tuition fees, international tuition fees for the second and upper years of the Commerce, Business Administration, Management, Computer Science, Bioinformatics, Data Science, UTM Visual Studies, and Communication, Culture and Information Technology (CCIT) programs are differentiated from the first year general arts & science fee. These fees will increase by 3% in 2025-26.

International tuition for most PhD programs will continue to be aligned with domestic tuition in 2025-26. International tuition fee increases in research-stream master's, professional master's, and professional doctoral programs vary by program, but primarily range from 2% to 5%, with higher increases in entering fees for the MSW (6%), Master of Financial Economics (8%), and Master of Financial Insurance (8%) programs. Fee increases consider the resource requirements of the programs and tuition at other universities. In all cases, continuing fee increases are limited to a maximum of 5% under the University's policy.

In response to competitive pressures from peer programs, international fees for the Master of Biotechnology, Master of Management and Professional Accounting, Master of Accounting and Finance, Master of Forensic Accounting, Master of Management of Innovation, Master of Science in Biomedical Communication, and Master of Science in Pharmacy programs will remain at their current levels for 2025-26.

The weighted average increase for international graduate tuition, excluding PhD programs, will be 3.4% in 2025-26. When international PhD programs are included, the average increase in international graduate fees is 2.1%.

Schedule D5 includes the international fees for students in combined, double degree or dual degree programs. Most combined programs do not currently have international students enrolled. If they do in future, international tuition fees would be charged following the same practices as outlined in the domestic Schedule B4.

Planned 2026-27 International Tuition Fees for Information Only

The University provides a supplemental schedule of currently planned fees for 2026-27 **for information only** to assist students considering applying to the University in the future. Note that these fees are subject to change when the University finalizes its plans next year.

For planning purposes, undergraduate tri-campus Arts & science and Architecture international fees are projected to increase by 3% in 2026-27 and 4% for undergraduate engineering programs, with variations in other programs to reflect competitive environments (lower rate of increase) or exceptional resource requirements (higher rate of increase). The upper year fees for Computer Science, Bioinformatics, Data Science, UTM Visual Studies, and Communication, Culture and Information Technology (CCIT) programs are projected to rise by up to 5%.

Appendix A: Policies

The University's Tuition Fee Policy

The University of Toronto's tuition fee policy should reflect its mission as an internationally significant, public research university with undergraduate, graduate and professional programs of excellent quality. Such a goal assumes an appropriate level of funding which, for a public university, means principal support from the Provincial and Federal Governments, and from endowment funds as well as tuition fees. It also assumes the existence of programs of student aid to maintain the accessibility of the University to students of varying financial means. The effect of this policy should be neutral with regard to enrolment levels, which will be determined from time to time through the University's planning processes. Our tuition fee policy has five elements:

1. **Advocacy.** In making the case for public policies strongly supportive of an accessible public system of university education, the University will continue to advocate ongoing and substantial public investment in the university sector.
2. **Fee Revenue.** The University of Toronto will continue to be a public university, for which ongoing and substantial support from government will always be essential. The basic principle of the tuition policy is that public funding should be supplemented as can be demonstrated to be necessary to offer students an educational experience of a quality that ranks with that of the finest public research universities in the world.
3. **Fee Differentiation.** The University should continue to move toward a more differentiated structure of fees across programs. In setting fees for each particular program, the following factors will be taken into account:
 - Fees should take into account the plans and aspirations of each academic division, and the level of resources necessary to achieve high program quality.
 - Program costs should be taken into account in setting fees.
4. **Fee Level Commitment.** The tuition fee schedule will include a commitment to be made to each student upon entry as to the level of fees to be charged over the normal course of the full-time program of study.
5. **Monitoring.** In presenting the annual Report on Enrolment, the Vice-President and Provost shall include commentary regarding the effects, if any, of changes in tuition fees upon changes in enrolment.

- Fees should be set at a level that is competitive with programs of similar quality in institutions with which we compete or expect to compete for students.
- Fee levels should be relatively higher in programs for which the future income prospects of graduates are relatively higher.
- Fee levels should reflect a justifiable balance across public and private sources of revenue per student.
- Fee policy should allow for intentional, disproportionate public subsidies and intra-university cross-subsidies, where a case for cross-subsidization can be made.

