

Committee on Academic Policy and Programs: Guidelines Regarding Levels of Approval

The level of approval required for proposals relating to academic policy and programs under the authority of Governing Council depends upon the magnitude and significance of the proposed changes to existing policy. Policy and program changes specific to particular academic divisions are approved in the first instance by divisional councils. University-wide policy proposals are developed by the central administration. The point of entry for all academic policy and program proposals into University governance is the Committee on Academic Policy and Programs (AP&P). The judgment as to the level of approval warranted for a given proposal is made by the Chair of the Committee on the advice of the agenda planning group. Examples of the types of proposals, by the level of approval warranted, are given in the table below:
