

## Tuition Fee Schedule for Publicly Funded Programs 2008-09

### **Background**

In November 1997, the Provincial Government announced a change in public policy with respect to tuition fees, and the University of Toronto responded by striking a task force which recommended policies on tuition fees and student financial aid. The Tuition Fee Policy was approved by Governing Council in April 1998. It defines the principles that should guide changes to tuition fees. This policy, together with the University's Statement of Commitment Regarding International Students, is given in Appendix A.

In the 2004 Ontario Budget, the Provincial Government announced a two-year tuition freeze until the government implemented a plan to ensure quality of and accessibility to higher education. The 2004-05 and 2005-06 freeze applied to students in publicly funded programs who are Canadian citizens, Landed Immigrants or otherwise exempt from differential fees for international students. It did not apply to international students, who are ineligible for operating grant funding and therefore are subject to differential fees relative to those paid by domestic students.

On March 8, 2006 the Ontario Government announced the Tuition Framework for 2006-07 through to 2009-10. During this period, tuition fees will be regulated and increases will be allowed only subject to accessibility guarantees.

Under the Framework, university governing boards may set tuition fees subject to several constraints. Tuition fees for entering students in Arts and Science and selected other undergraduate programs may increase by a maximum of 4.5 %. Tuition fees for entering students in graduate and high-cost professional programs may be increased by a maximum of 8%. Increases in tuition fees for continuing students in any program must not exceed 4%. Overall, the average increase in tuition for all students in any institution must not be more than 5%.

This is the third tuition fee schedule for the University of Toronto prepared under the 2006 Tuition Framework. Increases in tuition fee levels are proposed to help address cost increases and to maintain and enhance the quality of education and the student experience. These increases are fully in accordance with the University's Tuition Policy given in Appendix A and the Government's Tuition Framework. In presenting this tuition schedule, the University reaffirms its commitment to student aid and to guaranteeing accessibility, which states:

*“No student offered admission to a program at the University of Toronto should be unable to enter or complete the program due to lack of financial means.”*

The University will also continue to monitor the impact of tuition fee increases on enrolment to ensure that enrolment is unaffected by tuition, as required by the University's Fee Policy. In recent years, the University's Enrolment Report has consistently shown that demand for University programs continues to be very strong.

## **Domestic Students**

The University's Fee Policy states that public funding be supplemented as necessary to offer students an educational experience of a quality that ranks with that of the finest public research universities in the world. Tables B1 and B2 in Appendix B show the proposed tuition fees for domestic students by program and entering cohort. This schedule is applicable to students who enter the University in May 2008 or later. According to this schedule and consistent with the Fee Policy, tuition fees would rise by an average of 4.27% for all students in the University, which is below the 5% maximum stipulated by the Government's Framework.

The University strives to keep tuition to the minimum level possible without adversely affecting the quality of its programs. Significant additional expenditures are anticipated to provide additional student aid, graduate student support, enhance quality and meet academic priorities. Expenditures in 2008-09 are projected to rise by well over \$70M. New revenues are needed both from tuition fees and from government grants to minimize the impact of these cost increases on the educational programs and to ensure that the accumulated deficit remains within Governing Council guidelines. It is estimated that the proposed increases in tuition fees will bring \$22.4M of new revenue attributed to price, which will help offset cost increases.

A reduction in tuition below the proposed levels would force higher levels of expense reduction, which, in turn, means that fewer new faculty and staff can be hired, improvements to services cannot be implemented, and repairs and space renovations have to be postponed. Clearly, the University, with the help of all its stakeholders, must endeavour to minimize such adverse developments to maintain and enhance the student experience.

The total increase in tuition revenue is due to the combined effect of the increase in tuition levels (price) and changes in enrolment (volume). Price changes alone, that is the proposed increases in tuition fees, will provide \$22.4M of new revenue in 2008-09, as mentioned above. An additional \$23.8M of revenue is projected due to increases in enrolment as well as to the flow-through of previous tuition increases as students move to upper years of their programs. Thus, the total increase in revenue is projected to be \$46.2M.

The following are the salient features of the proposed tuition fee schedule for domestic students in 2008-09. Full details are given in Appendix B. Fee increases are not the same for all programs, consistent with the University's Fee Policy which calls for a differentiated fee structure. According to this Policy, tuition fees should reflect individual program goals, resource requirements, program cost, competition, etc.

### **Entering Domestic Students – Undergraduate**

Tuition fees for students entering First Year in most undergraduate programs will increase by 4.5% relative to the 2007-08 levels. Students entering First Year Arts and Science programs in 2008-09 will pay a tuition fee of \$4,776.

### **Entering Domestic Students – Graduate**

Tuition fees for all graduate programs, excluding some Professional Master's and diploma programs [MBA, MMPA, MEng, MN, MBiotech, DMA (composition and performance) and MusM (composition), MEnvSci, MF, DIFA and MPP] will rise by 4%.

### **Continuing Domestic Students – Undergraduate and Graduate**

Fee increases for all students continuing in their programs have been limited to 4% or less as per the Government's framework.

### **Special Cases**

Tuition fees for the programs in Table 1 have been set to meet the special needs and circumstances of these programs and therefore increases for entering students are higher than 4.5%. Most students moving into year 2 of these programs will continue to see tuition rise at 4%. The exception is the MD program whereby the additional funding provided by the Government has enabled the University to limit tuition increases to 2% for entering and continuing students

<b>Program</b>	<b>Year 1 Tuition</b>	<b>% Increase</b>
Medicine: MD	\$17,199	2%
Pharmacy: BScPharm	\$11,337	5%
Pharmacy: PharmD	\$29,207	5%
Engineering: BAsC	\$8,655	8%
Dentistry: DDS	\$22,612	8%
Law: JD	\$20,155	8%

Also, because of the resource requirements of select Professional Master’s programs, tuition fees for entering students have been increased by 8% in 2008-09, as seen in Table 2 below.

<b>Table 2: Professional Master’s, Special Cases 8%</b>	
<b>Program</b>	<b>Year 1 Tuition</b>
Master of Business Administration – 2 Year	\$31,493
Master of Business Administration – 3 Year	\$21,415
Master of Finance	\$29,700
Diploma in forensic Accounting	\$9,798
Master of Management in Public Accounting	\$23,048
Master of Nursing	\$7,442
Doctor of Musical Arts	\$6,602
Master of Music (composition)	\$6,602
Master of Engineering	\$8,172
Master of Environmental Science	\$7,512
Master of Biotechnology	\$10,827
Master of Public Policy	\$10,800

Three-year full-time MBA students complete their degrees in three years. Each year, they pay one third of the total full-time fee for the two-year MBA program. For 2008-09, the three-year full-time MBA fee for new domestic students will be \$21,415, with no increase in years two and three.

***Programs with higher fees in upper years***

The tuition fee structure for several undergraduate programs is such that students pay higher fees in upper years of the program, starting in Second Year. These include: Commerce, Business Administration, Computer Science, Management, Bioinformatics and Communication, Culture and Information Technology (CCIT). Tuition recommendations for students entering Second Year of these programs in 2008-09 were approved as part of the 2007-08 Tuition Fee schedule—an 8% increase for Commerce, BBA, and Management and 4.5% for the others.

Students in the 2008 entering cohort will be moving to Second Year in 2009-10. The proposed increase for Second Year in 2009-10 is 8% for Commerce, BBA and Management and 4.5% for Computer Science, Bioinformatics and CCIT over the 2008-09 second year cohort.

The following is an example of a student who entered the University in 2007-8 and entered Commerce in 2008-09. In 2007-08 the student paid the Arts & Science Year 1 fee of \$4,570. In 2008-09 the student will enter Year 2 in Commerce and will pay \$9,705. In 2009-10 the student will enter Year 3 and will pay \$10,093, which is a 4% increase over the prior year.

For clarity and to ensure that students are properly informed at the time they enter the University, tuition fees in Second Year of these programs are given separately in Table B2 of Appendix B for 2007-08, 2008-09 and 2009-10. Approval of the tuition schedule proposed in this report will constitute an approval of Second Year tuition in these programs for 2008-09 as well as 2009-10. Tuition fees in 2009-10 for all other programs and years of study will be submitted to Governing Council for approval in the spring of 2009, as per usual practice.

***Programs with Blended Fees***

There are a few programs in which tuition fees are set for the duration of the program at the point of entry and remain the same for all years of the program. That is, tuition fee increases for continuing students in these programs are 0%. These programs include: MD/PhD, MBA 3-Year, MMPA, PharmD and DIFA. The tuition fees given in Appendix B for these programs will apply to all years of the program for the 2008-09 entering cohort.

**International Students**

The University of Toronto is committed to maintaining and strengthening its international enrolment as expressed in the Statement of Commitment Regarding International Students given in Appendix A. In accordance with this commitment, the University continues to broaden and strengthen recruiting efforts abroad and to expand the international scholarship program to attract top students. There are currently 7,380 international students enrolled at the University of Toronto, representing 10.1% of the student population. This is an increase of 315 students or 4.5% above last year’s level.

The proposed tuition fee schedule for international students is given in Appendix C.

Due to higher resource requirements, tuition fees will increase by 10% in some programs (Table 3). The University’s 2007-08 international tuition fees remain below the average tuition fees of the AAU public universities.

<b>Table 3: International Tuition Fee Increase at 10%</b>	
Arts & Science: Bachelors	Nursing: BScN, MN
Music: Bachelors, DOP, ACP	PEH: BPHE
OISE/UT: BEd, CTEP	UTSC: MEnvSci
Engineering: BASc, MEng	

Tuition fees for all continuing students will increase by 5%, except in programs with blended fees. Tuition fees for international students entering the MusM (composition) program will increase by 23.5%, which represents the first year of a phased equalization with MusM (performance). Tuition fees for international students entering the DDS program will increase by 15%. Tuition fees for all other entering undergraduate and graduate students will increase by 5%.

### ***Tuition Fee Increases for 2009-10***

In order to provide potential applicants with information regarding tuition fee levels, the tables in Appendix C also show the proposed international tuition fees for 2009-10. In most cases, tuition will increase by 5%. For some programs, further increases beyond 5% are needed to cover resource requirements. Tuition fees are planned to increase by 10% in 2009-10 for those programs listed in Table 3 above (except DDS). Tuition fees for international students entering the MusM (composition) program will increase by 19%, which represents the second year of a phased equalization with MusM (performance). Tuition fees for entering DDS students will increase by 5%.

### **Fee Level Commitment**

The University's Tuition Fee Policy (Appendix A) states that in establishing the tuition fee schedule, a commitment should be made to each student upon entry as to the level of fees to be charged over the normal course of the full-time program of study. Since 1998-99 the University of Toronto has made a commitment to students in its fee schedules guaranteeing that, unless otherwise noted, no student continuing in a program will be subjected to a fee increase of more than 5% per year. The commitment will last for the normal length of the full-time program of study. For students in the doctoral stream, the commitment is in effect for two years for Master's students and for four years for PhD students. For students who participate in a Professional Experience Year or in co-op programs as part of their undergraduate program, the normal length of full-time study increases by one year. The normal length of a program will be determined each year by the University Registrar.

The Government's tuition framework for the period 2006-07 to 2009-10 limits tuition increases for domestic students who are continuing in their programs to 4% for the next two years. Consistent with this framework, tuition fee increases for continuing full-time domestic students in publicly-funded programs have been limited to 4% in 2008-09 for the normal length of full-time study.

## Partial Fees

Many students at the University of Toronto are charged partial fees based on the tuition fee for full-time study. The following formulas guide the derivation of partial fees:

1. Part-time fees for graduate programs are set at 30% of the full-time annual fee, with the exception of the Post-Masters Nurse Practitioner Diploma program.
2. The Post-Masters Nurse Practitioner Diploma program is only offered on a part-time basis over 20 consecutive months. Domestic students entering the program in 2008-09 will be charged \$5,873 in the first year, and a projected 4% increase to \$6,107 in second year. International students will be charged \$8,925 in first year and a projected 5% increase to \$9,371 in second year.
3. In programs for which tuition fees are levied on a course-by-course basis, the course tuition fee is the tuition fee for the program divided by the normal course load for full-time study.
4. Part-time fee for undergraduate programs is equal to the full-time fee pro-rated on a per course basis relative to full-time course load.
5. When computing a partial fee, the respective fee for full-time study is the tuition fee for either domestic or international students, depending on the status of the student.
6. Because of the minimum costs incurred for registration in any program, no tuition fee in 2008-09, after refunds in the case of full withdrawal from the University, will be less than \$198.