In bringing forward the tuition fee schedule each time, the administration shall provide an explanation taking account of the above factors.

Statement of Commitment Regarding International Students

Preamble

International students are an essential feature of the University of Toronto's participation in international scholarship. They contribute to the international character of the University's research and provide opportunities for the international exchange of knowledge through its teaching programs. The presence of outstanding students from all parts of the world in the University's undergraduate and graduate, professional, and research programs, helps to achieve the excellence the University seeks to assure for all its activities. On the University's campuses international students also make an important and positive contribution to the cultural life of the community and create lasting relationships of benefit to individuals as well as to the institution and the country generally. And finally, by enrolling international students, the University of Toronto, as an internationally significant university, has an opportunity to share its educational resources with other countries whose institutions are still evolving.

In light of these considerations, the Governing Council has adopted the Statement of Commitment Regarding International Students that commits the University to enrolling a broad mix of international students in its programs, and that articulates the basic principles that will guide their admission to the University, arrangements for their financial support, right of access to academic courses and programs, and the provision of services to address their particular needs.

This Statement of Commitment applies to University of Toronto students in university degree, diploma and certificate programs who are not Canadian citizens, permanent residents, or convention refugees.

Statement of Principles

1. Within the Framework of divisional academic plans, the University of Toronto welcomes international students into all of its programs.
2. The admission of international students will be consistent with the Policies and Principles for Admission to the University of Toronto approved by the Governing Council in 1991.
3. The University will broaden and strengthen its recruiting efforts abroad.
4. Once admitted to the University, international students will have access to the same range of courses and support services on the same basis as other students.

Financial Support

1. International students who are admitted and enrolled may encounter financial emergencies and the University will provide financial assistance as needed and where possible.
2. The University will develop a program of international admission scholarships using its own resources and support from external sources to be awarded on the basis of exceptional academic merit and financial need.
3. The Report of the Vice-Provost, Students on Student Financial Support, submitted annually to governance for information, will include data on the support provided to international students.

