Re: Extension of the term of Scott Mabury as Vice-President, Operations and Real Estate Partnerships and Vice-Provost, Academic Operations

I am pleased to announce that the Governing Council has approved the extension of the term of Professor Scott Mabury as Vice-President, Operations and Real Estate Partnerships, as well as his term as Vice-Provost, Academic Operations, to June 30, 2026.

In January 2019 the Governing Council approved the appointment of Professor Mabury in the newly created position of Vice-President, Operations and Real Estate Partnerships. The term of the appointment was from January 1, 2019 until June 30, 2023. At that time, it also approved the extension of his term as Vice-Provost, Academic Operations to June 30, 2023.

Professor Mabury has been a strong and visionary leader of the large and complex Operations and Real Estate Partnerships portfolio. The extension of his term ensures that the University maintains momentum and maximizes opportunities to complete major initiatives currently underway. In addition, with the extension of my appointment by two years to June 30, 2025, it also will afford my successor a smooth transition in this key leadership position.

Since joining the Vice-Presidential team in 2012 as Vice-President, University Operations, Professor Mabury has had a transformative impact on the fabric of the University of Toronto. Some of his more recent accomplishments include the approval of the St. George Secondary Plan, the launch of the Climate Positive Campus Plan (which has positioned the St. George campus as an emerging post-secondary leader in sustainability), securing a partnership with the...
Canadian Infrastructure Bank (CIB), and the Landmark Project (which is slated for completion in 2023). He has also provided leadership with regard to the financial health and sustainability of the University, information technology and information security, and institutional data. Another signal achievement has been the establishment and implementation of the University’s Four Corners real estate strategy. With the extension of his term, Professor Mabury will be well positioned to work with me to shape the further growth, consolidation and leadership of this significant component of his portfolio, ensuring its long-term success.

I am deeply grateful to Professor Mabury for his outstanding service to the University, and for his willingness to continue in this critical leadership role.