## Appendix A

### TUITION FEE POLICY

The University of Toronto's tuition fee policy should reflect its mission as an internationally significant, public research university with undergraduate, graduate and professional programs of excellent quality. Such a goal assumes an appropriate level of funding which, for a public university, means principal support from the Provincial and Federal Governments, and from endowment funds as well as tuition fees. It also assumes the existence of programs of student aid to maintain the accessibility of the University to students of varying financial means. The effect of this policy should be neutral with regard to enrolment levels, which will be determined from time to time through the University's planning processes. Our tuition fee policy has five elements:

1. **Advocacy.** In making the case for public policies strongly supportive of an accessible public system of university education, the University will continue to advocate ongoing and substantial public investment in the university sector.
2. **Fee Revenue.** The University of Toronto will continue to be a public university, for which ongoing and substantial support from government will always be essential. The basic principle of the tuition policy is that public funding should be supplemented as can be demonstrated to be necessary to offer students an educational experience of a quality that ranks with that of the finest public research universities in the world.
3. **Fee Differentiation.** The University should continue to move toward a more differentiated structure of fees across programs. In setting fees for each particular program, the following factors will be taken into account:
  - fees should take into account the plans and aspirations of each academic division, and the level of resources necessary to achieve high program quality
  - program costs should be taken into account in setting fees.
  - fees should be set at a level that is competitive with programs of similar quality in institutions with which we compete or expect to compete for students.
  - fee levels should be relatively higher in programs for which the future income prospects of graduates are relatively higher.
  - fee levels should reflect a justifiable balance across public and private sources of revenue per student.
  - fee policy should allow for intentional, disproportionate public subsidies and intra-university cross-subsidies, where a case for cross-subsidization can be made.

In bringing forward the tuition fee schedule each time, the administration shall provide an explanation taking account of the above factors.

4. **Fee Level Commitment.** The tuition fee schedule will include a commitment to be made to each student upon entry as to the level of fees to be charged over the normal course of the full-time program of study.
  
5. **Monitoring.** In presenting the annual Report on Enrolment, the Vice-President and Provost shall include commentary regarding the effects, if any, of changes in tuition fees upon changes in enrolment.

March 25, 1998

**STATEMENT OF COMMITMENT  
REGARDING INTERNATIONAL STUDENTS**

**1. Preamble**

- (a) International students are an essential feature of the University of Toronto's participation in international scholarship. They contribute to the international character of the University's research, and provide opportunities for the international exchange of knowledge through its teaching programs. The presence of outstanding students from all parts of the world in the University's undergraduate and graduate, professional, and research programs, helps to achieve the excellence the University seeks to assure for all its activities. On the University's campuses international students also make an important and positive contribution to the cultural life of the community and create lasting relationships of benefit to individuals as well as to the institution and the country generally. And finally, by enrolling international students, the University of Toronto, as an internationally significant university, has an opportunity to share its educational resources with other countries whose institutions are still evolving.
  
- (b) In light of these considerations, the Governing Council has adopted the Statement of Commitment Regarding International Students that commits the University to enrolling a broad mix of international students in its programs, and that articulates the basic principles that will guide their admission to the University, arrangements for their financial support, right of access to academic courses and programs, and the provision of services to address their particular needs.
  
- (c) This Statement of Commitment applies to University of Toronto students in university degree, diploma and certificate programs who are not Canadian citizens, permanent residents, or convention refugees.

**2. Statement of Principles**

- (a) Within the framework of divisional academic plans, the University of Toronto welcomes international students into all of its programs.