Appendix C: Graduate Domestic Tuition Fee Schedules

Table C: Domestic Tuition Fees for Graduate Programs

		2024-25	2025-26 APPROVAL
APPLIED SCIENCE & ENGINEERING			
	Doctor of Philosophy (Ph.D.)	\$6,210	\$6,210
	Master of Applied Science (M.A.Sc.)	\$6,210	\$6,210
	Master of Engineering (M.Eng., M.Eng. C.E.M)	\$13,380	\$13,380
	Master of Engineering Full-Time Extended, Entered 2023	\$6,481	\$6,175
	Master of Engineering Full-Time Extended, Entered 2024	\$6,690	\$6,481
	Master of Engineering Full-Time Extended, Entering 2025	NA	\$6,690
	Combined UTSC HSc/M.Eng. Program	SEE TABLES B4 & C4	
ARCHITECTURE, LANDSCAPE, AND DESIGN			
	Doctor of Philosophy (Ph.D.)	\$6,210	\$6,210
	Master of Architecture	\$11,400	\$11,400
	Master of Landscape Architecture	\$11,400	\$11,400
	Master of Urban Design	\$11,400	\$11,400
	Master of Visual Studies	\$8,370	\$8,370
	Master of Science in Forestry	\$6,210	\$6,210
	Master of Forest Conservation	\$9,900	\$9,900
	Master of Forest Conservation Full-time Extended, Entered 2023	\$5,752	\$5,482
	Master of Forest Conservation Full-time Extended, Entered 2024	\$5,940	\$5,752
	Master of Forest Conservation Full-time Extended, Entering 2025	NA	\$5,940
ARTS & SCIENCE ST. GEORGE			
	Doctor of Philosophy (Ph.D.)	\$6,210	\$6,210
2B	Master of Arts (M.A.), Entered 2024	\$6,860	\$7,200
2B	Master of Arts (M.A.), Entering 2025	NA	\$7,370
	Master of Applied Science (M.A.Sc.)	\$6,210	\$6,210
2B	Master of Science (M.Sc.), Entered 2024	\$6,860	\$7,200
2B	Master of Science (M.Sc.), Entering 2025	NA	\$7,370
	Master of Environment and Sustainability (M.E.S.)	\$6,210	\$6,210
	Master of Science in Planning	\$10,080	\$10,080
	Master of Financial Economics	\$30,510	\$30,510
	Master of Public Policy	\$17,680	\$17,680
	Master of Industrial Relations & Human Resources (Two-Year)	\$10,660	\$10,660
	Master of Industrial Relations & Human Resources (Advanced Standing Option)	\$16,000	\$16,000
	Master of Global Affairs	\$21,070	\$21,070
	Master of Science in Applied Computing - Entered 2024	\$12,410	\$13,030
	Master of Science in Applied Computing - Entering 2025	NA	\$13,340
	Master of Financial Insurance	\$26,780	\$26,780
	MA / MGA / MPP / PhD Combined Programs	SEE TABLES B4 & C4	
UTM			
	Doctor of Philosophy (Ph.D.)	\$6,210	\$6,210
2B	Master of Arts (M.A.), Entered 2024	\$6,860	\$7,200
2B	Master of Arts (M.A.), Entering 2025	NA	\$7,370
2B	Master of Science (M.Sc.), Entered 2024	\$6,860	\$7,200
2B	Master of Science (M.Sc.), Entering 2025	NA	\$7,370
	Master of Forensic Accounting	\$19,240	\$19,240
	Master of Management and Professional Accounting	\$29,680	\$29,680
	Master of Biotechnology	\$17,730	\$17,730
	Master of Science in Biomedical Communication	\$11,950	\$11,950
	Master of Management of Innovation	\$30,300	\$30,300
	Master of Management in Urban Innovation	\$16,880	\$16,880
	Master of Science in Sustainability Management	\$16,880	\$16,880
	Combined Bachelors / Master of Science in Sustainability Management Program	SEE TABLES B4 & C4	

Table C: Domestic Tuition Fees for Graduate Programs (continued)

		2024-25	2025-26 APPROVAL
UTSC			
	Doctor of Philosophy (Ph.D.)	\$6,210	\$6,210
2B	Master of Arts (M.A.), Entered 2024	\$6,860	\$7,200
2B	Master of Arts (M.A.), Entering 2025	NA	\$7,370
2C	Master of Science (M.Sc.) in Environmental Science - Spring start, Entered 2024	\$6,670	\$3,500
2C	Master of Science (M.Sc.) in Environmental Science - Spring start, Entering 2025	NA	\$7,170
2B	Master of Science (M.Sc.) - Fall start programs, Entered 2024	\$6,860	\$7,200
2B	Master of Science (M.Sc.) - Fall start programs, Entering 2025	NA	\$7,370
	Master of Environmental Science	\$12,310	\$12,310
	Master of Accounting and Finance, Entered 2024	\$19,590	\$9,795
	Master of Accounting and Finance, Entering 2025	NA	\$19,590
DENTISTRY			
7	PhD (Dental Biomedical Sciences Field)	\$6,210	\$6,210
	PhD with Specialty Training:		
	PhD with Specialty Training - Non-MOH Funded		
	Dental Public Health	\$7,610	\$7,610
8E	Dental Anaesthesia	\$13,861	\$13,861

8B	Paediatric Dentistry	\$27,810	\$27,810
8B	Periodontics	\$27,810	\$27,810
8B	Prosthodontics	\$27,810	\$27,810
8C	Oral and Maxillofacial Surgery	\$30,120	\$30,120
	M.Sc. with Specialty Training - MOH Funded		
8B	Oral and Maxillofacial Pathology	\$3,430	\$3,430
8B	Oral Medicine	\$3,430	\$3,430
8C	Oral and Maxillofacial Surgery	\$2,700	\$2,700
8C	Oral and Maxillofacial Pathology and Oral Medicine	\$2,700	\$2,700
INFORMATION			
	Doctor of Philosophy (Ph.D.)	\$6,210	\$6,210
	Master of Information, Entered 2024	\$10,280	\$9,800
	Master of Information, Entering 2025	NA	\$10,280
	Master of Museum Studies, Entered 2024	\$10,350	\$9,870
	Master of Museum Studies, Entering 2025	NA	\$10,350
	Combined JD/MI Programs	SEE TABLES B4 & C4	
	Combined MI/MMST Programs		

