AGENDA ITEM: 3

ITEM IDENTIFICATION:

Annual Report: Recognized Student Groups, University of Toronto Mississauga

JURISDICTIONAL INFORMATION:

Section 5.9 of the UTM Campus Affairs Committee *Terms of Reference* states that “The Committee receives annually, from the appropriate administrators, reports on services within its areas of responsibility, including but not limited to campus police and campus organizations. These reports are submitted to the University Affairs Board for information”.

GOVERNANCE PATH:

1. **UTM Campus Affairs Committee [For Information] (April 29, 2026)**
2. University Affairs Board [For Information] (May 27, 2026)

PREVIOUS ACTION TAKEN:

This annual report was provided to the UTM Campus Affairs Committee for information on May 7, 2025.

HIGHLIGHTS:

Many recognized student organizations engage in co-curricular activities that enrich the participation of their members in their own academic programs. Involvement in a student group can also provide significant learning opportunities for students with respect to leadership, civic and community engagement, and organizational capacity. Since many student organizations address the complex issues of the world around us, engagement in a student group can often provide important opportunities to be exposed to different ideas and perspectives. This helps the University provide meaningful opportunities for debate and dissent, and to foster the development of students’ understanding of difference. Finally, participation in student groups provides one means by which students integrate and engage with small communities within the University of Toronto Mississauga.

In accordance with the *Policy on Recognition of Student Groups*, this is a report on administrative decisions to grant, deny, or withdraw recognition for student groups based at UTM for the 2025-26 academic year. There are 254 student groups listed in this report that have been granted recognition and 54 applications under review, for a total of 308 active applications. No student groups were denied recognition and no groups have had recognition withdrawn.

Membership data provided in this report show that the cumulative number of UTM members of all recognized student groups is 16,059 and the average number of UTM members per student group is 63.

In addition to recognized student groups, UTM also recognizes 17 academic societies, associated with academic departments, and 17 affiliated organizations that offer services to students who subsidize them (such as student governments and student-run media, for which membership is automatic and based on students' registration).

FINANCIAL IMPLICATIONS:

There are no financial implications for the University's operating budget.

RECOMMENDATION:

This report is provided for information.

UTM Recognized Student Groups, 2025-26

Subject: UTM Recognized Student Groups, 2025-26

The size and diversity of the student community at the University of Toronto Mississauga provides an extraordinary number of opportunities for students to participate in a vast array of activities undertaken by student organizations. Participation in these groups forms an integral part of the student experience. Student organizations contribute, in a variety of ways, to the educational, intellectual, recreational, social, and cultural life of the University of Toronto community. For many students, involvement in voluntary student groups is not only a traditional part of campus life; it forms a significant component of their learning while at the University.

Many recognized student organizations engage in co-curricular activities that enrich the participation of their members in their own academic programs. Involvement in a student group can also provide significant learning opportunities for students with respect to leadership, civic and community engagement, and organizational capacity. Since many student organizations address the complex issues of the world around us, engagement in a student group can often provide important opportunities to be exposed to different ideas and perspectives. This helps the University provide meaningful opportunities for debate and dissent, and to foster the development of students' understanding of difference. Finally, participation in student groups provides one means by which students integrate and engage with communities within the University of Toronto.

In 2025-26, UTM saw an increase in its recognized student groups, growing to 254, compared to 213 in 2024-25. This growth can be attributed to a number of on-going initiatives that were used to promote and encourage student group participation in on-campus programming, such as the expanding Orientation programming to include student groups with the opportunity to lead events at UTM's Orientation, which took place in September 2025. The Centre for Student Engagement (CSE) worked closely on promoting and encouraging student groups to host and co-host events to welcome new students to campus and promote ways for students to find community amongst peers through student groups. Recognition through the Student Organization Portal launched on July 31 in 2025, as opposed to previous years when it occurred in August, which encouraged groups to re-apply early and avoid any barriers of large numbers of applications the CSE typically experienced in September. This early recognition also ensured they were able to participate in Orientation programming and tabling.

The CSE continues to support on-campus space booking privileges to recognized student groups and student group funding with the goal of providing easy and student-led ways for groups to engage with the UTM community and have access to financial supports with hosting events and

providing engagement to the campus community. These efforts have also been important in driving students to create student groups and retention of student groups year over year, as the increase of space usage and funding applications mirrored the rise in the number of recognized student groups.

In accordance with the University's *Policy on the Recognition of Student Groups (the Policy)*, this is a report on administrative decisions to grant, deny, or withdraw recognition for student groups based at UTM for the 2025-26 academic year. The student groups listed below have been granted recognition until July 31, 2026.

Recognition of student groups by the University provides several benefits and opportunities:

1. the right to use the name of the University in the name of the group and in conjunction with group activities;
2. eligibility to use University facilities and meeting spaces at no cost or at a lower cost compared to external organizations;
3. eligibility to apply for temporary office space;
4. listings in select University directories as a University-recognized student group;
5. verification letters confirming recognition status (sometimes required by banks and other external organizations); and
6. access to other University services and resources made available from time to time.

A student organization seeking recognition must submit an annual application to the Centre for Student Engagement along with a copy of the group's constitution. The constitution outlines the group's purpose, objectives, and procedures. It addresses organizational structure, membership, meetings, the election or appointment of members in leadership positions, amendments to the constitution, and rules of conduct. A commitment to democracy and accountability to members should also be reflected.

Full membership in a recognized student group (including eligibility to vote and serve in a leadership position) must be open to any currently registered University of Toronto student from any division. While discriminatory membership practices are not allowed, it is acknowledged that certain groups could well be homogeneous in nature without being discriminatory. Status as non-voting members may be extended to other University community members or interested persons from outside the University.

Groups seeking recognition by the University must be genuine student organizations and generally non-profit in nature. A recognized student group cannot be controlled by any external body. However, many organizations are affiliated with provincial, national, or international bodies and other external groups.

Under the terms of the *Policy*, the University will not attempt to censor, control or interfere with any group on the basis of its philosophy, beliefs, interests or opinions expressed unless and until these lead to activities which are illegal or which infringe the rights and freedoms of others within the community. By the same token, recognition as a student group implies neither endorsement of a group's beliefs or philosophy, nor the assumption of legal liability for the group's activities.

Please note that, pursuant to the *Policy*, the recognition of student groups which draw their membership from only one academic division is delegated to the governance body of that division.

It is important to note that there are hundreds of additional clubs, many athletics and recreation activities, Hart House clubs and committees, as well as recognized student groups based on other campuses which, while not listed here, add significantly to the educational, intellectual, recreational, social, and cultural life of the U of T community. In addition, many students are involved in student governments, college and faculty student societies, academic societies, course unions, and departmental student associations.