- (b) The admission of international students will be consistent with the Policies and Principles for Admission to the University of Toronto approved by the Governing Council in 1991.
- (c) The University will broaden and strengthen its recruiting efforts abroad.
- (d) Once admitted to the University, international students will have access to the same range of courses and support services on the same basis as other students.

### 3. **Financial Support**

- (a) International students who are admitted and enrolled may encounter financial emergencies and the University will provide financial assistance as needed and where possible.
- (b) The University will develop a program of international admission scholarships using its own resources and support from external sources to be awarded on the basis of exceptional academic merit and financial need.
- (c) The Report of the Vice-Provost, Students on Student Financial Support, submitted annually to governance for information, will include data on the support provided to international students.

MIRHR (12-month Advanced Standing Option), Entered 2007	\$10,929	\$11,366
MIRHR (12-month Advanced Standing Option), Entering 2008	NA	\$11,366
<b>SOCIAL WORK</b>		
SOCIAL WORK, MSW, Entered 2007	\$6,636	\$6,901
SOCIAL WORK, MSW, Entering 2008	NA	\$6,901
<b>TRANSITIONAL YEAR PROGRAM</b>		
Regular	\$3,884	\$4,059
Extended, Entered in 2007	\$1,943	\$2,021
Extended, Entering in 2008	NA	\$2,030

- \* After minimum registration, i.e., in Year 5 & onwards students are subject to prevailing SGS doctoral stream tuition fee.
- \*\* After minimum registration, i.e., in Year 5 & onwards students are subject to prevailing SGS doctoral stream tuition fee.
- \*\*\* After minimum registration, i.e., in Year 4 & onwards students are subject to prevailing SGS doctoral stream tuition fee.
- \*\*\*\* After minimum registration, i.e., in Year 7 & onwards students are subject to prevailing SGS doctoral stream tuition fee.

**Notes:**

- 1) Tuition fee increases for full-time domestic students continuing in program are limited to 4% in 2008-09 for normal length of a full-time program.
- 2) For students who participate in a Professional Experience Year or Co-op Programs as part of their undergraduate program, the normal length of full-time study is increased by one year.
- 3) For students in the Master of Architecture program, the normal length of full-time study is 3.5 years. See Table 4 for details.
- 4) Tuition fee rates for each year noted above are effective May 1. For example, the tuition fees for 2008-09 commence in the Summer 2008 session.

Bachelors - Comm/Bus Admin, 2006 Cohort (See Note 8)	\$8,986	\$9,345	\$9,719
Bachelors - Comm/Bus Admin, 2007 Cohort (See Note 1&2)	\$4,570	\$9,705	\$10,093
Bachelors - Comm/Bus Admin, 2008 Cohort (See Note 1&3)	NA	\$4,776	\$10,481
Bachelors - Mgt UTM, 2005 Cohort (See Note 8)	\$7,155	\$7,441	NA
Bachelors - Mgt UTM, 2006 Cohort (See Note 8)	\$7,190	\$7,478	\$7,777
Bachelors - Mgt UTM, 2007 Cohort (See Note 1&6)	\$4,570	\$7,765	\$8,076
Bachelors - Mgt UTM, 2008 Cohort (See Note 1&7)	NA	\$4,776	\$8,386

**Notes:**

- 1) Students entering these programs pay the Arts and Science tuition fee in Year 1. They begin to pay the program fee in Year 2.
- 2) For the 2007 Cohort, the tuition fee for students in Year 2 of the Commerce/BBA programs in 2008-09 will be \$9,705, which represents an 8% increase over the 2007-08 Year 2 fee of \$8,936.
- 3) For the 2008 Cohort, the tuition fee for students in Year 2 of the Commerce/BBA program in 2009-10 will be \$10,481, which represents an 8% increase over the 2008-09 Year 2 fee of \$9,705.
- 4) For the 2007 Cohort, the tuition fee for students in Year 2 of the Computer Science, CCIT and Bioinformatics programs in 2008-09 will be \$7,454, which represents a 4.5% increase over the 2007-08 Year 2 fee of \$7,133.
- 5) For the 2008 Cohort, the tuition fee for students in Year 2 of the Computer Science, CCIT and Bioinformatics programs in 2009-10 will be \$7,789, which represents a 4.5% increase over the 2008-09 Year 2 fee of \$7,454.
- 6) For the 2007 Cohort, the tuition fee for students Year 2 of the Management (UTM) program in 2008-09 will be \$7,765, which represents a 8.0% increase over the 2007-08 Year 2 fee of \$7,190.
- 7) For the 2008 Cohort, the tuition fee for students in Year 2 of the Management (UTM) program in 2009-10 will be \$8,386, which represents an 8% increase over the 2008-09 Year 2 fee of \$7,765.
- 8) For the 2005 and 2006 Cohorts, tuition fees will increase by 4% relative to the previous year.
- 9) Tuition fee rates for each year noted above are effective May 1. For example, the tuition fees for 2008-09 commence in the Summer 2008 session.