Table C: Domestic Tuition Fees for Graduate Programs (continued)

		2024-25	2025-26 APPROVAL
KINESIOLOGY AND PHYSICAL EDUCATION			
	Doctor of Philosophy (Ph.D.)	\$6,210	\$6,210
2B	Master of Arts (M.A.), Entered 2024	\$6,860	\$7,200
2B	Master of Arts (M.A.), Entering 2025	NA	\$7,370
2B	Master of Science (M.Sc.), Entered 2024	\$6,860	\$7,200
2B	Master of Science (M.Sc.), Entering 2025	NA	\$7,370
	Master of Professional Kinesiology, Entered 2024 (phasing-out)	\$10,550	\$5,275
	Master of Kinesiology, Entering 2025	NA	\$10,130
	Master of Sports Science, Entering 2025	NA	\$10,130
LAW			
	Doctor of Juridical Science (SJD)	\$6,210	\$6,210
	Master of Laws (LLM)	\$9,280	\$9,280
	LLM Dual Degree Programs	SEE TABLES B4 & C4	
	Global Professional Master of Laws (GPLLM)	\$33,570	\$33,570
	Global Professional Master of Laws Extended Full-time (GPLLM) - Entered 2024	\$16,785	\$16,785
	Global Professional Master of Laws Extended Full-time (GPLLM) - Entering 2025	NA	\$16,785
	Master of Studies in Law (MSL)	\$9,280	\$9,280
	Graduate Non-Degree, SJD Half Course Fee	\$931.00	\$931.00
	Graduate Non-Degree, LLM Half Course Fee	\$1,392.00	\$1,392.00
	Graduate Non-Degree, MSL Half Course Fee	\$1,392.00	\$1,392.00
	Graduate Non-Degree, GPLLM Half Course Fee	\$3,600.00	\$3,600.00
MANAGEMENT			
	Doctor of Philosophy (Ph.D.)	\$6,210	\$6,210
	Master of Business Administration	\$46,270	\$46,270
	Master of Business Administration, 3-Year, Entered 2023	\$30,404	\$29,522
	Master of Business Administration, 3-Year, Entered 2024	\$30,846	\$30,404
	Master of Business Administration, 3-Year, Entering 2025	NA	\$30,846
	Master of Finance, 20-month	\$30,600	\$30,600
	Master of Financial Risk Management	\$39,850	\$39,850
	Master of Management Analytics	\$41,400	\$41,400
	MBA Combined Programs	SEE TABLES B4 & C4	
	Management - Self-funded programs	SEE SELF-FUNDED TABLE	
	Graduate Non-Degree Special Student, Doctoral Half Course Fee	\$931.00	\$931.00
	Graduate Non-Degree Special Student, Professional Masters Half Course Fee	\$6,940.50	\$6,940.50
MEDICINE			
	Doctor of Philosophy (Ph.D.)	\$6,210	\$6,210
	Graduate Diploma in Health Research (Part-time Term Fee)	\$1,582.50	\$1,582.50
	Health Science Other Graduate Diplomas	\$10,550	\$10,550
2B	Master of Science (M.Sc.), Entered 2024	\$6,860	\$7,200
2B	Master of Science (M.Sc.), Entering 2025	NA	\$7,370
	Master of Science in Occupational Therapy	\$10,550	\$10,550
	Master of Science in Physical Therapy	\$10,550	\$10,550
	Master of Health Science - Speech-Language Pathology	\$10,550	\$10,550
	Master of Health Science - Translational Research	\$10,550	\$10,550
	Master of Health Science - Medical Genomics	\$10,550	\$10,550
	Master of Health Science - Physiology	\$10,550	\$10,550
	Master of Health Science - Laboratory Medicine	\$10,550	\$10,550
	MD Combined Programs	SEE TABLES B4 & C4	
	Graduate Non-Degree Special Student, Doctoral Half Course Fee	\$931.00	\$931.00
	Graduate Non-Degree Special Student, Doctoral Stream Masters Half Course Fee	\$1,029.00	\$1,105.50
	Graduate Non-Degree Special Student, Professional Masters Half Course Fee	\$1,029.00	\$1,105.50
MUSIC			
	Doctor of Philosophy (Ph.D.)	\$6,210	\$6,210
	DMA in Performance	\$9,540	\$9,540
2B	Master of Arts (M.A.), Entered 2024	\$6,860	\$7,200
2B	Master of Arts (M.A.), Entering 2025	NA	\$7,370
	Mus.M. in Performance	\$10,350	\$10,350

Table C: Domestic Tuition Fees for Graduate Programs (continued)

		2024-25	2025-26 APPROVAL
NURSING			
	Doctor of Philosophy (Ph.D.)	\$6,210	\$6,210
	Doctor of Nursing	\$15,000	\$15,000
	Master of Nursing (MN)	\$12,180	\$12,180
	Post-Masters Nurse Practitioner Diploma Program (Part-time)	\$8,580	\$8,580
OISE/UT			
	Doctor of Education (Ed.D.)	\$7,537	\$7,537
	Doctor of Philosophy (Ph.D.)	\$6,210	\$6,210
2B	Master of Arts (M.A.), Entered 2024	\$6,860	\$7,200
2B	Master of Arts (M.A.), Entering 2025	NA	\$7,370
	Master of Arts in Child Study & Education	\$10,070	\$10,070
	Master of Teaching	\$10,070	\$10,070
	Master of Education	\$10,070	\$10,070
	Combined Degree Programs	SEE TABLES B4 & C4	
PHARMACY			
	Doctor of Philosophy (Ph.D.)	\$6,210	\$6,210
2B	Master of Science (M.Sc.), Entered 2024	\$6,860	\$7,200
2B	Master of Science (M.Sc.), Entering 2025	NA	\$7,370
	Master of Science in Pharmacy (M.Sc.Ph.m.)	\$12,400	\$12,400
PUBLIC HEALTH			
	Doctor of Philosophy (Ph.D.)	\$6,210	\$6,210
	Doctor of Public Health	SEE SELF-FUNDED TABLE	
2C	Master of Science (M.Sc.) SLI concentration - Spring start, Entered 2024	\$6,670	\$7,000
2C	Master of Science (M.Sc.) SLI concentration - Spring start, Entering 2025	NA	\$7,170
2B	Master of Science (M.Sc.) excl. SLI concentration - Fall start programs, Entered 2024	\$6,860	\$7,200
2B	Master of Science (M.Sc.) excl. SLI concentration - Fall start programs, Entering 2025	NA	\$7,370
	Master of Public Health	\$10,070	\$10,070
	Master of Science in Community Health	\$10,070	\$10,070
	Master of Health Informatics, Regular Stream	\$10,070	\$10,070
	Master of Health Informatics, Executive Stream Stream, Entered 2024	\$7,552	\$7,359
	Master of Health Informatics, Executive Stream Stream, Entering 2025	NA	\$7,552
	Master of Health Science - Bioethics	\$10,070	\$10,070
	Master of Health Science - Health Administration	\$10,070	\$10,070
	MHSc Combined Programs	SEE TABLES B4 & C4	
SOCIAL WORK			
	Doctor of Philosophy (Ph.D.)	\$6,210	\$6,210
	Master of Social Work	\$9,420	\$9,420
	Master of Social Work Combined Programs	SEE TABLES B4 & C4	
TORONTO SCHOOL OF THEOLOGY - GRADUATE CONJOINT PROGRAMS			
	Doctor of Philosophy (PhD)	\$6,210	\$6,210
2B	Master of Arts in Theological Studies	\$6,860	\$7,370
	Doctor of Ministry (DMIN), Entered 2019 or earlier	\$7,209	\$367
	Doctor of Ministry (DMIN), Entered 2020	\$7,209	\$7,209
	Doctor of Ministry (DMIN), Entered 2021	\$7,209	\$7,209
	Doctor of Ministry (DMIN), Entered 2022	\$7,209	\$7,209
	Doctor of Ministry (DMIN), Entered 2023	\$7,209	\$7,209
	Doctor of Ministry (DMIN), Entered 2024	\$7,209	\$7,209
	Doctor of Ministry (DMIN), Entering 2025	NA	\$7,209
	Master of Theology (ThM), Half Course Fee	\$939	\$939