<b>TRANSITIONAL YEAR PROGRAM</b>				
	Regular	NA	NA	NA
	Extended	NA	NA	NA
*	After minimum registration, i.e. in Year 5 & onwards, students are subject to the SGS doctoral stream tuition fee.			
**	After minimum registration, i.e. in Year 7 & onwards, students are subject to the SGS doctoral stream tuition fee.			
<b>Notes:</b>				
1)	Tuition fee increases for full-time international students continuing in program are limited to 5% in 2007-08 for normal length of a full-time program of study.			
2)	For students who participate in a Professional Experience Year or Co-op Programs as part of their undergraduate program, the normal length of program is increased by one year.			
3)	For students in the Master of Architecture program, the normal length of full-time study is 3.5 years. See Table 4 for details.			
4)	Tuition fee rates for each year noted above are effective May 1. For example, the tuition fees rates for 2008-09 commence in the Summer 2008 session.			

**Appendix C**

Bachelors - Mgt UTM, 2005 Cohort (See Note 8)	\$19,845	\$20,837	NA
Bachelors - Mgt UTM, 2006 Cohort (See Note 8)	\$19,845	\$20,837	\$21,879
Bachelors - Mgt UTM, 2007 Cohort (See Note 1&6)	\$17,640	\$20,837	\$21,879
Bachelors - Mgt UTM, 2008 Cohort (See Note 1&7)	NA	\$19,404	\$21,879
Bachelors - Mgt UTM, 2009 Cohort (See Note 9)	NA	NA	\$21,344

**Notes:**

- 1) Students entering these programs pay the Arts & Science tuition fee in Year 1. They begin to pay the program fee in Year 2.
- 2) For the 2007 Cohort, the tuition fee for students in Year 2 of the Commerce/BBA programs in 2008-09 will be \$23,814, which represents a 8% increase over the 2007-08 Year 2 fee of \$22,050.
- 3) For the 2008 Cohort, the tuition fee for students in Year 2 of the Commerce/BBA program in 2009-10 will be \$25,005, which represents an 5% increase over the 2008-09 Year 2 fee of \$23,814.
- 4) For the 2007 Cohort, the tuition fee for students in Year 2 of the Computer Science, CCIT and Bioinformatics programs in 2008-09 will be \$20,837, which represents a 5% increase over the 2007-08 Year 2 fee of \$19,845.
- 5) For the 2008 Cohort, the tuition fee for students in Year 2 of the Computer Science, CCIT and Bioinformatics programs in 2009-10 will be \$21,879, which represents a 5% increase over the 2008-09 Year 2 fee of \$20,837.
- 6) For the 2007 Cohort, the tuition fee for students Year 2 of the Management (UTM) program in 2008-09 will be \$20,837, which represents a 5% increase over the 2007-08 Year 2 fee of \$19,845.
- 7) For the 2008 Cohort, the tuition fee for students in Year 2 of the Management (UTM) program in 2009-10 will be \$21,879, which represents an 5% increase over the 2008-09 Year 2 fee of \$20,837.
- 8) For the 2005 and 2006 Cohorts, tuition fees will increase by 5% relative to the previous year.
- 9) For the 2009 Cohorts, tuition fees for students in Year 1 will increase by 10% relative to the previous year.
- 10) Tuition fee rates for each year noted above are effective May 1. For example, the tuition fees for 2008-09 commence in the Summer 2008 session.