Appendix D: International Tuition Fee Schedules

Table D1: International Tuition Fees for Undergraduate Direct-Entry Programs

		2024-25	2025-26 APPROVAL	2026-27 INFO
APPLIED SCIENCE & ENGINEERING				
	Bachelors, Entered 2022	\$67,370	\$70,060	NA
	Bachelors, Entered 2023	\$67,370	\$70,060	\$72,860
	Bachelors, Entering 2024	\$67,370	\$70,060	\$72,860
	Bachelors, Entering 2025	NA	\$70,060	\$72,860
	Bachelors, Entering 2026	NA	NA	\$72,860
	Undergraduate Specials (AE NDEGP)	\$67,370	\$70,060	\$72,860
	Undergraduate Specials (AE NDEG)	\$67,370	\$70,060	\$72,860
	Dual degree programs	SEE TABLE D5		
ARCHITECTURE, LANDSCAPE, AND DESIGN				
	Bachelors, Architectural Studies, Entered 2022	\$61,720	\$63,570	NA
	Bachelors, Architectural Studies, Entered 2023	\$61,720	\$63,570	\$65,480
	Bachelors, Architectural Studies, Entering 2024	\$61,720	\$63,570	\$65,480
	Bachelors, Architectural Studies, Entering 2025	NA	\$63,570	\$65,480
	Bachelors, Architectural Studies, Entering 2026	NA	NA	\$65,480
	Bachelors, Visual Studies, Entered 2022	\$61,720	\$63,570	NA
	Bachelors, Visual Studies, Entered 2023	\$61,720	\$63,570	\$65,480
	Bachelors, Visual Studies, Entering 2024	\$61,720	\$63,570	\$65,480
	Bachelors, Visual Studies, Entering 2025	NA	\$63,570	\$65,480
	Bachelors, Visual Studies, Entering 2026	NA	NA	\$65,480
ARTS & SCIENCE incl. UTM & UTSC				
	Bachelors, Entered 2022	\$61,720	\$63,570	NA
	Bachelors, Entered 2023	\$61,720	\$63,570	\$65,480
	Bachelors, Entering 2024	\$61,720	\$63,570	\$65,480
	Bachelors, Entering 2025	NA	\$63,570	\$65,480
	Bachelors, Entering 2026	NA	NA	\$65,480
	Bachelors - Computer Science or Bioinformatics or Data Science	SEE TABLE D2		
	Bachelors - Communication, Culture & Information Technology			
	Bachelors - Visual Studies UTM - Visual Culture and Communication			
	Bachelors - Commerce/Business Administration			
	Bachelors - Management UTM			
	Combined, Double, and Dual Degree Programs	SEE TABLE D5		

Table D1: International Tuition Fees for Undergraduate Direct-Entry Programs (continued)

Table D5: International Tuition Fees for Combined, Double Degree and Dual Degree Programs

The tuition fees for the combined, double, and dual degree programs by cohort/year of study are based on the individual program fees proposed in Schedules D1, D2, D3 & D4. Most combined programs do not currently have international student enrolment. In the event that they do in the future, international tuition fees will be charged following the same applicable patterns as outlined in domestic schedule B4.

Accompanying Notes to Tuition Fee Tables:

1. Tuition fee rates for each year are effective May 1st. For example, the tuition fees for 2025-26 commence in the Summer 2025 session.
2.
 - A. Tuition fee increases for domestic students are to comply with both the Provincial Tuition Fee Framework, and the University's internal Fee Level Commitment to continuing students. The Fee Level Commitment ensures increases of no more than 5% annually for in-program students, guaranteed for the normal length of a full-time program. Students who exceed the normal length of their program are charged the same tuition as students in the final year of that program.
 - B. The 2023-24 Provincial Tuition Framework approved multi-year domestic tuition fee increase anomaly adjustments for most MA and MSc programs, as well as the MSc in Applied Computing. Domestic fees for students in these programs may increase by up to a maximum of 7.5% per annum until the University's rates equalize with approved university peer program sector averages as determined by the Ministry (MSc in Applied Computing - \$17,320; MA/MSc - \$7,600). The University will limit fee increases for continuing students in these anomaly programs to a maximum of 5% per annum under its internal Fee Level Commitment policy.
 - C. Due to the late Ministry announcement of the 2023-24 Tuition Framework's tuition fee increase anomaly adjustment process, the approved changes could not be implemented until Fall 2023/Winter 2024. Consequently, graduate doctoral stream Master spring start programs will be unable to fully equalize their domestic tuition rates with the Fall start anomaly programs until 2027-28.

3. Bachelor of Information students will first complete at least the equivalent of two years of full-time study at the undergraduate level in any discipline. The lowest 3-campus A&S Year 1-2 fee rates are displayed for demonstration purposes. BI students will then pay the same tuition as Computer Science students.
4. TST Undergraduate Basic Degree Program students who entered prior to 2018 will be charged slightly lower fees than the posted rate for 2025-26 above based on the grandparenting rules that existed at their date of entry and compliant with the annual increase limits allowed by the Tuition Frameworks.
5. The combined degree programs involving the three Arts & Science campuses' HBA or HBSc programs are restricted to specific combinations of specialist, major, or minor programs. Please refer to the respective divisional academic calendar for further details.
6. Includes co-op and non co-op programs.
7. The Dental Biomedical Sciences field is for students in the Dentistry MSc and PhD who are not also undertaking concurrent clinical specialty training.
8.
 - A. After minimum registration, in Yr 3 & onwards students are subject to the prevailing Yr 2 doctoral stream masters fee.
 - B. After minimum registration, in Yr 4 & onwards students are subject to the prevailing Yr 2 doctoral stream masters fee.
 - C. After minimum registration, in Yr 5 & onwards students are subject to the prevailing Yr 2 doctoral stream masters fee.
 - D. After minimum registration, in Yr 5 & onwards students are subject to the prevailing Yr 5 doctoral fee.
 - E. After minimum registration, in Yr 7 & onwards students are subject to the prevailing Yr 5 doctoral fee.
9. After Year 8, MD/PhD students are subject to the prevailing doctoral stream tuition fee rates.
10. Each MGA combined degree program cohort will start in the prior Fall at the other institution and then register as MGA students at UofT in the following Summer. UofT continuing student fees will be levied in Fall/Winter Year 2.
11. In the event a MD/MBA student is able to register in a graduate half course in the Fall term of Year 5, no MBA tuition will be charged.
12. Each cohort starts in January at the Universidad Torcuato Di Tella in Argentina and then will register at UofT after 4.5 years.
13. Each cohort will pay tuition at the partner institution in Year 1, tuition at UofT in Year 2. Students will only be registered at UofT in the Fall term of the third year of time so will be charged 50% of the prevailing MEd continuing student tuition fee rate.
14. Each cohort will start in the prior Fall at the Sapienza Università di Roma (Italy) and then be registered at the Universidade do Porto (Portugal) or Université Paris-Saclay (France) in Winter and Summer of Year 1. Students will register at UofT in Year 2 for three terms. UofT continuing student (Year 2) fees will be levied in Year 2 Fall/Winter.
15. The PharmD program will transition to a three-year program as of the incoming Fall 2025 cohort. Students in future will be charged Fall/Winter program fees plus Summer program fees will be introduced as of Summer 2026 onwards such that students will ultimately be charged the same or slightly less in total compared to the phasing-out 4-year program. The total academic requirements are remaining unchanged at 23.25 full-course equivalents.
16. New program proposal in development subject to internal academic governance and/or external Ministry approval(s).
